

Date: 9<sup>th</sup> December 2025  
Ref: CORP 25/26 - 176

Dear xxx

**Freedom of Information request: Clinical AI Systems and DPIA Status (CORP 25/26 – 176)**

Thank you for your request for information which the Trust received on 14<sup>th</sup> November 2025.

Your Request:

For the period 1 January 2023 to present, please provide the recorded information you hold (for example in clinical or IT system inventories, digital system registers, or DPIA records) relating to any system that:

- processes patient data, and
- uses algorithms, machine learning, or automated decision-making to support or influence clinical diagnosis, triage, decision-support, or treatment recommendations.

Examples include radiology AI tools, clinical triage chatbots, diagnostic decision-support systems, predictive risk scoring models, and AI-assisted pathology tools.

Please provide the following information:

**System Details**

- system name
- supplier
- primary clinical function (e.g., radiology support, diagnostic support, clinical triage, risk prediction)
- date the system was first deployed or first used with patient data

**Data Protection Impact Assessment (DPIA)**

- whether a DPIA exists (Yes/No)
- the date the DPIA was completed, if held • if no DPIA exists, whether one is planned (Yes/No/Not recorded)

Please find the Trust's response below:

**For the period 1 January 2023 to present, please provide the recorded information you hold (for example in clinical or IT system inventories, digital system registers, or DPIA records) relating to any system that:**

- **processes patient data, and**
- **uses algorithms, machine learning, or automated decision-making to support or influence clinical diagnosis, triage, decision-support, or treatment recommendations.**

Mae Ymddiriedolaeth GIG Prifysgol Felindre yn hapus i dderbyn gohebiaeth yn y Gymraeg neu'r Saesneg.  
Velindre University NHS Trust is happy to receive communication in Welsh or English.

Examples include radiology AI tools, clinical triage chatbots, diagnostic decision-support systems, predictive risk scoring models, and AI-assisted pathology tools.

Please provide the following information:

**System Details**

- system name
- supplier
- primary clinical function (e.g., radiology support, diagnostic support, clinical triage, risk prediction)
- date the system was first deployed or first used with patient data
