Please find the Trust's response below:

Q1. Does your trust provide SACT (systemic anti-cancer therapy) treatments for endometrial cancer? If not, which other trust do you refer endometrial cancer patients to for SACT treatments? - Yes

For questions 2 and 3, the Trust does not record the data requested in a format that enables the information to be easily retrieved to the level of detail required to specifically answer your request.

In reaching this decision we estimate that it would take a minimum of 22 hours or £550 an amount of £100 over the core amount of £450 extra to obtain the data. The amount would require payment in full prior to the Trust undertaking the work.

As result, the Trust is applying an exemption under Section 12 Freedom of Information Act (Exemption where cost of compliance exceeds appropriate limit), the legislation in this instance states:

12 Exemption where cost of compliance exceeds appropriate limit.

- (1) *Section 1(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the appropriate limit.*

The Trust has a duty to advise and assist you under Section 16 of the Act and therefore may I suggest that you consider the option to revise your request so that it falls below the prescribed appropriate limit.

Q4. Does your trust participate in any clinical trials for the treatment of endometrial cancer? If so, can you please provide the name of each trial and the number of patients taking part.

Title: AtTEnd - Atezolizumab in Endometrial cancer.
Recruitment = 7

Title: DOMENICA STUDY - Randomized phase III trial in MMR deficient endometrial cancer patients comparing chemotherapy alone versus Dostarlimab in first line advanced/metastatic setting (GINECO-EN105b/ENGOT-en13 study).
