Date: 20<sup>th</sup> December 2023

Ref: CORP 2023 - 201

Dear xxxxx

**Freedom of Information request: Patient radiation dose recording and management system (CORP 2023 – 201)**

Thank you for your request for information which the Trust received on 4<sup>th</sup> December 2023.

Your Request:

- 1. Do(es) your hospital(s) have a software system capable of patient radiation dose recording and management in radiology? (Note: this could be a stand along product or be part of a PACS or other radiology platform solution)*
- 2. If so, is it a commercially available system or a system free of cost to use?*

Please find the Trust's response below

- 1. Do(es) your hospital(s) have a software system capable of patient radiation dose recording and management in radiology? (Note: this could be a stand along product or be part of a PACS or other radiology platform solution)?**

The Trust has GE Revolution CT scanner which sends a dose report per patient to PACS.

The Trust also has some systems linked up to Qualum, which is a standalone commercially available dose management system. Currently only CT is linked to this, which pulls patient dose data directly from PACS.

There is an All-Wales procurement for RIS (Radiology Informatics System) set to be rolled out in the coming years, which will also involve a new patient dose management system

- 2. If so, is it a commercially available system or a system free of cost to use?**

This is a free system as part of the scanner.

Mae Ymddiriedolaeth GIG Prifysgol Felindre yn hapus i dderbyn gohebiaeth yn y Gymraeg neu'r Saesneg.  
Velindre University NHS Trust is happy to receive communication in Welsh or English.
