0 min

Led by Prof Donna Mead OBE, Chair

12:45 - 12:45 9. DATE OF NEXT MEETING

0 min

Led by Prof Donna Mead OBE, Chair

30th March 2022

12:45 - 13:15 10. LUNCH

30 min

VELINDRE UNIVERSITY NHS TRUST

**PUBLIC TRUST BOARD MEETING 24 NOVEMBER 2022
ACTION LOG**

ACTIONS ARISING FROM 27/01/2022					
No.	Action	Owner	Target Date	Progress to date	Status (Open / Closed)
7.2.0	<p>Cardiff Cancer Research Hub, Proposal for a Tripartite partnership between Cardiff and Vale UHB, Cardiff University and Velindre University NHS Trust</p> <p>The next phase of development to include agreement to key principles that will go on to establish a formal Heads of Terms for the model going forwards.</p>	Executive Medical Director	January 2023	The Heads of Terms (HoT) document is nearing completion and an update is scheduled to be presented at Executive Management Board on 6 February together with progress in relation to the Hub branding. Legal review of the HoT is planned. HoT are not legally binding but are a precursor to an appropriate future legally binding agreement.	OPEN
ACTIONS ARISING FROM 26/05/2022					
5.1.0	<p>Trust Enabling Strategies for Approval</p> <p>The case studies that are to be included in the Trust Enabling Strategies will be circulated to the Board when finalised.</p>	Director of Strategic Transformation, Planning and Digital	End December 2022	Documents at final quality check stage including accessibility requirements, which include the case studies	OPEN

ACTIONS ARISING FROM 24/11/2022

No.	Action	Owner	Target Date	Progress to date	Status (Open / Closed)
5.1.0	An update on Brachytherapy to be presented to the Board at the January 2023 Board	Chief Operating Officer	31/01/2023	The Brachytherapy update is included in the cover paper of the Performance Report included in the January 2023 Trust Board meeting papers.	CLOSED
5.6.0	The wording in the paragraph at the end of page 3 to be amended to correctly reflect status of training during the time period.	Executive Director of Nursing, AHPs and Health Science	31/01/2023	The paragraph was amended to reflect the following: There have been no incidents or complaints affecting care linked to staffing levels for the reporting period. PADR compliance overall was good achieving 100% in some areas. There was a plan to undertake all outstanding PADR's where 100% was not achieved. Training compliance good overall. Discussions were held around achieving top of license working and the implementation of Band 4 Associate Practitioners based on NHS Wales agreed standards.	CLOSED
7.1.0	The risk in relation to Brachytherapy is currently green however, due to new issues a review and update of the risk to be done.	Chief Operating Officer	31/01/2023	The review of this risk is being undertaken as part of the regular risk review cycle and, as such, is currently working through the approval process.	OPEN

TRUST BOARD

CHAIRS URGENT ACTION MATTER REPORT

DATE OF MEETING	31/01/2023	
PUBLIC OR PRIVATE REPORT	Public	
IF PRIVATE PLEASE INDICATE REASON	Not Applicable - Public Report	
PREPARED BY	Emma Stephens, Head of Corporate Governance	
PRESENTED BY	Lauren Fear, Director of Corporate Governance and Chief of Staff	
EXECUTIVE SPONSOR APPROVED	Lauren Fear, Director of Corporate Governance and Chief of Staff	
REPORT PURPOSE	CONSIDER and ENDORSE	
COMMITTEE/GROUP WHO HAVE RECEIVED OR CONSIDERED THIS PAPER PRIOR TO THIS MEETING		
COMMITTEE OR GROUP	DATE	OUTCOME
Trust Board Members – Via Email	13/01/2023	Approved
ACRONYMS		
WBS	Welsh Blood Service	

1. SITUATION/BACKGROUND

- 1.1 In accordance with Trust Standing Orders, there may occasionally, be circumstances where decisions, which would normally be made by the Board, need to be taken between scheduled meetings and it is not practicable to call a meeting of the Board. In these circumstances, the Chair and Chief Executive, supported by the Director of Corporate Governance & Chief of Staff, as appropriate, may deal with the matter on behalf of the Board – after first consulting with at least two other Independent Members. The Director

of Corporate Governance & Chief of Staff must ensure that any such action is formally recorded, and reported to the next meeting of the Board for consideration and ratification. Where issues are included in the Schedule of 'Expected Urgent Decisions' and prior approval is sought from the Board, these issues will not be reported here.

1.2 Chair's action may not be taken where either the Chair or the Chief Executive has a personal or business interest in an urgent matter requiring decision. In this circumstance, the Vice-Chair or the Executive Director acting on behalf of the Chief Executive will take a decision on the urgent matter, as appropriate.

1.3 This report details Chair's Urgent Action taken between the **16/11/2022 – 23/01/2023**.

2. ASSESMENT / SUMMARY OF MATTERS FOR CONSIDERATION

2.1 Option Appraisal / Analysis:

The items outlined in **Appendix 1** have been dealt with by Chairs Urgent Action.

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	Yes (Please see detail below) This action is by exception and with prior approval from the Chair. The provision to permit this urgent action is to allow for quick decisions to be made where it is not practicable to call a Board meeting and to avoid delays that could affect service delivery and quality.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability If more than one Healthcare Standard applies please list below:
EQUALITY IMPACT ASSESSMENT COMPLETED	Not required
LEGAL IMPLICATIONS / IMPACT	Yes (Include further detail below) Legal impact was captured within the documentation considered by the Board.
FINANCIAL IMPLICATIONS / IMPACT	Yes (Include further detail below) Financial impact was captured within the documentation considered by the Board.

4. RECOMMENDATION

4.1 The Board is asked to **CONSIDER** and **ENDORSE** the Chairs urgent action taken between the **16/11/2022 – 23/01/2023** as outlined in **Appendix 1**.

Appendix 1

The following items were dealt with by Chairs Urgent Action:

1. WBS Feasibility Study Laboratory Modernisation

The Trust Board were sent an email on the **13/01/2023** regarding a Commitment of Expenditure request to take forward a Feasibility Study to support Laboratory Modernisation within the Welsh Blood Service.

The Trust Board were requested to **APPROVE** the following:

- To **AUTHORISE** the Chief Executive to **APPROVE** the financial commitment to be awarded as summarised within the supporting paper provided to the Board, and **AUTHORISE** the Chief Executive to **APPROVE** requisitions for expenditure under the named agreements where appropriate.

A number of points and queries were raised that were subsequently addressed via a revised supporting paper re-issued to the Board.

There were no objections to approval.

Recommendation Approved by:

- Donna Mead, Chair
- Steve Ham, Chief Executive
- Stephen Harries, Vice Chair
- Vicky Morris, Independent Member
- Professor Andrew Westwell, Independent Member
- Sarah Morley, Executive Director of Organisational Development & Workforce

1. SITUATION/BACKGROUND

- 1.1 Velindre University NHS Trust (VUNHST) has a Scheme of Delegation, as set out in its Standing Orders, together with its Standing Financial Instructions (SFIs), which ensures that there are effective governance arrangements in place for the delegation of financial authority.
- 1.2 Financial limits apply to the commitment of expenditure. If expenditure is greater than an individual's financial limit, and is more than the limit delegated to the VUNHST Chief Executive, the planned expenditure will require VUNHST Board approval. For extensions of existing contracts in place, this only applies if the provision for extension was not included in the original approval granted by the Trust Board.
- 1.3 The decisions expected during the period **31 January 2023 to 30 March 2023** are highlighted in this report and are seeking approval for the Chief Executive to authorise approval outside of the Trust Board.
- 1.4 In line with the review of the process for Commitment of Expenditure over the Chief Executive's Limit, all reports are now received by the Executive Management Board to ensure Executive oversight and scrutiny, to provide the Board with supporting recommendations and additional assurance as required.

2. ASSESMENT / SUMMARY OF MATTERS FOR CONSIDERATION

- 2.1 Please refer to **Appendices 1-4** for the detailed appraisals undertaken for each of the expenditure proposals that the Trust Board is asked to **APPROVE**. The table below provides a summary of the decisions being sought from the Trust Board:

Appendix No.	Division	Scheme / Contract Agreement Title	Period of Contract	Total Expected Maximum Value of Contract £ (Inc. VAT)
Appendix 1	Corporate Finance	Value Based Healthcare Programme - Clinical	Start: 01/02/2023 End: 01/08/2023 Option to extend: This application is for a 6-12 month contract on a time and materials basis. The contract may be extended up to a maximum of 50% of the contract value in line with procurement contract regulations.	£180,000
Appendix 2	Corporate Finance	Value Based Healthcare Programme - Analytics	Start: 01/02/2023 End: 01/08/2023 Option to extend: This application is for a 6-12 month contract on a time and materials basis. The contract may be extended up to a maximum of 50% of the contract value in line with procurement contract regulations.	£540,000
Appendix 3	Research, Development & Innovation	Cardiff Cancer Research Hub	Start: 01/03/2023 End: 01/07/2023 Option to extend: This application is for a 4-month contract on a time and materials basis. The contract may be extended up to a maximum of 50% of the contract value in line with procurement contract regulations, however, additional funding would need to be approved if any contract extension is required.	£150,000

Appendix No.	Division	Scheme / Contract Agreement Title	Period of Contract	Total Expected Maximum Value of Contract £ (Inc. VAT)
Appendix 4	Estates, Environment & Capital	Fire Compartmentation Compliance	<i>Please refer to separate report: 'Fire Compartmentation Compliance' together with supporting annexes.</i>	

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	There are no specific quality and safety implications related to the activity outlined in this report.
	Due authority is being sought in advance of expenditure to ensure the compliant provision of goods/services to meet operational requirements.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability
	If more than one Healthcare Standard applies please list below:
EQUALITY IMPACT ASSESSMENT COMPLETED	No (Include further detail below)
	Undertaken on a case by case basis, as part of the procurement process.
LEGAL IMPLICATIONS / IMPACT	If applicable, as identified in each case as part of the service design/procurement process.
FINANCIAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	Further details are provided in Appendix 1-4 of this report.

4. RECOMMENDATION

- 4.1 The Board is requested to **AUTHORISE** the Chief Executive to **APPROVE** the award of contracts summarised within this paper and supporting appendices **and AUTHORISE** the Chief Executive to **APPROVE** requisitions for expenditure under the named agreement.

**COMMITMENT OF EXPENDITURE EXCEEDING
CHIEF EXECUTIVE’S LIMIT / BUSINESS JUSTIFICATION**

SCHEME TITLE	VALUE-BASED HEALTHCARE PROGRAMME
DIVISION / HOST ORGANISATION	Corporate, Finance
DATE PREPARED	21/12/2022
PREPARED BY	Chris Moreton, Deputy Director of Finance
SCHEME SPONSOR	Matthew Bunce, Executive Director of Finance

All Divisional proposals must be consistent with the strategic and operational plans of Velindre University NHS Trust.

1. DESCRIPTION OF GOODS / SERVICES / WORKS						
Clinical and Scientific Strategy and Prioritisation						
<p>The Value Based Healthcare programme is also committed to support a strengthened clinical leadership infrastructure. The purpose of this is to provide the required level of clinical leadership to lead on optimising the non-surgical oncology pathways across South East Wales, and to also lead on the clinical workforce modernisation / transformation in order to ensure that the regional non-surgical oncology workforce is ‘fit for the future’.</p> <p>In support of this work, there is a need to develop a Trust Clinical Scientific Strategy and external support and expertise is being sought to help deliver this given the capacity constraints on current staff.</p>						
Requirement						
In order to accelerate the progress of the Value-Based Healthcare programme we are also seeking external support and expertise to deliver the Trust’s Clinical Scientific Strategy.						
Summary of Estimated Contract Charges (Excl. VAT)						
The estimated cost of the contract for 6-12 months is £150k (inc. the value of up to 50% maximum extension).						
1.1 Nature of contract:	First time	<input checked="" type="checkbox"/>	Contract Extension	<input type="checkbox"/>	Contract Renewal	<input type="checkbox"/>

Please indicate with a (x) in the relevant box					
1.2 Period of contract including extension options:					
Expected Start Date of Contract	01/02/2023				
Expected End Date of Contract	01/08/2023				
Contract Extension Options (E.g. maximum term in months)	This application is for a 6-12 month contract on a time and materials basis. The contract may be extended up to a maximum of 50% of the contract value in line with procurement contract regulations.				

2. STRATEGIC FIT (*Host organisations are not required to complete Section 2*)

2.1 OUR STRATEGIC PILLARS	
This scheme should relate to at least one of the Trust's five strategic pillars. Please mark with a (x) in the box the relevant pillars for this scheme.	
Goal 1: Be recognised as a pioneer in blood and transplantations services across Europe.	<input checked="" type="checkbox"/>
Goal 2: Be a recognised leader in specialist cancer services in Europe.	<input checked="" type="checkbox"/>
Goal 3: Be recognised as a leader in stated priority areas of research, development and innovation.	<input type="checkbox"/>
Goal 4: An established 'University' Trust which provides highly valued knowledge and learning for all.	<input type="checkbox"/>
Goal 5: An exemplar of sustainability that supports global well-being and social value.	<input checked="" type="checkbox"/>

2.2 INTEGRATED MEDIUM TERM PLAN		
Is this scheme included in the Trust Integrated Medium Term Plan?	Yes	No
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2.3 SHAPING OUR FUTURE WELLBEING OBJECTIVES		

This scheme should relate to at least one of the Trust's wellbeing objectives. Please mark with a (x) in the box the relevant objectives for this scheme.									
Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways.									<input checked="" type="checkbox"/>
Improve the health and well-being of families across Wales by striving to care for the needs of the whole person.									<input checked="" type="checkbox"/>
Create new, highly skilled jobs and attract investment by increasing our focus on research, innovation and new models of delivery.									<input type="checkbox"/>
Deliver bold solutions to the environmental challenges posed by our activities.									<input type="checkbox"/>
Bring communities and generations together through involvement in the planning and delivery of our services.									<input type="checkbox"/>
Demonstrate respect for the diverse cultural heritage of modern Wales.									<input type="checkbox"/>
Strengthen the international reputation of the Trust as a centre of excellence for teaching, research and technical innovations whilst also making a lasting contribution to global well-being.									<input type="checkbox"/>
FIVE WAYS OF WORKING (SUSTAINABLE DEVELOPMENT PRINCIPLES) CONSIDERED									
Please mark with a (x) in the box the relevant principles for this scheme. Click here for more information									
Prevention	<input checked="" type="checkbox"/>	Long Term	<input checked="" type="checkbox"/>	Integration	<input checked="" type="checkbox"/>	Collaboration	<input checked="" type="checkbox"/>	Involvement	<input checked="" type="checkbox"/>

3. OPTIONS CONSIDERED

Include 'business as usual' i.e. 'do nothing'

3.1 Please state alternative options considered and reasons for declining
Clinical Scientific Strategy
Option 1 - Do Nothing – If the contract is not put in place, the progress of the Value-Based Healthcare programme and the development of the Trust Clinical Scientific Strategy will be severely restricted.
Option 2 – Award contract – Awarding the contract with a provider for 6-12 months will enable the development of the Trust's Clinical Scientific Strategy at Velindre and support the development of the Value-Based Healthcare programme through clear direction and set of clinical / scientific priorities.

4. BENEFITS (Quantifiable / Non-Quantifiable)

4.1 Outline benefits of preferred option
<p>The benefits of the Clinical Scientific Strategy include:</p> <ul style="list-style-type: none"> • Person centred care / services • Improved experience • Best Care, Best Place by Right Staff @ Right Time • Clarity of priorities • Ensuring equitable access to new science and technologies • Enhanced opportunities for joint & collaborative working • Preparing for clinical transformation/direction of travel • Clarity about areas of clinical risk • Identifying where we are unable to meet our objectives and why.

5. RISKS & MITIGATION

5.1 Please state risks of not proceeding with the scheme	5.2 Please state any mitigation to reduce the risk if the scheme is not approved
<p>Not proceeding will severely restrict the progress of the Value-Based Healthcare programme, the Value Intelligence Centre and the Clinical Scientific Strategy.</p> <p>There is a reputational risk to Velindre that we will not deliver on the commitments made within the business case submitted to Welsh Government and will lose access to funding as a result.</p>	<p>There is no mitigation. If the contract is not in place, we will not be able to proceed with the scope of work that was provided to Welsh Government in the Value Intelligence Centre business case.</p>

6. PROCUREMENT ROUTE

6.1 How is the contract being procured? Please mark with a (x) as relevant.

Competition 3 Quotes <input type="checkbox"/> Formal Tender Exercise <input type="checkbox"/> Mini competition <input checked="" type="checkbox"/> Find a Tender <input type="checkbox"/> <small>(replaces OJEU Public Contract regulations 2015 still apply)</small>	Single source Single Quotation Action <input type="checkbox"/> Single Tender Action <input type="checkbox"/> Direct call off Framework <input type="checkbox"/> All Wales contract <input type="checkbox"/>
Click here for link to Procurement Manual for additional guidance	
6.2 Please outline the procurement strategy	
The Framework MCF3 has been identified as the appropriate procurement route.	
6.3 What is the approximate time line for procurement?	
NWSSP Procurement services will have negotiated the 6 month contract with a supplier by the 30 th January 2023. Extending the contract by a further 6 months is permitted as long as it is within the maximum 50% additional value stipulated in Regs 72 of the Public Contracts Regulations (2015).	

6.4 PROCUREMENT ROUTE APPROVAL

The Head of Procurement / Delegated Authority has approved the preferred procurement route	
Head of Procurement Name:	Helen James
Signature:	
Date:	21 st December 2022

Maximum expected whole life cost relating to the award of contract	Excluding VAT (£k) £150k	Including VAT (£k) £180k
The nature of spend	Capital <input type="checkbox"/>	Revenue <input checked="" type="checkbox"/>
How is the scheme to be funded? Please mark with a (x) as relevant.		
Existing budgets	<input checked="" type="checkbox"/>	
Additional Welsh Government funding	<input checked="" type="checkbox"/>	
Other	<input type="checkbox"/>	
If you have selected 'Other' – please provide further details below:		
For clarity, funding for the Value-Based Healthcare programme is being provided by Welsh Government who have authorized this spend as part of an approved business case.		

7. FINANCIAL ANALYSIS

PROFILE OF EXPENDITURE

EXPENDITURE CATEGORY	Year 1 31st Jan 2023 – 30th Jan 2024 (exc. VAT) £	Total (exc. VAT) £	Total (inc. VAT) £
Clinical Scientific Strategy	£100,000	£100,000	£120,000
Clinical Scientific Strategy extension (up to 50% max value of contract)	£50,000	£50,000	£60,000
Total	£150,000	£150,000	£180,000

8. PROJECT MANAGEMENT (if applicable)

What are the management arrangements associated with this scheme? E.g. PRINCE 2	N/A This contract will be managed by Finance as the host function for the Value-Based Healthcare programme.
--	---

9. DIRECTOR/SPONSOR DECLARATION OF COMPLIANCE

The Lead Director, by providing email confirmation, to seek Board approval is making a declaration that all procurement procedures, standing orders and standing financial instructions requirements have been appropriately discharged and observed and that where relevant, appropriate advice and confirmation has been obtained to that effect. Procurement Services retain this confirmation electronically in the tender file.	
Lead Director Name:	Matthew Bunce
Signature:	
Service Area:	Finance
Date:	21/12/2022

10. APPROVALS RECEIVED

List and include date of approvals received in support of this scheme.

Divisions	Date of Approval:
EMB RUN	03/01/2023

This is a Trust-wide initiative procured at corporate level.

Host Organisations	Date of Approval:

HTW – Senior Management Team	N/A

COMMITMENT OF EXPENDITURE EXCEEDING CHIEF EXECUTIVE'S LIMIT / BUSINESS JUSTIFICATION

SCHEME TITLE	VALUE-BASED HEALTHCARE
DIVISION / HOST ORGANISATION	Corporate, Finance
DATE PREPARED	21/12/2022
PREPARED BY	Chris Moreton, Deputy Director of Finance
SCHEME SPONSOR	Matthew Bunce, Executive Director of Finance

**All Divisional proposals must be consistent with the strategic and operational plans of
Velindre University NHS Trust.**

1. DESCRIPTION OF GOODS / SERVICES / WORKS

Analytics Capability Development for the Value Intelligence Centre

Velindre University NHS Trust are establishing a Value Intelligence Centre to develop a common approach to the delivery of Value-Based Healthcare management practices across the Trust. As a Centre-of-Excellence for Value-Based Healthcare across the Trust, it will support the embedding of value principles by building capacity and capability to enable behavioural change. This will include:

- Dedicated VBH expertise and capability
- Additional Digital and Business Intelligence / Analytics capacity and capability
- Consistent approach to agile project management methods
- Identification and delivery of some quick wins where the application of value principles can improve services for patients and donors with better outcomes and / or experience.

Velindre's approach will align with the National Value in Health strategy, which can be found [here](#).

The Cancer Centre BI team are currently involved in the implementation of the replacement of CANISC (Clinical and Patient Administration System) with the Digital Health & Care Record (DH&CR). This includes implementing WPAS (Wales Patient Administration System) and WCP (Welsh Clinical Portal) clinical forms in addition to the change of integration into the Data Warehouse. These two programmes of work are utilising much of the capacity of the BI team

and therefore the Trust is seeking some temporary external support to progress the VBHC program in the short term.

The initial focus of the work will be on cancer services tertiary pathway and making the most out of the data currently available within the Trust. A roadmap of developments may consider the incorporation of wider pathway / sources of data in the longer term.

The Trust has 12 Site Specific Teams – Breast; Colorectal; Gynaecology; Head & Neck; Lung; Lymphoma; Melanoma & Skin; Neuro; Palliative Care; Sarcoma; Upper GI; Urology.

Requirement

In order to accelerate the progress of the Value Intelligence Centre with regards to our BI and Analytics capability we are seeking options of support to deliver the following outputs:

- A baseline assessment to understand where PROMS data is being collected across the Trust
- A set of Clinical Personas for each Site-Specific Team, which will provide a better understanding of end-user reporting requirements to support Person-centred care
- A Proof-of-Concept Value Based Healthcare dashboard pilot for one Site-Specific Team and a prioritised pathway, building on the baseline assessment and Clinical Personas.
- Development of a Use Case for a Value-Based Healthcare dashboard.
- Development of an agile process for Value Based Healthcare dashboard development that is consistent, repeatable and clarifies roles and responsibilities across the end-to-end process.
- Vision for VBH analytics and development of a roadmap to handover to / help upskill inhouse capability.

Summary of Estimated Contract Charges (Excl. VAT)

The estimated cost of the contract for 6-12 months is £450k (inc. the value of up to 50% maximum extension).

1.1 Nature of contract: Please indicate with a (x) in the relevant box	First time	<input checked="" type="checkbox"/>	Contract Extension	<input type="checkbox"/>	Contract Renewal	<input type="checkbox"/>
1.2 Period of contract including extension options:						
Expected Start Date of Contract			01/02/2023			

Expected End Date of Contract	01/08/2023
Contract Extension Options (E.g. maximum term in months)	This application is for a 6-12 month contract on a time and materials basis. The contract may be extended up to a maximum of 50% of the contract value in line with procurement contract regulations.

2. STRATEGIC FIT *(Host organisations are not required to complete Section 2)*

2.1 OUR STRATEGIC PILLARS	
This scheme should relate to at least one of the Trust's five strategic pillars. Please mark with a (x) in the box the relevant pillars for this scheme.	
Goal 1: Be recognised as a pioneer in blood and transplantations services across Europe.	<input checked="" type="checkbox"/>
Goal 2: Be a recognised leader in specialist cancer services in Europe.	<input checked="" type="checkbox"/>
Goal 3: Be recognised as a leader in stated priority areas of research, development and innovation.	<input type="checkbox"/>
Goal 4: An established 'University' Trust which provides highly valued knowledge and learning for all.	<input type="checkbox"/>
Goal 5: An exemplar of sustainability that supports global well-being and social value.	<input checked="" type="checkbox"/>

2.2 INTEGRATED MEDIUM TERM PLAN		
Is this scheme included in the Trust Integrated Medium Term Plan?	Yes	No
	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2.3 SHAPING OUR FUTURE WELLBEING OBJECTIVES		
This scheme should relate to at least one of the Trust's wellbeing objectives. Please mark with a (x) in the box the relevant objectives for this scheme.		
Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways.	<input checked="" type="checkbox"/>	
Improve the health and well-being of families across Wales by striving to care for the needs of the whole person.	<input checked="" type="checkbox"/>	
Create new, highly skilled jobs and attract investment by increasing our focus on research, innovation and new models of delivery.	<input type="checkbox"/>	

Deliver bold solutions to the environmental challenges posed by our activities.	<input type="checkbox"/>			
Bring communities and generations together through involvement in the planning and delivery of our services.	<input type="checkbox"/>			
Demonstrate respect for the diverse cultural heritage of modern Wales.	<input type="checkbox"/>			
Strengthen the international reputation of the Trust as a centre of excellence for teaching, research and technical innovations whilst also making a lasting contribution to global well-being.	<input type="checkbox"/>			
FIVE WAYS OF WORKING (SUSTAINABLE DEVELOPMENT PRINCIPLES) CONSIDERED Please mark with a (x) in the box the relevant principles for this scheme. Click here for more information				
Prevention <input checked="" type="checkbox"/>	Long Term <input checked="" type="checkbox"/>	Integration <input checked="" type="checkbox"/>	Collaboration <input checked="" type="checkbox"/>	Involvement <input checked="" type="checkbox"/>

3. OPTIONS CONSIDERED

Include 'business as usual' i.e. 'do nothing'

3.1 Please state alternative options considered and reasons for declining Analytics Capability Development Option 1 - Do Nothing – If the contract is not put in place, the progress of the Value-Based Healthcare programme will be severely restricted. Option 2 – Award contract – Awarding the contract with a provider for 6-12 months will enable the development of analytics capability at Velindre to support the development of the Value-Based Healthcare programme.
--

4. BENEFITS (Quantifiable / Non-Quantifiable)

4.1 Outline benefits of preferred option The benefits of the work with regards to our BI and Analytics capability will include the following: <ul style="list-style-type: none"> • A baseline assessment to understand where PROMS data is being collected across the Trust • A set of Clinical Personas for each Site-Specific Team, which will provide a better understanding of end-user reporting requirements to support Person-centred care

- A Proof-of-Concept Value Based Healthcare dashboard pilot for one Site-Specific Team and a prioritised pathway, building on the baseline assessment and Clinical Personas.
- Development of a Use Case for a Value-Based Healthcare dashboard.
- Development of an agile process for Value Based Healthcare dashboard development that is consistent, repeatable and clarifies roles and responsibilities across the end-to-end process.
- Vision for VBH analytics and development of a roadmap to handover to / help upskill inhouse capability.

5. RISKS & MITIGATION

5.1 Please state risks of not proceeding with the scheme	5.2 Please state any mitigation to reduce the risk if the scheme is not approved
<p>Not proceeding will severely restrict the progress of the Value-Based Healthcare programme, the Value Intelligence Centre and the Clinical Scientific Strategy.</p> <p>There is a reputational risk to Velindre that we will not deliver on the commitments made within the business case submitted to Welsh Government and will lose access to funding as a result.</p>	<p>There is no mitigation. If the contract is not in place, we will not be able to proceed with the scope of work that was provided to Welsh Government in the Value Intelligence Centre business case.</p>

6. PROCUREMENT ROUTE

6.1 How is the contract being procured? Please mark with a (x) as relevant.	
<p>Competition</p> <p>3 Quotes <input type="checkbox"/></p> <p>Formal Tender Exercise <input type="checkbox"/></p> <p>Mini competition <input checked="" type="checkbox"/></p> <p>Find a Tender <input type="checkbox"/> <small>(replaces OJEU Public Contract regulations 2015 still apply)</small></p>	<p>Single source</p> <p>Single Quotation Action <input type="checkbox"/></p> <p>Single Tender Action <input type="checkbox"/></p> <p>Direct call off Framework <input type="checkbox"/></p> <p>All Wales contract <input type="checkbox"/></p>
<p>Click here for link to Procurement Manual for additional guidance</p>	

6.2 Please outline the procurement strategy

The Framework MCF3 has been identified as the appropriate procurement route.

6.3 What is the approximate time line for procurement?

NWSSP Procurement services will have negotiated the 6 month contract with a supplier by the 30th January 2023. Extending the contract by a further 6 months is permitted as long as it is within the maximum 50% additional value stipulated in Regs 72 of the Public Contracts Regulations (2015).

6.4 PROCUREMENT ROUTE APPROVAL

The Head of Procurement / Delegated Authority has approved the preferred procurement route

Head of Procurement Name:	Helen James
Signature:	
Date:	21 st December 2022

Maximum expected whole life cost relating to the award of contract	Excluding VAT (£k)	Including VAT (£k)
	£450k	£540k
The nature of spend	Capital <input type="checkbox"/>	Revenue <input checked="" type="checkbox"/>
How is the scheme to be funded? Please mark with a (x) as relevant.		
Existing budgets	<input checked="" type="checkbox"/>	
Additional Welsh Government funding	<input checked="" type="checkbox"/>	
Other	<input type="checkbox"/>	

If you have selected ‘Other’ – please provide further details below:

For clarity, funding for the Value-Based Healthcare programme is being provided by Welsh Government who have authorized this spend as part of an approved business case.

7. FINANCIAL ANALYSIS

PROFILE OF EXPENDITURE

EXPENDITURE CATEGORY	Year 1 31st Jan 2023 – 30th Jan 2024 (exc. VAT) £	Total (exc. VAT) £	Total (inc. VAT) £
Value-Based Healthcare Analytics Capability Development	£300,000	£300,000	£360,000
Value-Based Healthcare Analytics Capability Development extension (up to 50% max)	£150,000	£150,000	£180,000
Total	£450,000	£450,000	£540,000

8. PROJECT MANAGEMENT (if applicable)

What are the management arrangements associated with this scheme? E.g. PRINCE 2	N/A This contract will be managed by Finance as the host function for the Value-Based Healthcare programme.
--	---

9. DIRECTOR/SPONSOR DECLARATION OF COMPLIANCE

The Lead Director, by providing email confirmation, to seek Board approval is making a declaration that all procurement procedures, standing orders and standing financial instructions requirements have been appropriately discharged and observed and that where relevant, appropriate advice and confirmation has been obtained to that effect. Procurement Services retain this confirmation electronically in the tender file.

ACRONYMS

VCC WBS EMB	Velindre Cancer Centre Welsh Blood Service Executive Management Board
-------------------	---

1. SITUATION/BACKGROUND

1.1 A specification for works to address fire compartmentation issues that have been identified within Trust Buildings was tendered late 2021/22 with a view to complete works in the 2022/23 financial year. The initial Board paper set out cost of works as follows;

- Contract Sum £186,666,66 exc VAT
- Contingency £100,000 exc VAT

1.2 The Board requested that the contingency figure be reduced to c. £34,624, as they were not in agreement with the recommendation. Approval was granted for a total project cost of £221,290 exc VAT as detailed in the signed Commitment of Expenditure Paper Exceeding Chief Executives Limit (Annex 1). The contract was awarded to Intrinsic Fire Protection Ltd.

1.3 Works commenced on the VCC site and it became apparent early on in the project that further works were required over and above those identified within the initial tender. This was anticipated and is usual with compartmentation works, which was reflected in the initial request to include a large contingency sum. The tender identified circa 2500 apertures that required repair at the VCC site, furthermore to date there has been over 5000 apertures completed in VCC through intrusive investigation and repair demonstrating over double the initial figure quoted.

1.4 Quality checks are in place to manage the scheme and each individual repair is documented, numbered and costed in line with the agreed scheduled of rates. All works are verified by The Trust Fire Safety Manager and independent Project Manager.

1.5 Due to the number of repairs identified over and above those listed in the tender, the Trust requested the contract firm undertake detailed investigation of areas ahead of any further instruction to ascertain a final project cost. This exercise was conducted with The Trust Fire Safety Manager and independent Project Manager to verify requirements and cost.

1.6 The contract firm have been stood down while further financial approval is sought. Current project expenditure remains within financial approval limits set out within Commitment of Expenditure Paper Exceeding Chief Executives Limit issued in accordance with the scheme.

1.7 The current situation in term of expenditure and further investment is set out below;

- Board Approval £221,290 exc VAT
- Total Cost of Works following Survey and verification exercise Total Cost of
 - o VCC £279,109.48 exc VAT (require uplift of £58K)
 - o WBS £150,000.00 exc VAT (requires uplift of the full amount)

- The Project has been discussed at the Trust Capital Group and the funding has been approved to complete both work packages, subject to Board approval

2. ASSESSMENT / SUMMARY OF MATTERS FOR CONSIDERATION

2.1 Progression of the scheme has remained confined to works at VCC to date. It was felt that due to identified extra works, it was beneficial from a Programme and cost management perspective to complete one site at time. The final costs exceed those currently approved which presents a number of options outlined below in Table 1.

2.2 Table 1 - Options for Consideration and Approval

Options	Benefit	Dis Benefit
1. Do nothing – Stop works without incurring further costs to those approved by the Board previously	Finances remain in keeping with the initial approvals	The risks associated with surveys undertaken at VCC and WBS are substantial and will be listed under Datix as 20 or above
2. Complete works to VCC Only	All Risks relating to compartmentation at VCC will be removed. Contractor onsite and mobilised.	The risks associated with surveys undertaken at WBS are substantial and will be listed under Datix as 20 or above. Project cost uplift c.£58K exc VAT compared with initial Board sign off.
3. Complete works to VCC and WBS (Preferred Option)	All Risks relating to compartmentation at VCC and WBS will be removed. Contractor onsite and mobilised.	Project cost uplift c.£58K exc VAT compared with initial Board sign off to complete VCC, and a further uplift of £150K exc VAT to complete identified works at WBS.

2.2 Procurement advice has been sought and endorsed regarding the preferred option 3 which is to complete works as identified below;

- Velindre Cancer Centre**

To complete works at VCC the initial Purchase Order will require uplifting to reflect the contract value of £279,109.48 exc VAT. This is acceptable as defined in the Standing Financial instructions considering initial PO value £186,666.66, exc VAT. Standing Financial Instruction state;

Modification of contracts during their term

72.—(1) Contracts and framework agreements may be modified without a new procurement procedure in accordance with this Part in any of the following cases:—

(c) where all of the following conditions are fulfilled:—

- (i) the need for modification has been brought about by circumstances which a diligent contracting authority could not have foreseen;
- (ii) the modification does not alter the overall nature of the contract;
- (iii) any increase in price does not exceed 50% of the value of the original contract or framework agreement.

- **Welsh Blood Service**

To complete works at WBS it is advised that the services of Intrinsic Fire Protection Ltd be maintained through issue of a Single Tender Action. Procurement colleagues will endorse due to the recent tender exercise undertaken which highlighted the competitive costs presented by the incumbent contractor. Taking this approach will allow completion of works this financial year, fully mitigating all risks to the Trust from a fire compartmentation perspective

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	Yes (Please see detail below)
	Failure to complete this works presents a risk to Life and limb and business continuity
RELATED HEALTHCARE STANDARD	Safe Care
	The Estates will remain non compliant with Fire safety Legislation which presents risk to all users of the Trust Estate
EQUALITY IMPACT ASSESSMENT COMPLETED	Not required
LEGAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	Non Compliant with; WHTM H&S Legislation

	The Fire Safety Reform Order
FINANCIAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	Funding Requirement VCC £ 58K exc VAT WBS £150K exc VAT

4. RECOMMENDATION

4.1 It is the recommendation of this paper that the Board approve further expenditure against this scheme in doing so support Option 3 which is to;

- I. Approve a 50% uplift against the original purchase order to allow completion of all identified compartmentation works at VCC.
- II. Proceed with a Single Tender Action Annex 3, as endorsed by Procurement and Finance colleagues approving a spend of £150K exc VAT to complete all identified works at WBS. Endorse and approve the Commitment of Expenditure Paper Exceeding Chief Executives Limit Annex 2.

COMMITMENT OF EXPENDITURE EXCEEDING CHIEF EXECUTIVE'S LIMIT / BUSINESS JUSTIFICATION

SCHEME TITLE	VELINDRE UNHS TRUST - COMPARTMENTATION
DIVISION / HOST ORGANISATION	Corporate Estates, Environment and Capital
DATE PREPARED	25/04/2022
PREPARED BY	Jason Hoskins Assistant Director Estates, Environment and Capital
SCHEME SPONSOR	Carl James Director of Strategic Transformation, Planning, and Digital

All Divisional proposals must be consistent with the strategic and operational plans of Velindre University NHS Trust.

1. DESCRIPTION OF GOODS / SERVICES / WORKS

Fire Stopping Works (Compartmentation):

- To address all know compartmentation issues at VCC and WBS HQ as listed in the detailed survey as completed by independent consultant commissioned by the Trust.

Background

- Assessment of the Trust Estate has highlighted a number of issues that present a risk from a fire safety perspective
- A business case has been presented to Welsh Government outlining funding requirements to address concerns raised
- Welsh Government have endorsed the proposal providing £1.1M of funding staged over a number of years in support rectification of the identified issues with £500K allocated for 2022/23
- An external consultancy firm was commissioned to carry out an assessment of the condition of compartmentation across which has informed the approach adopted by the Trust
- A work package to address issues that exist across the Trust relating to compartmentation has been compiled in preparation to go to tender.
- The works outlined in the documentation details areas of concern which require address through this work package
- All works have been reviewed and signed off internally by the Trust Fire Safety Manager, and an external independent consultant.

<ul style="list-style-type: none"> Tendered costs have been returned at £265,548 inc of VAT and contingency A detailed review of the tender documentation has been concluded. 						
1.1 Nature of contract: Please indicate with a (x) in the relevant box	First time	<input checked="" type="checkbox"/>	Contract Extension	<input type="checkbox"/>	Contract Renewal	<input type="checkbox"/>
	1.2 Period of contract including extension options:					
Expected Start Date of Contract		01/05/2022				
Expected End Date of Contract		31/08/2022				
Contract Extension Options (E.g. maximum term in months)		Two months				

2. STRATEGIC FIT (*Host organisations are not required to complete Section 2*)

2.1 OUR STRATEGIC PILLARS This scheme should relate to at least one of the Trust’s five strategic pillars. Please mark with a (x) in the box the relevant pillars for this scheme.	
Goal 1: Be recognised as a pioneer in blood and transplantations services across Europe.	<input type="checkbox"/>
Goal 2: Be a recognised leader in specialist cancer services in Europe.	<input checked="" type="checkbox"/>
Goal 3: Be recognised as a leader in stated priority areas of research, development and innovation.	<input type="checkbox"/>
Goal 4: An established ‘University’ Trust which provides highly valued knowledge and learning for all.	<input checked="" type="checkbox"/>
Goal 5: An exemplar of sustainability that supports global well-being and social value.	<input type="checkbox"/>

2.2 INTEGRATED MEDIUM TERM PLAN		
Is this scheme included in the Trust Integrated Medium Term Plan?	Yes	No

	<input checked="" type="checkbox"/>	<input type="checkbox"/>							
This scheme has been identified as part of the Estates Compliance Capital works 2021 – 2023. Funding has been secured through Welsh Government.									
2.3 SHAPING OUR FUTURE WELLBEING OBJECTIVES									
This scheme should relate to at least one of the Trust’s wellbeing objectives. Please mark with a (x) in the box the relevant objectives for this scheme.									
Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways.	<input type="checkbox"/>								
Improve the health and well-being of families across Wales by striving to care for the needs of the whole person.	<input type="checkbox"/>								
Create new, highly skilled jobs and attract investment by increasing our focus on research, innovation and new models of delivery.	<input type="checkbox"/>								
Deliver bold solutions to the environmental challenges posed by our activities.	<input type="checkbox"/>								
Bring communities and generations together through involvement in the planning and delivery of our services.	<input type="checkbox"/>								
Demonstrate respect for the diverse cultural heritage of modern Wales.	<input type="checkbox"/>								
Strengthen the international reputation of the Trust as a centre of excellence for teaching, research and technical innovations whilst also making a lasting contribution to global well-being.	<input checked="" type="checkbox"/>

Prevention	<input type="checkbox"/>	Long Term	<input checked="" type="checkbox"/>	Integration	<input type="checkbox"/>	Collaboration	<input type="checkbox"/>	Involvement	<input type="checkbox"/>

3. OPTIONS CONSIDERED

Include ‘business as usual’ i.e. ‘do nothing’

3.1 Please state alternative options considered and reasons for declining
<p><i>There are limited options available with the exception of</i></p> <p><i>Option 1 - Do Nothing – presents ongoing H&S risks associated with the non-compliance – Fire Safety legislation and H&S legislation breach</i></p> <p><i>Option 2 – Carry out works to improve compartmentation to meet the requirements of the external survey, In doing so making the Trust compliant with WHTM and H&S Legislation</i></p> <p><i>Preferred Option – This option provides a compliant solution reducing risk of fire to life, limb, and property. Underpinned by a full assessment of each element of work which will be logged on the electronic estates management system (Bolster) for record.</i></p>

4. BENEFITS (Quantifiable / Non-Quantifiable)

4.1 Outline benefits of preferred option
<ul style="list-style-type: none"> Provides a fully auditable compliant solution to asset level including update of the Trust Fire Safety Management documentation, and Bolster system allowing ongoing management of each repair. Removes all identified risk presented by insufficient compartmentation as detailed within the commissioned survey and provides a benchmark for future management.

5. RISKS & MITIGATION

5.1 Please state risks of not proceeding with the scheme	5.2 Please state any mitigation to reduce the risk if the scheme is not approved
<ul style="list-style-type: none"> Non compliance with WHTM firecode Non compliance with H&S Legislation Non compliance with building documentation - The Fire Strategy for buildings 	<ul style="list-style-type: none"> Risks cannot be fully mitigated

6. PROCUREMENT ROUTE

10. APPROVALS RECEIVED

List and include date of approvals received in support of this scheme.

Divisions	Date of Approval:
Business Planning Group or local equivalent	15/03/2022
Divisional Senior Management Team	N/A
Executive Management Board	12/05/2022

Host Organisations	Date of Approval:
NWSSP / NHS Wales Shared Services Partnership Committee	
HTW – Senior Management Team	

Important Notes:

Single quote/tender action shall only be undertaken following the approval of this request in **advance** of procurement activity commencing and only in **exceptional circumstances**.

Important Notes to Aid Completion:

- Advice must be sought from the local Finance Department and Procurement Services in advance of completion, to ensure appropriate financial and procurement procedures are applied and prevent delays in the procurement process.
- Consideration must be given to the Welsh Audit Office Guidance available from the Procurement Team prior to submission.
- Competition requirements are currently set at the following thresholds:
 - quotations (purchases between £5,000 - £24,999)
 - tenders above £25,000.
 - Waiver requests over the prevailing OJEU threshold will require a VEAT notice to be published via Sell2Wales.

It is important that the form is completed **IN FULL** in order to satisfy the Health Organisation Standing Orders, which incorporate the Standing Financial Instructions, requiring competitive quotations/tenders to be obtained to demonstrate value for money is still delivered.

NB1: All requests to waive competition requirements are formally reported to Audit Committee for noting.

NB2: The form will be returned to the originator if not completed in full.

NB3: Approval cannot be granted retrospectively. Should this be the case, please seek advice from the Procurement department. Expenditure committed without appropriate advance authority/due regard to the Standing Financial Instructions, is also reported to Audit Committee

	Yes		Resourced by estates team	
Any other financial consideration to be declared e.g. risks to ongoing funding, savings: cash releasing, cost avoidance, cost pressure, VFM impact.	None			
*Background: Reason for single supplier & details of any alternatives considered & reasons for their rejection (supplier(s) details required)	<ul style="list-style-type: none"> • Assessment of the Trust Estate has highlighted a number of issues that present a risk from a fire safety perspective • A business case has been presented to Welsh Government outlining funding requirements to address concerns raised • Welsh Government have endorsed the proposal providing £1.1M of funding staged over a number of years in support rectification of the identified issues with £500K allocated for 2022/23 • An external consultancy firm was commissioned to carry out an assessment of the condition of compartmentation across which has informed the approach adopted by the Trust • A work package to address issues that exist across the Trust relating to compartmentation has been tendered and the contract awarded. • Works to the VCC Site have been concluded, which involved extra works. The extra works identified required expenditure of the full contract sum detailed under the tender return along with all contingencies • Further works have been identified through progression of delivery of works to WBS. • All works have been reviewed and signed off internally by the Trust Fire Safety Manager, and an external independent consultant. • Costs have been returned as extra works identified under the existing contract. Costs are outlined as stated in the agreed schedule of rates. Total cost £150,000 exc of VAT and a detailed review of the tender documentation has been concluded. 			
*Explicit Reasons as to how Value for Money will be achieved when a single supplier provides the requirement. <i>Sufficient detail should be provided in this section or the request will be returned.</i>	<p>A tender took place against a specification for compartmentation works for which Intrinsic were successful by some margin. As part of the tender assessment they provided a schedule of rates which was used to cost this works. This has already been verified under the original tender with no cost increase despite cost of living pressures. The incumbent provider were substantially more cost effective than the competition ie. Over 100% cheaper.</p> <p>Every repair is documented and QS'd as part of the Trust quality check, this exercised will be independently reviewed.</p>			
*Have any Trials / Evaluations been undertaken within the Health Organisation?	Yes	No	If Yes, please state the evaluation reference	

NB: Appropriate advice should be sought from Procurement in advance of trials being undertaken (Please tick as appropriate)		no	number if available e.g. SMTL trials	
If Yes, please give full details of evaluation. Including whether or not any relevant Groups have been made aware of this evaluation.				
*Consequence & Impact if not approved:	Currently risk to Trust rated at risk factor 20 and is in breach of legislation. The contract firm have already undergone and been successful in an open tender exercise and are already mobilised and on site completing the works detailed during the initial tender.			
E*Is this an Essential or Non-Essential requirement?	Essential

Section 2

Declaration of Interest

The Health Organisation is obliged to ensure that all procurement processes are carried out in accordance with the public procurement rules and NHS Wales's guidance. Where an employee is engaged in a procurement exercise a formal declaration is required to confirm that there is no potential interest, which may give rise to a conflict.

Please confirm the following statements are correct:

		✓ x
1.	Neither I, my family, friends, acquaintances or work colleagues involved in this process, will receive any benefit or gain (financial or otherwise, directly or indirectly) if the contract is awarded to any of the bidders involved in the process as they become known.	✓
2a.	I have no material interest in whether the contract is awarded or not.	✓
2b.	I am not in possession of any Additional Information in respect of the procurement process. (Save for the information in the 'Additional Information box below)	✓

3.	I currently do not benefit in any way, financially or otherwise, including (but not limited to) the receipt of a grant or outside funding, that could influence my decision in respect of the procurement or any of the bidders involved in this process .	✓
4.	I have not received hospitality (other than of a nominal value or that declared in the register of gifts and hospitality maintained by Corporate Management) or any material gifts, as outlined in the Trusts Standards of Behaviour Framework Policy http://howis.wales.nhs.uk/sitesplus/972/page/51681 from any of the bidders involved in the process.	✓
5.	I have read, understood and will abide by the NHS Guidance entitled "Standards of Business Conduct for NHS Staff" (DGM (93)84) and the Trust Standards of Behaviour Framework Policy. http://howis.wales.nhs.uk/sitesplus/972/page/51681	✓
6.	By signing this declaration, I understand that it is my responsibility that should my circumstance change or a new relationship be established in relation to any bidding organisation, I will consult with the Lead Procurement contact and am aware that I may be required to complete a new Declaration of Interest or be required to withdraw my participation.	✓
7.	I will keep the identities of the bidders, the content of the bids and procurement documents confidential.	✓

I hereby certify that, to the best of my knowledge and belief, the statements set out above are correct. I understand that any failure on my part to declare an interest in a contract or otherwise, to breach the rules and instructions mentioned above is a serious matter and could result in further legal or professional action being taken against me, including (but not limited to):

- Exclusion from the current procurement exercise and future procurement activities
- For Trust employees, it could result in disciplinary proceedings being initiated.
- For non-employees of the Trust we reserve the right to report the matter to their relevant employing organisation and professional body as potential professional misconduct
- Should the matter involve issues that are of a criminal nature e.g. fraud, bribery or corruption then the Trust will notify the appropriate authority to take any necessary action, which may include prosecution.

Contract Extension Options (E.g. maximum term in months)		Two months				

2. STRATEGIC FIT (*Host organisations are not required to complete Section 2*)

2.1 OUR STRATEGIC PILLARS This scheme should relate to at least one of the Trust's five strategic pillars. Please mark with a (x) in the box the relevant pillars for this scheme.	
Goal 1: Be recognised as a pioneer in blood and transplantations services across Europe.	<input type="checkbox"/>
Goal 2: Be a recognised leader in specialist cancer services in Europe.	<input checked="" type="checkbox"/>
Goal 3: Be recognised as a leader in stated priority areas of research, development and innovation.	<input type="checkbox"/>
Goal 4: An established 'University' Trust which provides highly valued knowledge and learning for all.	<input checked="" type="checkbox"/>
Goal 5: An exemplar of sustainability that supports global well-being and social value.	<input type="checkbox"/>

2.2 INTEGRATED MEDIUM TERM PLAN										
Is this scheme included in the Trust Integrated Medium Term Plan?							Yes	No		
							<input checked="" type="checkbox"/>	<input type="checkbox"/>		
This scheme has been identified as part of the Estates Compliance Capital works 2021 – 2023. Funding has been secured through Welsh Government.										
2.3 SHAPING OUR FUTURE WELLBEING OBJECTIVES										
This scheme should relate to at least one of the Trust's wellbeing objectives. Please mark with a (x) in the box the relevant objectives for this scheme.										
Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways.								<input type="checkbox"/>		
Improve the health and well-being of families across Wales by striving to care for the needs of the whole person.								<input type="checkbox"/>		
Create new, highly skilled jobs and attract investment by increasing our focus on research, innovation and new models of delivery.								<input type="checkbox"/>		
Deliver bold solutions to the environmental challenges posed by our activities.								<input type="checkbox"/>		
Bring communities and generations together through involvement in the planning and delivery of our services.								<input type="checkbox"/>		
Demonstrate respect for the diverse cultural heritage of modern Wales.								<input type="checkbox"/>		
Strengthen the international reputation of the Trust as a centre of excellence for teaching, research and technical innovations whilst also making a lasting contribution to global well-being.								<input checked="" type="checkbox"/>		
FIVE WAYS OF WORKING (SUSTAINABLE DEVELOPMENT PRINCIPLES) CONSIDERED										
Please mark with a (x) in the box the relevant principles for this scheme. Click here for more information										
Prevention	<input type="checkbox"/>	Long Term	<input checked="" type="checkbox"/>	Integration	<input type="checkbox"/>	Collaboration	<input type="checkbox"/>	Involvement	<input type="checkbox"/>	

3. OPTIONS CONSIDERED

Include 'business as usual' i.e. 'do nothing'

3.1 Please state alternative options considered and reasons for declining
<i>There are limited options available with the exception of</i>

Option 1 - Do Nothing – presents ongoing H&S risks associated with the non-compliance – Fire Safety legislation and H&S legislation breach

Option 2 – Carry out works to improve compartmentation to meet the requirements of the external survey, In doing so making the Trust compliant with WHTM and H&S Legislation

Preferred Option – This option provides a compliant solution reducing risk of fire to life, limb, and property. Underpinned by a full assessment of each element of work which will be logged on the electronic estates management system (Bolster) for record.

4. BENEFITS (Quantifiable / Non-Quantifiable)

4.1 Outline benefits of preferred option

- Provides a fully auditable compliant solution to asset level including update of the Trust Fire Safety Management documentation, and Bolster system allowing ongoing management of each repair.
- Removes all identified risk presented by insufficient compartmentation as detailed within the commissioned survey and provides a benchmark for future management.
- Having very recently tendered this scheme the incumbent service provider were seen to be over 100% more cost effective than the competition. The tendered rates are being honored with no cost of living increase added.

5. RISKS & MITIGATION

5.1 Please state risks of not proceeding with the scheme	5.2 Please state any mitigation to reduce the risk if the scheme is not approved
<ul style="list-style-type: none"> • Non compliance with WHTM firecode • Non compliance with H&S Legislation • Non compliance with building documentation - The Fire Strategy for buildings 	<ul style="list-style-type: none"> • Risks cannot be fully mitigated

6. PROCUREMENT ROUTE

6.1 How is the contract being procured? Please mark with a (x) as relevant.

SO	Standing Orders
ToR	Terms of Reference

1. SITUATION

The Velindre University NHS Trust Standing Orders form the basis upon which the Trust's governance and accountability framework is developed and, together with the adoption of the Trust's Standards of Behaviour Framework Policy, is designed to ensure the achievement of the standards of good governance set for the NHS in Wales.

The purpose of this report is to outline the required changes to the Trust Standing Orders – **Schedule 3**, resulting from the Annual Review of the **Terms of Reference and Operating Arrangements** in respect of the **Quality, Safety & Performance Committee**, (ref. **Appendix 1 [no track changes] & Appendix 2 [with track changes]**), and is seeking formal **APPROVAL** by the Trust Board.

2. BACKGROUND

The amendments detailed in this report have been agreed via collaborative engagement with the wider Executive Management Team in conjunction with effective oversight and review by the Chair of the Quality, Safety & Performance Committee. The proposed changes have been formally ENDORSED by the Quality, Safety & Performance Committee in November 2022 and the Trust Audit Committee in January 2023.

3. ASSESSMENT /SUMMARY OF MATTERS FOR CONSIDERATION

3.1 Summary of Amendments

The revised Terms of Reference and Operating Arrangements for the Quality, Safety & Performance Committee are set out in **Appendix 1 & 2**, with the latter inclusive of track changes for ease of reference and transparency. The proposed amendments include the following key changes summarised below:

Terms of Reference & Operating Arrangements	Summary of Amendments
<p>Quality, Safety & Performance Committee</p>	<p>Section 3:</p> <ul style="list-style-type: none"> - Addition of Duties of Quality and Candour to the Quality Management System the Trust already has in place. - Addition of Integrated Quality & Safety Group to Sub Committees, to provide triangulation and analysis of outcomes of the Quality Management System and Divisional Quality Hubs to the Quality, Safety & Performance Committee. <p>Section 3 additional:</p> <ul style="list-style-type: none"> - Highlighted items within the Delegated Powers and Authority section are due to be addressed / agreed via further discussion at the November 2022 Quality, Safety and Performance Committee, namely: <ul style="list-style-type: none"> o Consider the implications for quality, safety, patient / donor experience / outcomes, planning and performance, workforce, finance, digital and information governance arising from the development of the Trust's corporate strategies and plans or those of its stakeholders and partners, including those arising from any Joint (Sub) Committees of the Board; o Monitor progress against the Trust's Integrated Medium-Term Plan (IMTP) ensuring that areas of weakness or risk and areas of best practice are reported to the Board; o Align service, workforce and financial performance matters into an integrated approach in keeping with the Trust's commitment to the Sustainable Development Principle defined by the Well-being of Future Generations (Wales) Act 2015. <p>Section 4:</p> <ul style="list-style-type: none"> - Addition of Deputy Director of Organisational Development and Workforce to attendees of the Quality, Safety & Performance Committee. - Amendment of job title of Quality & Safety Manager to Head of Quality, Safety & Assurance. <p>Section 6:</p> <ul style="list-style-type: none"> - Highlighted items within the Relationships & Accountability section are due to be addressed / agreed via further discussion at the November 2022 Quality, Safety and Performance Committee, namely: <ul style="list-style-type: none"> o 6.4 – The Committee will consider the assurance provided through the work of the Board's other Committees and Sub-Groups to meet its responsibilities for advising the

Terms of Reference & Operating Arrangements	Summary of Amendments
	<p>Board on the adequacy of the Trust's overall framework of assurance.</p> <ul style="list-style-type: none"> ○ The Committee shall embed the Trust's corporate objectives, priorities and requirements, e.g., equality and human rights through the conduct of its business.

4. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	Yes (Please see detail below)
	Evidence suggests there is a correlation between governance behaviours in an organisation and the level of performance achieved at the same organisation. Therefore, ensuring good governance within the Trust can support quality care.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability
EQUALITY IMPACT ASSESSMENT COMPLETED	Not required
LEGAL IMPLICATIONS / IMPACT	There are no specific legal implications related to the activity outlined in this report.
FINANCIAL IMPLICATIONS / IMPACT	There is no direct impact on resources as a result of the activity outlined in this report.

5. RECOMMENDATION

The Trust Board is asked to **APPROVE** the amendments to the Trust Board Standing Orders – **Schedule 3** as outlined in section **3** of this report, and included in **Appendix 1 & 2**.

Quality, Safety and Performance Committee

Terms of Reference & Operating Arrangements

Reviewed:	November 2022
Approved:	
Next Review Due:	March 2023

1. INTRODUCTION

- 1.1 The Trust's standing orders provide that "The Board may and, where directed by the Assembly Government must, appoint Committees of the Trust either to undertake specific functions on the Board's behalf or to provide advice and assurance to the Board in the exercise of its functions. The Board's commitment to openness and transparency in the conduct of all its business extends equally to the work carried out on its behalf by Committees".
- 1.2 In line with standing orders and the Trust's scheme of delegation, the Board shall nominate annually a Committee to be known as the **Quality, Safety and Performance Committee**. The detailed Terms of Reference and operating arrangements set by the Board in respect of this Committee are set out below.

2. PURPOSE

- 2.1 The purpose of the Quality, Safety and Performance Committee "the Committee" is to provide:
- Evidence based, timely **advice** and **assurance** to the Board, to assist it in discharging its functions and meeting its responsibilities through its arrangements and core outcomes with regard to:
 - quality, safety, planning and performance of healthcare;
 - safeguarding and public protection;
 - patient, donor and staff experience;
 - all aspects regarding the workforce;
 - digital delivery and information governance;
 - relevant statutory requirements e.g. the Health and Social Care (Quality and Engagement) (Wales) Act 2020, Well-being of Future Generations (Wales) Act 2015;
 - Health and Care Standards (2015);
 - financial performance;
 - regulatory compliance; and,
 - organisational and clinical risk.

3. DELEGATED POWERS AND AUTHORITY

- 3.1 The Committee will, in respect of its provision of **advice** and **assurance** to the Board use where possible a triangulated approach to:
- Seek assurance that governance arrangements are appropriately designed and operating effectively to ensure the provision of high quality, safe healthcare and services across the whole of the Trust's activities;
 - Ensure the Trust has in place a robust Quality Management System and is working towards meeting the requirements outlined in the Wales Quality Framework: Learning & Improving (2021) and the Duties of Quality and Candour;
 - Consider the implications for quality, safety, patient / donor experience / outcomes, planning and performance, workforce, finance, digital and information governance arising from the development of the Trust's corporate strategies and plans or those of

its stakeholders and partners, including those arising from any Joint (Sub) Committees of the Board;

- Consider the implications for the Trust's quality, safety, patient / donor experience / outcomes, planning and performance, workforce, finance, digital and information governance arrangements from review/investigation reports and actions arising from the work of external regulators;
- Monitor progress against the Trust's Integrated Medium-Term Plan (IMTP) ensuring that areas of weakness or risk and areas of best practice are reported to the Board;
- Align service, workforce and financial performance matters into an integrated approach in keeping with the Trust's commitment to the Sustainable Development Principle defined by the Well-being of Future Generations (Wales) Act 2015.
- Monitor the Trust's sustainability activities and responsibilities;
- Monitor progress against cost improvement programmes;
- Monitor and review performance against the Trust's Assurance Framework.
- Ensure areas of significant patient / donor / service / performance improvement are highlighted to the Board and other relevant Board Committees as necessary to ensure best practice is shared across the organisation;
- Monitor outcomes / outputs from patient / donor / service improvement programmes to provide assurance on sustainable improvements in the quality and efficiency of service delivery;
- Assess implications of any relevant existing, new or amended statutory and regulatory requirements e.g. the Health and Social Care (Quality and Engagement) (Wales) Act 2020 and oversee the Trust's implementation;
- Ensure the Trust Policies, Procedures and Strategies are consistent with internal and external legislative and regulatory requirements and are implemented effectively.
- Ensure the Trust, at all levels (divisional/team) has a citizen centred approach, putting patients, patient / donor experience, safety and safeguarding above all other considerations;
- Ensure that care and services are planned and delivered in line with relevant national / statutory / regulatory and best practice standards;
- Ensure the Trust has the right systems and processes in place to deliver patient /donor focused, efficient, effective, timely and safe services;
- Ensure the workforce is appropriately selected, trained, supported and responsive to the needs of the Trust, ensuring recruitment practices safeguard adults and children at risk, that professional standards and registration/revalidation requirements are maintained, and there is compliance with the requirements of the Nurse Staffing Levels (Wales) Act 2016;

- Ensure there is effective collaboration with partner organisations and other stakeholders in relation to the sharing of information in a controlled manner, to provide the best possible outcomes for its citizens (in accordance with the Wales Accord for the Sharing of Personal Information and Caldicott requirements);
- Ensure the integrity of data and information is protected, valid, accurate, complete and timely data and information is available to support decision making across the Trust;
- Ensure there is an ethos of learning and continual quality improvement and a safety culture that supports safe high-quality care;
- Ensure there is good team working, collaboration and partnership working to provide the best possible outcomes for our citizens;
- Ensure risks are actively identified and robustly managed at all levels of the Trust;
- Ensure the Health and Care Standards (2015) are used to monitor and improve standards across the Trust;
- Ensure all reasonable steps are taken to prevent, detect and rectify irregularities or deficiencies in the quality, safety and performance of care provided, and in particular that:
 - sources of internal assurance are reliable
 - recommendations made by internal and external reviewers are considered and acted upon on a timely basis; and
 - lessons are learned from concerns, incidents, complaints and claims.
- Ensure there is an effective clinical audit and quality improvement function that meets the standards set for the NHS in Wales and provides appropriate assurance to the Board; and,
- Advise the Board about key indicators of quality, safety and performance, which will be reflected in the Trust's performance framework, against which performance will be regularly assessed and reported on through Annual Reports.

Authority

3.2 The Committee is authorised by the Board to investigate or commission investigation of any activity within its terms of reference. In doing so, the Committee shall have the right to inspect any books, records or documents of the Trust relevant to the Committee's remit, ensuring patient, and donor and staff confidentiality, as appropriate. The Committee may seek relevant information from:

- Employees (and all employees are directed to co-operate with any reasonable request made by the Committee), and any other Committee, Sub-Committee or Group set up by the Board to assist it in the delivery of its functions.
- Obtain legal / other providers of independent professional advice, and to secure the attendance of individuals external to the Trust who have relevant experience and expertise if necessary, and in accordance with the Board's procurement, budgetary and other requirements.

- By giving reasonable notice, require the attendance of any of the officers or employees and auditors of the Trust at any meeting of the Committee.

3.3 Approve policies relevant to the business of the Committee as delegated by the Board.

Access

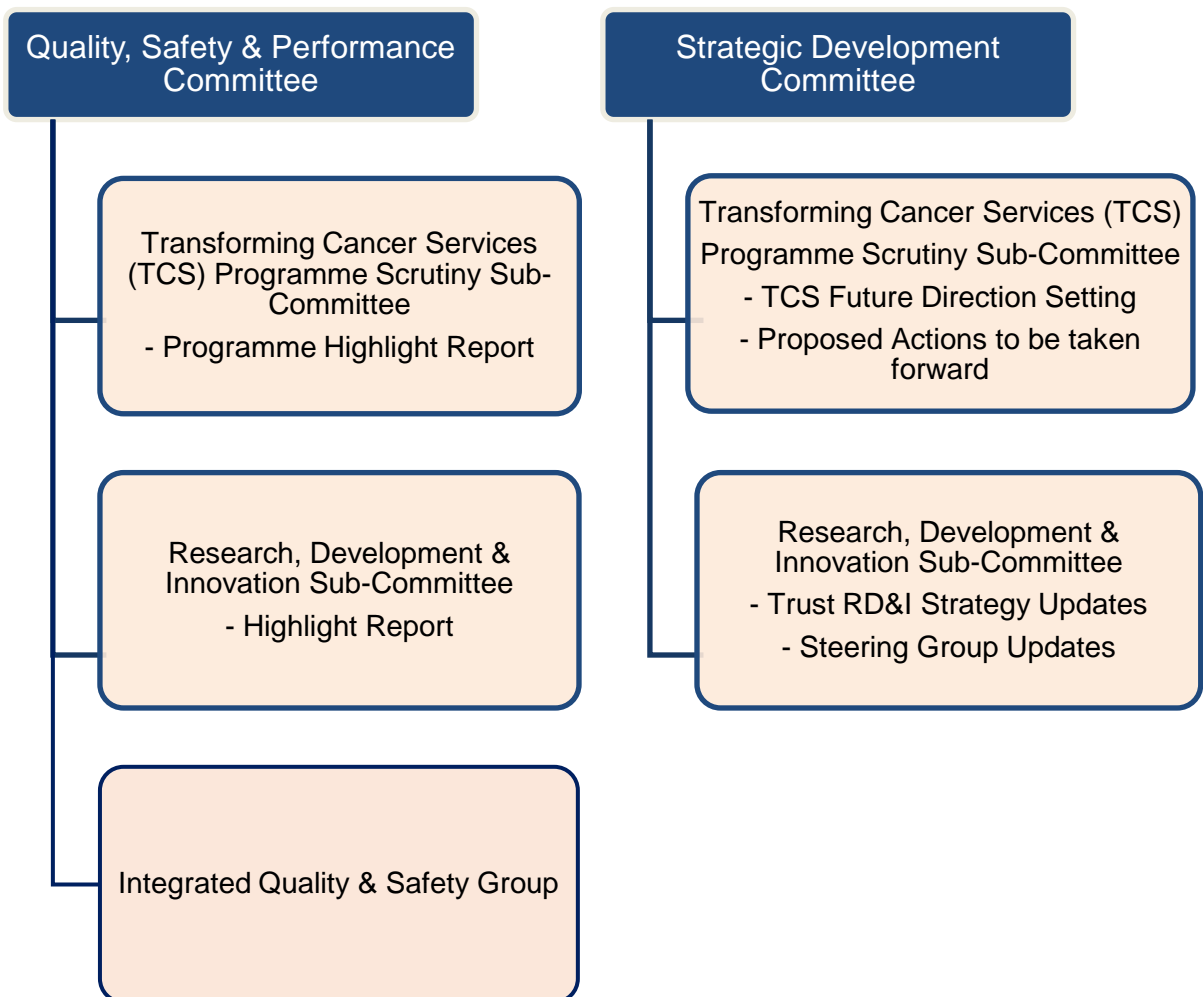

3.4 The Chair of the Quality, Safety & Performance Committee shall have reasonable access to Executive Directors and other relevant senior staff.

Sub Committees

- 3.5 The Committee has, with approval of the Trust Board, established the:
- Transforming Cancer Services (TCS) Programme Scrutiny Sub-Committee; and the
 - Research, Development & Innovation Sub-Committee.
 - Integrated Quality & Safety Group.

Note: an overarching summary of the Trust’s Governance & Accountability Framework is provided at Annex 1. In addition, the wider governance and accountability reporting arrangements in place at a local divisional level that feed upwards into the Quality, Safety & Performance Committee structure are also summarised at **Annex 2**.

The sub-committees will have a dual reporting line to both the Quality, Safety and Performance Committee and the Strategic Development Committee as illustrated below:

Although the Transforming Cancer Services (TCS) Programme Scrutiny Sub-Committee and Research, Development & Innovation Sub-Committee, are sub-committees with dual reporting lines, they will both retain the delegated authority for decision making granted by the Trust Board. Further details regarding delegated powers and authority are set out in each of the Sub-Committee Terms of Reference. The Research, Development & Innovation Sub-Committee will also feed into the Trust Charitable Funds Committee for alignment with strategy and funding. Further details are set out in each of the respective Terms of Reference.

4. MEMBERSHIP

Members

4.1 A minimum of two (2) members, comprising:

Chair Independent member of the Board (Non-Executive Director)
One independent member of the Board (Non-Executive Directors)

The Committee may also co-opt additional independent 'external' members from outside the organisation to provide specialist skills, knowledge and expertise.

4.2 **Attendees:**

- Chief Executive Officer
- Executive Director of Nursing, Allied Health Professionals and Health Science (Committee Lead Executive Officer)
- Executive Medical Director (*also Caldicott Guardian*)
- Chief Operating Officer
- Welsh Blood Service and Velindre Cancer Centre Divisional Directors
- Directors of Hosted Organisations or representatives
- Director of Corporate Governance and Chief of Staff
- Executive Director of Finance
- Executive Director of Organisational Development and Workforce
- Director of Strategic Transformation, Planning & Digital
- Deputy Director of Planning and Performance
- Deputy Director of Nursing, Quality and Patient Experience
- Deputy Director of OD & Workforce
- Chief Digital Officer (*also cyber/data outages/performance*)
- Head of Quality, Safety & Assurance
- Head of Corporate Governance

4.3 **By invitation**

The Committee Chair may extend invitations to individuals from within or outside the organisation, taking account of the matters under consideration at each meeting. The Committee welcomes attendance at Committee meetings by staff from within the Organisation, representatives of independent and partnership organisations and our regulators including:

- Healthcare Inspectorate Wales
- Audit Wales

- Trade Unions
- Community Health Council

Secretariat

4.4 Secretary - as determined by the Director of Corporate Governance and Chief of Staff

Member Appointments

4.5 The membership of the Committee shall be determined by the Board, based on the recommendation of the Trust Chair - taking account of the balance of skills and expertise necessary to deliver the Committee's remit and subject to any specific requirements or directions made by the Welsh Government.

4.6 Members shall be appointed for a maximum of 3 consecutive years before formally reviewing their role on the Committee. During this time a member may resign or be removed by the Board.

Support to Committee Members

4.7 The Director of Corporate Governance and Chief of Staff, on behalf of the Committee Chair, shall:

- Arrange the provision of advice and support to Committee members on any aspect related to the conduct of their role; and

Ensure the provision of a programme of development for Committee members as part of the Trust's overall OD programme.

5. COMMITTEE MEETINGS

Quorum

5.1 At least two independent members must be present to ensure the quorum of the Committee. If the Chair is not present an agreement as to who will chair from the independent members in their absence.

Frequency of Meetings

5.2 Meetings shall be held no less than bi-monthly and otherwise, as the Chair of the Committee deems necessary.

Withdrawal of individuals in attendance

5.3 The Committee may ask any or all of those who normally attend but who are not members to withdraw to facilitate open and frank discussion of particular matters.

6. RELATIONSHIPS & ACCOUNTABILITIES WITH THE BOARD AND ITS COMMITTEES / GROUPS

6.1 Although the Board has delegated authority to the Committee for the exercise of certain functions as set out within these terms of reference, it retains overall responsibility and

accountability for ensuring the quality, safety and performance of healthcare for its citizens through the effective governance of the organisation.

- 6.2 The Committee is directly accountable to the Board for its performance in exercising the functions set out in these terms of reference.
- 6.3 The Committee, through its Chair and members, shall work closely with the Board's other Committees, including Joint (Sub) Committees and Groups to provide advice and assurance to the Board through the:
- joint planning and co-ordination of Board and Committee business; and
 - sharing of information

in doing so, contributing to the integration of good governance across the organisation, ensuring that all sources of assurance are incorporated into the Board's overall risk and assurance framework.

- 6.4 The Committee will consider the assurance provided through the work of the Board's other Committees and Sub-Groups to meet its responsibilities for advising the Board on the adequacy of the Trust's overall framework of assurance.
- 6.5 The Committee shall embed the Trust's corporate objectives, priorities and requirements, e.g., equality and human rights through the conduct of its business.

7. REPORTING AND ASSURANCE ARRANGEMENTS

- 7.1 The Committee Chair shall:
- Provide a formal report to the Board of the Committee's activities. This includes updates on activity and triangulated assurance outcomes through the submission of written Committee Highlight Reports and other relevant written reports, as well as the presentation of an annual Quality, Safety & Performance Committee report;
 - Bring to the Board's specific attention any significant matters under consideration by the Committee;
 - Ensure appropriate escalation arrangements are in place to alert the Trust Chair, Chief Executive or Chairs of other relevant Committees of any urgent/critical matters that may compromise patient / donor care and affect the operation and/or reputation of the Trust.
- 7.2 The Director of Corporate Governance and Chief of Staff, on behalf of the Board, shall oversee a process of regular and rigorous self-assessment and evaluation of the Committee's performance and operation including that of any Sub Committees established.

8. APPLICABILITY OF STANDING ORDERS TO COMMITTEE BUSINESS

- 8.1 The requirements for the conduct of business as set out in the Trust's Standing Orders are equally applicable to the operation of the Committee, except in the following areas:
- Quorum

Cross referenced with the Trust Standing Orders.

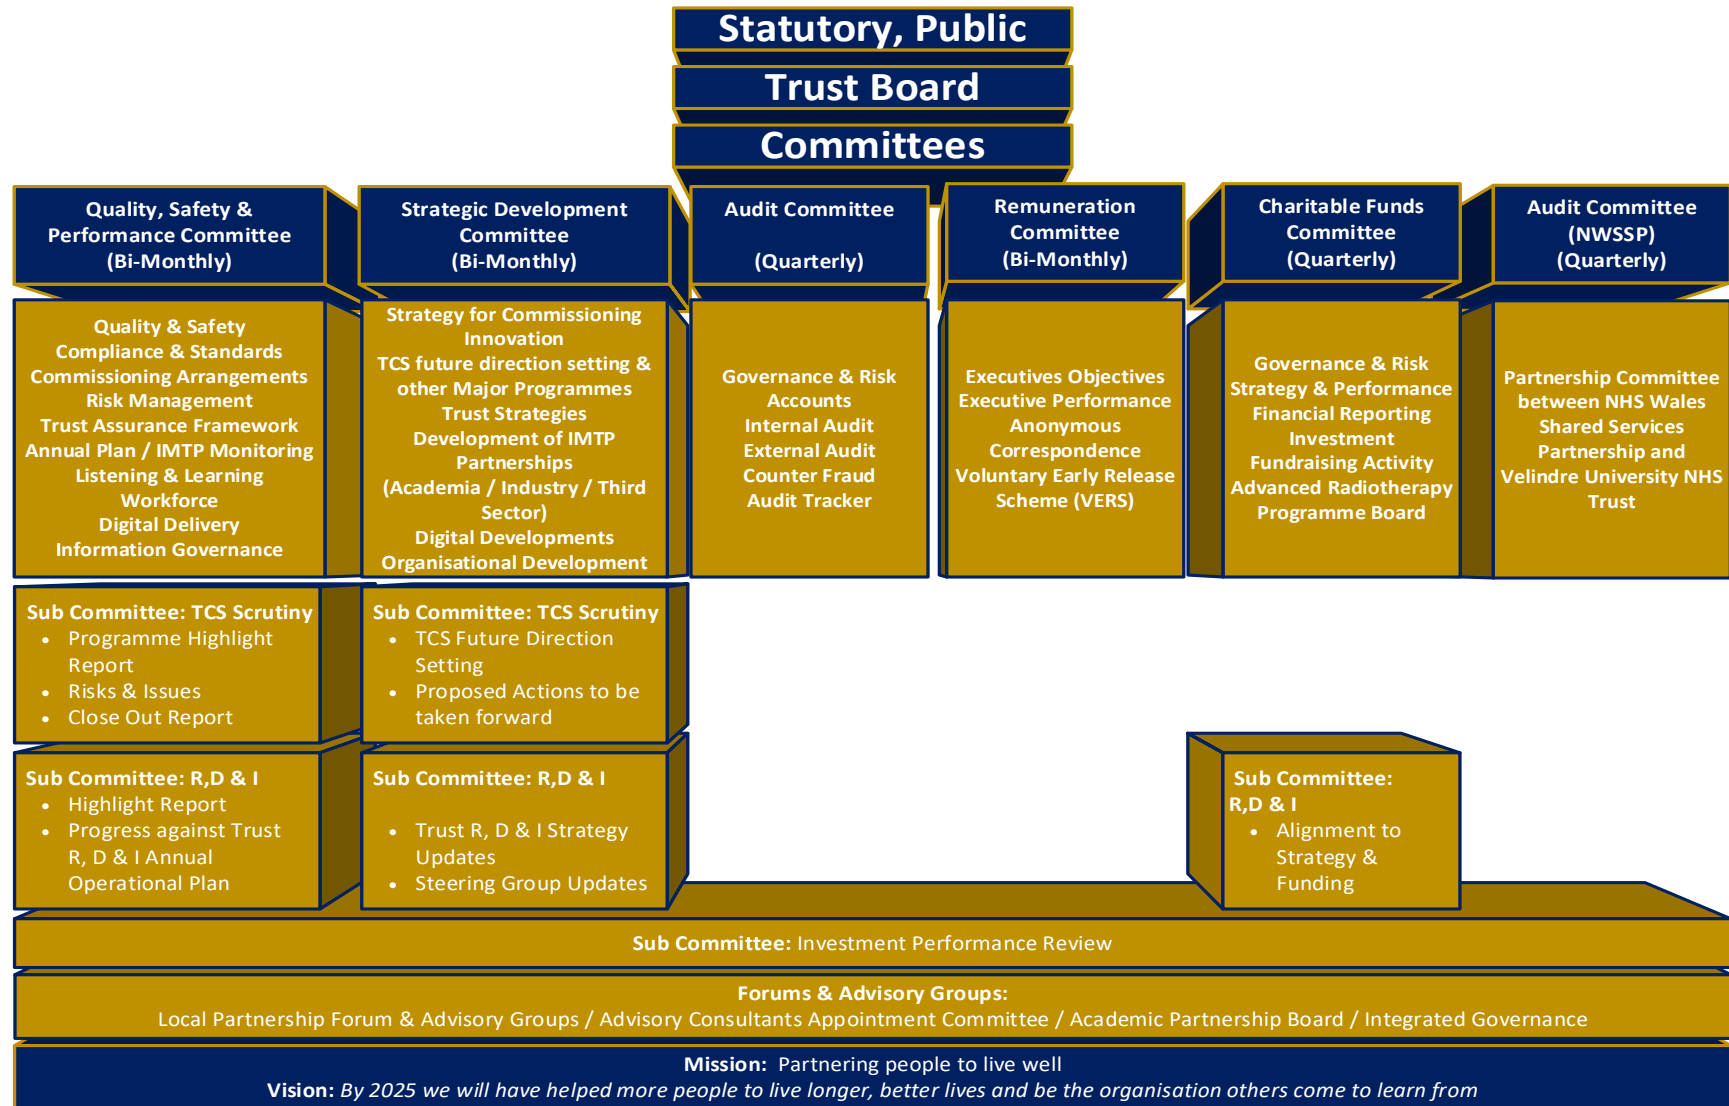

9. REVIEW

- 9.1 Terms of reference and operating arrangements, and the Committees Programme of Work will be reviewed annually by the Committee, with reference to the Board.

10. CHAIR'S ACTION ON URGENT MATTERS

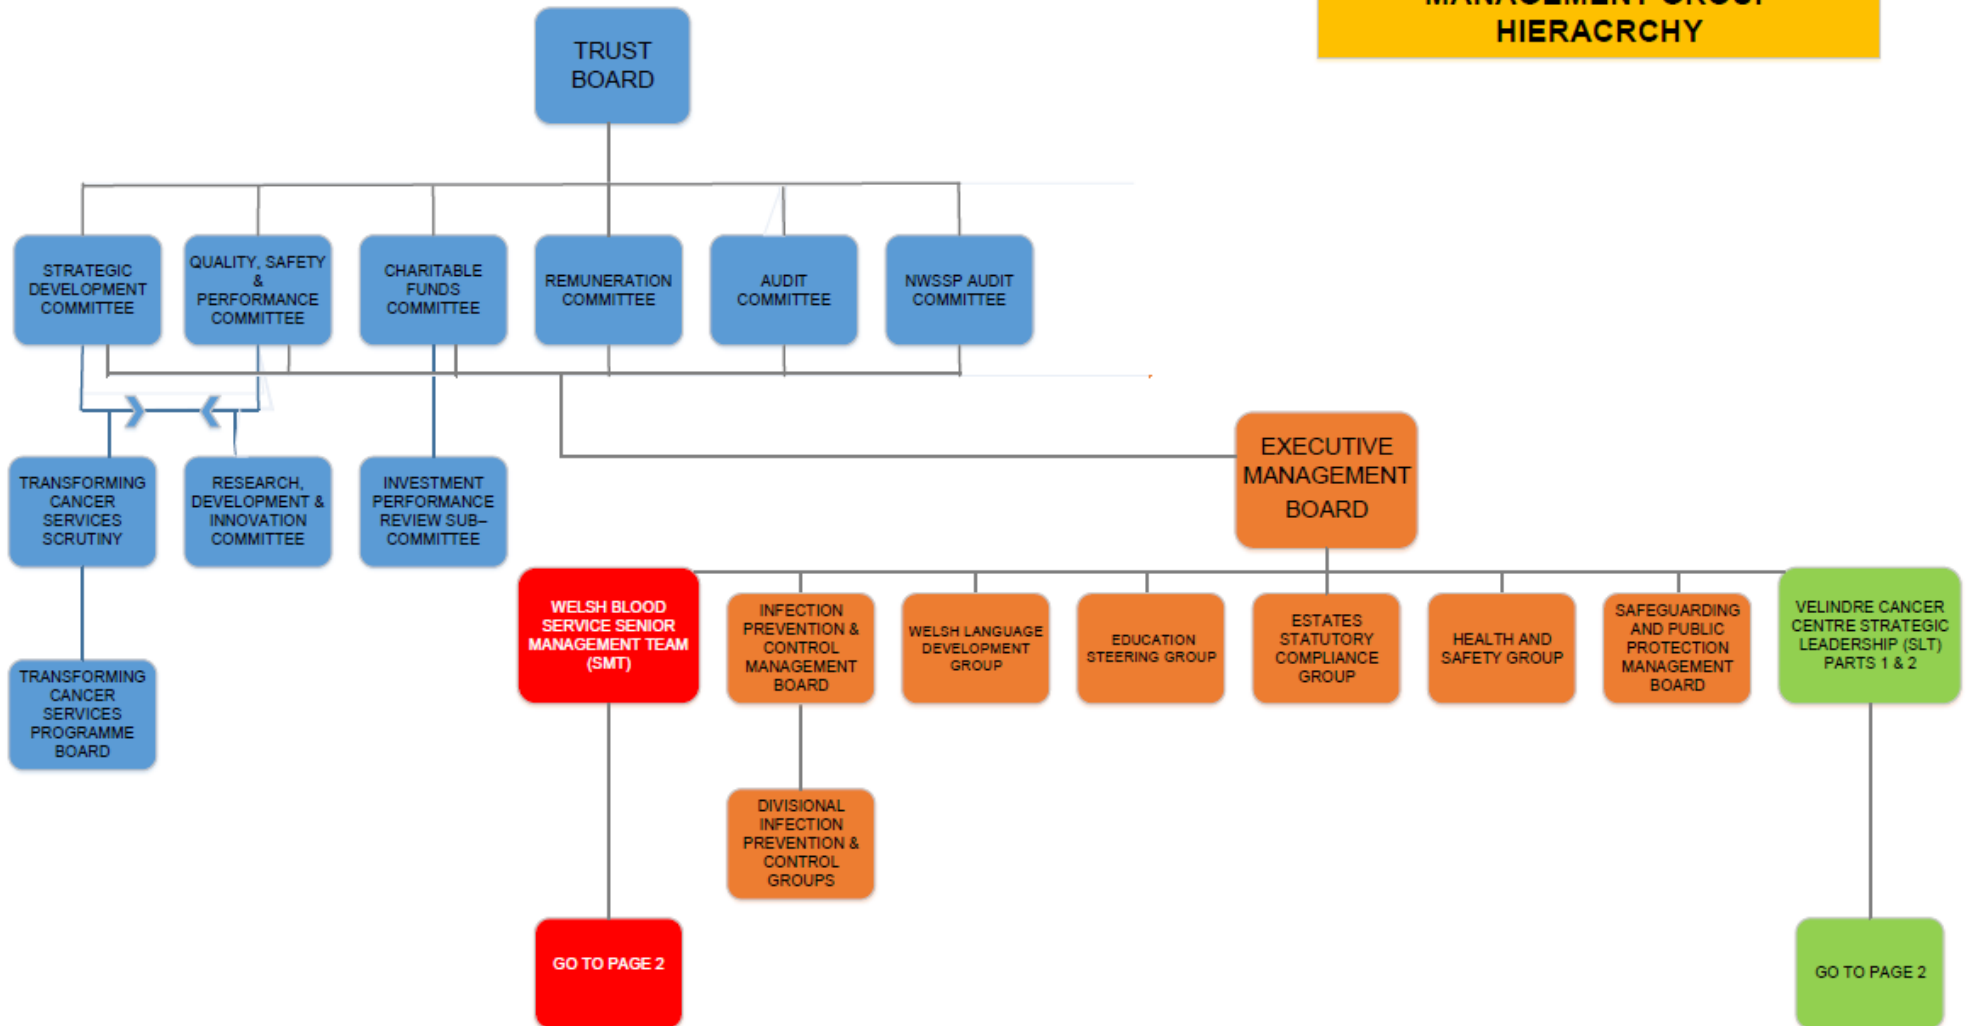

- 10.1 There may, occasionally, be circumstances where decisions normally made by the Committee need to be taken between scheduled meetings. In these circumstances, the Committee Chair, supported by the Director of Corporate Governance and Chief of Staff as appropriate, may deal with the matter on behalf of the Board, after first consulting with one other Independent Members of the Committee. The Director of Corporate Governance and Chief of Staff must ensure that any such action is formally recorded and reported to the next meeting of the Committee for consideration and ratification.
- 10.2 Chair's urgent action may not be taken where the Chair has a personal or business interest in the urgent matter requiring decision.

1. INTRODUCTION

- 1.1 The Trust's standing orders provide that "The Board may and, where directed by the Assembly Government must, appoint Committees of the Trust either to undertake specific functions on the Board's behalf or to provide advice and assurance to the Board in the exercise of its functions. The Board's commitment to openness and transparency in the conduct of all its business extends equally to the work carried out on its behalf by Committees".
- 1.2 In line with standing orders and the Trust's scheme of delegation, the Board shall nominate annually a Committee to be known as the **Quality, Safety and Performance Committee**. The detailed Terms of Reference and operating arrangements set by the Board in respect of this Committee are set out below.

2. PURPOSE

- 2.1 The purpose of the Quality, Safety and Performance Committee "the Committee" is to provide:
- Evidence based, timely **advice** and **assurance** to the Board, to assist it in discharging its functions and meeting its responsibilities through its arrangements and core outcomes with regard to:
 - quality, safety, planning and performance of healthcare;
 - safeguarding and public protection;
 - patient, donor and staff experience;
 - all aspects regarding the workforce;
 - digital delivery and information governance;
 - relevant statutory requirements e.g. the Health and Social Care (Quality and Engagement) (Wales) Act 2020, Well-being of Future Generations (Wales) Act 2015;
 - Health and Care Standards (2015);
 - financial performance;
 - regulatory compliance; and,
 - organisational and clinical risk.

3. DELEGATED POWERS AND AUTHORITY

- 3.1 The Committee will, in respect of its provision of **advice** and **assurance** to the Board use where possible a triangulated approach to:
- Seek assurance that governance arrangements are appropriately designed and operating effectively to ensure the provision of high quality, safe healthcare and services across the whole of the Trust's activities;
 - Ensure the Trust has in place a robust Quality Management System and is working towards meeting the requirements outlined in the Wales Quality Framework: Learning & Improving (2021) and the Duties of Quality and Candour;
 - Consider the implications for quality, safety, patient / donor experience / outcomes, planning and performance, workforce, finance, digital and information governance arising from the development of the Trust's corporate strategies and plans or those of

Formatted: Highlight

its stakeholders and partners, including those arising from any Joint (Sub) Committees of the Board;

- Consider the implications for the Trust's quality, safety, patient / donor experience / outcomes, planning and performance, workforce, finance, digital and information governance arrangements from review/investigation reports and actions arising from the work of external regulators;

• Monitor progress against the Trust's Integrated Medium-Term Plan (IMTP) ensuring that areas of weakness or risk and areas of best practice are reported to the Board;

Formatted: Highlight

• Align service, workforce and financial performance matters into an integrated approach in keeping with the Trust's commitment to the Sustainable Development Principle defined by the Well-being of Future Generations (Wales) Act 2015.

Formatted: Highlight

- Monitor the Trust's sustainability activities and responsibilities;
- Monitor progress against cost improvement programmes;
- Monitor and review performance against the Trust's Assurance Framework.
- Ensure areas of significant patient / donor / service / performance improvement are highlighted to the Board and other relevant Board Committees as necessary to ensure best practice is shared across the organisation;
- Monitor outcomes / outputs from patient / donor / service improvement programmes to provide assurance on sustainable improvements in the quality and efficiency of service delivery;
- Assess implications of any relevant existing, new or amended statutory and regulatory requirements e.g. the Health and Social Care (Quality and Engagement) (Wales) Act 2020 and oversee the Trust's implementation;

• Ensure the Trust Policies, Procedures and Strategies are consistent with internal and external legislative and regulatory requirements and are implemented effectively.

• Ensure the Trust, at all levels (divisional/team) has a citizen centred approach, putting patients, patient / donor experience, safety and safeguarding above all other considerations;

Deleted: <#>¶

• Ensure that care and services are planned and delivered in line with relevant national / statutory / regulatory and best practice standards;

• Ensure the Trust has the right systems and processes in place to deliver patient /donor focused, efficient, effective, timely and safe services;

• Ensure the workforce is appropriately selected, trained, supported and responsive to the needs of the Trust, ensuring recruitment practices safeguard adults and children at risk, that professional standards and registration/revalidation requirements are maintained, and there is compliance with the requirements of the Nurse Staffing Levels (Wales) Act 2016;

- Ensure there is effective collaboration with partner organisations and other stakeholders in relation to the sharing of information in a controlled manner, to provide the best possible outcomes for its citizens (in accordance with the Wales Accord for the Sharing of Personal Information and Caldicott requirements);
- Ensure the integrity of data and information is protected, valid, accurate, complete and timely data and information is available to support decision making across the Trust;
- Ensure there is an ethos of learning and continual quality improvement and a safety culture that supports safe high-quality care;
- Ensure there is good team working, collaboration and partnership working to provide the best possible outcomes for our citizens;
- Ensure risks are actively identified and robustly managed at all levels of the Trust;
- Ensure the Health and Care Standards (2015) are used to monitor and improve standards across the Trust;
- Ensure all reasonable steps are taken to prevent, detect and rectify irregularities or deficiencies in the quality, safety and performance of care provided, and in particular that:
 - sources of internal assurance are reliable
 - recommendations made by internal and external reviewers are considered and acted upon on a timely basis; and
 - lessons are learned from concerns, incidents, complaints and claims.
- Ensure there is an effective clinical audit and quality improvement function that meets the standards set for the NHS in Wales and provides appropriate assurance to the Board; and,
- Advise the Board about key indicators of quality, safety and performance, which will be reflected in the Trust's performance framework, against which performance will be regularly assessed and reported on through Annual Reports.

Authority

- 3.2 The Committee is authorised by the Board to investigate or commission investigation of any activity within its terms of reference. In doing so, the Committee shall have the right to inspect any books, records or documents of the Trust relevant to the Committee's remit, ensuring patient, and donor and staff confidentiality, as appropriate. The Committee may seek relevant information from:
- Employees (and all employees are directed to co-operate with any reasonable request made by the Committee), and any other Committee, Sub-Committee or Group set up by the Board to assist it in the delivery of its functions.
 - Obtain legal / other providers of independent professional advice, and to secure the attendance of individuals external to the Trust who have relevant experience and expertise if necessary, and in accordance with the Board's procurement, budgetary and other requirements.

- By giving reasonable notice, require the attendance of any of the officers or employees and auditors of the Trust at any meeting of the Committee.

3.3 Approve policies relevant to the business of the Committee as delegated by the Board.

Access

3.4 The Chair of the Quality, Safety & Performance Committee shall have reasonable access to Executive Directors and other relevant senior staff.

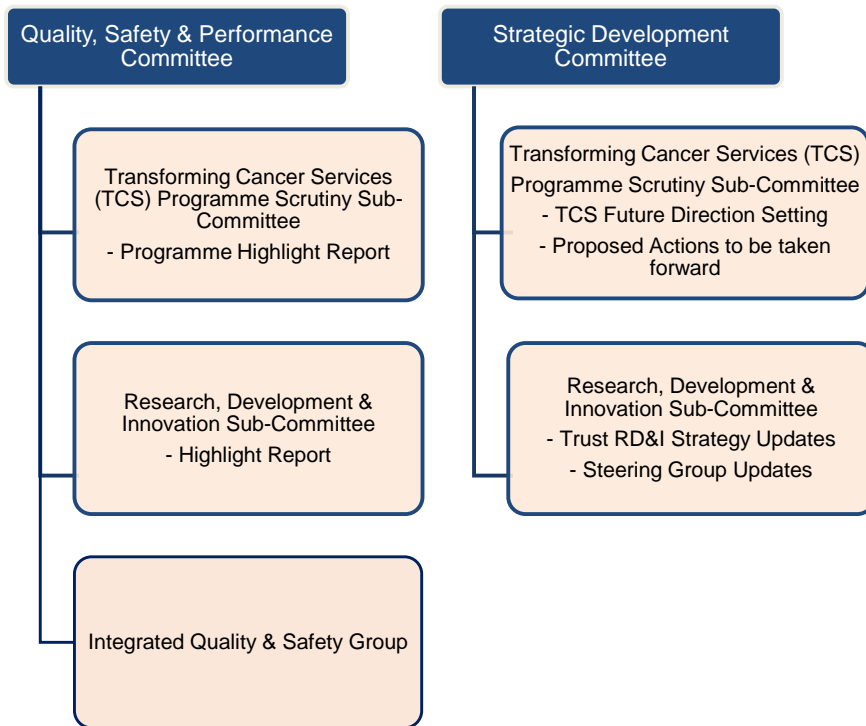

Sub Committees

- 3.5 The Committee has, with approval of the Trust Board, established the:
- Transforming Cancer Services (TCS) Programme Scrutiny Sub-Committee; and the
 - [Research, Development & Innovation Sub-Committee](#).
 - [Integrated Quality & Safety Group](#).

Note: an overarching summary of the Trust's Governance & Accountability Framework is provided at Annex 1. In addition, the wider governance and accountability reporting arrangements in place at a local divisional level that feed upwards into the Quality, Safety & Performance Committee structure are also summarised at **Annex 2**.

The sub-committees will have a dual reporting line to both the Quality, Safety and Performance Committee and the Strategic Development Committee as illustrated below:

Deleted: two

Although the Transforming Cancer Services (TCS) Programme Scrutiny Sub-Committee and Research, Development & Innovation Sub-Committee, are sub-committees with dual reporting lines, they will both retain the delegated authority for decision making granted by the Trust Board. Further details regarding delegated powers and authority are set out in each of the Sub-Committee Terms of Reference. The Research, Development & Innovation Sub-Committee will also feed into the Trust Charitable Funds Committee for alignment with strategy and funding. Further details are set out in each of the respective Terms of Reference.

HIGHLIGHT REPORT FROM THE CHAIR OF THE TCS PROGRAMME SCRUTINY SUB-COMMITTEE

DATE OF MEETING	31 st January 2023
PUBLIC OR PRIVATE REPORT	Public
IF PRIVATE PLEASE INDICATE REASON	Not Applicable - Public Report
PREPARED BY	Liane Webber, Business Support Officer
PRESENTED BY	Stephen Harries, Vice-Chair and Chair of the TCS Programme Scrutiny Sub-Committee
EXECUTIVE SPONSOR APPROVED	Carl James, Director of Strategic Transformation, Planning & Digital
REPORT PURPOSE	FOR NOTING

ACRONYMS	
WG	Welsh Government
LHB	Local Health Board
nVCC	New Velindre Cancer Centre
IRS	Integrated Radiotherapy Solution

1. PURPOSE

1.1 This paper has been prepared to provide the Trust Board with details of the key issues considered by the TCS Programme Scrutiny Sub-Committee held on 17th November 2022.

1.2 Key highlights from the meeting are reported in section 2.

1.3 The Board is requested to **NOTE** the contents of the report and actions being taken.

2. HIGHLIGHT REPORT

ALERT / ESCALATE	There were no items identified for Alert/Escalation to the Trust Board.
ADVISE	There were no items identified to Advise the Trust Board.
ASSURE	<p>TCS Programme Finance Report</p> <p>The Sub-Committee received the TCS Programme Finance Report and the following queries were raised:</p> <ul style="list-style-type: none"> • It was noted that the Sub-Committee are keen to gain a clear understanding of the potential impact on the Trust's finances. This was to be fed back to the author in order to further develop this detail in the report. • The Sub-Committee noted that the £0.434m sum to support the IRS programme has now been returned to the Trust Discretionary fund upon approval of the FBC. • Clarity was sought with regards to potential further underspend this year over and above the current underspend and whether this would mean a shortfall in the enabling works project next year due to delays in utilising the funds. It was explained that due diligence had been conducted in terms of reviewing and assessing the contracts in order to produce an accurate forecast and that there are processes by which this can be managed with Welsh Government, although it is understood that revising the planned spending generally becomes more difficult. • The potential impact of the annual NHS pay award referenced at para 7.28 was queried and it was confirmed that this had been factored into the revenue position. <p>The Sub-Committee noted the TCS Programme Finance Report.</p>

Programme Director's Report

The Sub-Committee received the Programme Director's Report, noting that the Programme Tranche Review has now received an initial review by the Independent Members. Noted also that the IRS is now ready to be signed and is awaiting ministerial approval.

The "new" status of Risk R394 was queried. It was clarified that this is not a new risk but is a long-standing risk being presented in a different way. It was agreed that this was misleading and the words "new risk" would be removed.

It was noted that a number of the risks had review dates which had passed. It was explained that these risks related to the outreach project which is currently still on hold. The accuracy of the description of Risk R2418 was queried. It was agreed that this risk is indeed due for review and that this would be carried out shortly with an update to follow.

Concerns were raised over the current hard campaign against the TCS clinical model and the potential effect, if any, this was having on Welsh Government decisions. It was noted that on the balance of evidence, there was sufficient confidence that the objectives can and will be achieved.

The Sub-Committee noted the Programme Director's Report.

Nuffield Recommendations Update

The Sub-Committee received the Nuffield Recommendations update and noted that good progress continues to be made.

It was noted that the Heads of Terms had been agreed and that branding work is underway but clarity was sought as to what extent Velindre has been incorporated in either the nomenclature or the branding. The Sub-Committee were advised that the Heads of Terms, which have been written by a member of Velindre staff, are currently in draft and will be taken through EMB for sign-off, and that Velindre are very much in control of both pieces of work. It was queried whether legal input had been given and this was confirmed.

The Sub-Committee **noted** the Nuffield Recommendations Update.

GIG
CYMRU
NHS
WALES

Ymddiriedolaeth GIG
Prifysgol Felindre
Velindre University
NHS Trust

	The Sub-Committee received a brief update of the FBC and Planning progress, and noted that the FBC has been approved by Health Boards and is complete and that planning is imminent.
INFORM	Communications & Engagement The Sub-Committee received and noted the Communications and Engagement update.
APPENDICES	None.

PUBLIC OR PRIVATE REPORT	Public
IF PRIVATE PLEASE INDICATE REASON	Not Applicable - Public Report
PREPARED BY	Liane Webber, Business Support Officer
PRESENTED BY	Stephen Harries, Vice-Chair and Chair of the Strategic Development Committee
EXECUTIVE SPONSOR APPROVED	Carl James, Director of Strategic Transformation, Planning & Digital
REPORT PURPOSE	FOR NOTING
ACRONYMS	
EqIA	Equality Impact Assessment
IRS	Integrated Radiotherapy Solution

1. PURPOSE

- 1.1 This paper has been prepared to provide the Trust Board with details of the key issues considered by the Strategic Development Committee held on 8th December 2022.
- 1.2 Key highlights from the meeting are reported in section 2.
- 1.3 The Board is requested to **NOTE** the contents of the report and actions being taken.

2. HIGHLIGHT REPORT

ALERT / ESCALATE	There were no items identified for alert/escalation to the Trust Board.
ADVISE	<p>Workforce Planning (Workforce Risks and Issues)</p> <p>The Committee received a presentation on Workforce Planning which was discussed as follows:</p> <ul style="list-style-type: none"> • The Trust’s level of freedom in terms of recruitment (e.g. recruiting internationally) was queried. It was clarified that from an advertising perspective the Trust has autonomy to advertise as it sees fit and does indeed have the remit to recruit internationally. • Although the Committee was supportive of the presentation content and its future planning, concern was raised regarding the current workforce challenges and assurance sought around what action is being taken to address the immediate issues in areas such as Medical Physics, Planning, etc. It was noted that whilst this is indeed an important point, the presentation was made for this committee which addresses future plans as opposed to the “here and now”, which are matters that would be addressed at the Trust’s Quality, Safety and Performance (QSP) Committee. • The Committee noted a recent successful recruitment round within the IRS programme, including a number of people from outside the organisation being appointed into senior roles, attracted by the organisation’s future direction. <p>The Committee noted the Workforce Planning (Workforce Risks and Issues) presentation.</p> <p>Integrated Medium Term Plan Welsh Government Planning Framework 2023-2026 IMTP 2023-2026 Progress to Date</p> <p>The Committee received an update on current IMTP progress, noting that well-developed, detailed plans will be brought to the February meeting of the Committee.</p>

	<p>It was noted that following recent Welsh Government guidance, the submission date has been revised to 31st March 2023.</p> <p>The Committee noted the Integrated Medium Term Plan update.</p>
ASSURE	<p>There were no items identified to assure the Trust Board.</p>
INFORM	<p>The Committee received the Destination 2032 Launch Plan and noted that care should be taken when introducing to the wider audience to ensure it is delivered in an uncomplicated, easily digestible manner.</p> <p>The requirement for an Equality Impact Assessment was queried, and assurance sought that all potential equality and diversity issues had been considered. It was clarified that all strategies which received Board approval in May were EqIA assessed but it was agreed that this would be reviewed in terms of the Launch Plan.</p> <p>The Committee noted the Destination 2032 Launch.</p> <p>The Committee received the Welsh Blood Service Five-Year Plan – Update</p> <p>It was queried whether the five-year strategy had been developed as an all-Wales document. Engagement with key partners and stakeholders, the CHC and WBS staff was confirmed.</p> <p>Attention was brought to the lack of detail surrounding some of the key areas (building renovations, Plasma for Fractionation, etc.), although it was noted that the current intention is primarily to build the broad framework for the strategy, and that further details of each area will be brought back to the Committee by way of regular updates as each programme is developed.</p> <p>Concern was raised regarding the stated commitment to achieving carbon neutrality by 2030, due to the likely challenges in meeting this. It was agreed that this was an ambitious target and this statement would be reviewed.</p> <p>The Committee noted the Welsh Blood Service Five-Year Plan update.</p> <p>The Committee received a brief outline of the Building Our Future Together Programme.</p>

	<p>It was noted that engagement of staff is addressed in the paper but the level of continuous engagement with the wider community and stakeholders was queried. It was explained that the focus is on developing the narrative of becoming an organisation that engages the community to support and provide input, although concern was raised at setting the framework without engagement of the community which could leave to decisions being made and later opposed.</p> <p>The Committee noted the Building Our Future Together Programme update.</p> <p>The Committee noted the Performance Accountability Framework and Delegation Framework update</p> <p>The Committee noted the Talbot Green Infrastructure Programme Progress Update</p> <p>The Committee noted the Value Based Healthcare Programme of Work.</p> <p>The Committee noted the Trust Assurance Framework update.</p> <p>The Committee noted the RD&I Sub-Committee Highlight Report.</p>
APPENDICES	None.

TRUST BOARD

PUBLIC QUALITY, SAFETY & PERFORMANCE COMMITTEE HIGHLIGHT REPORT

DATE OF MEETING	31 st January 2023
PUBLIC OR PRIVATE REPORT	Public
IF PRIVATE PLEASE INDICATE REASON	Not Applicable - Public Report
PREPARED BY	Kyle Page, Business Support Officer
PRESENTED BY	Vicky Morris, Chair of the Quality, Safety & Performance Committee and Independent Member
EXECUTIVE SPONSOR APPROVED	Nicola Williams, Executive Director of Nursing, Allied Health Professionals & Health Science
REPORT PURPOSE	FOR NOTING

ACRONYMS

HIW	Healthcare Inspectorate Wales
NRI	National Reportable Incident

1. PURPOSE

This paper has been prepared to provide the Trust Board with details of the key issues and risks considered by the Quality, Safety & Performance Committee at its meeting held on the 17th January 2023.

2. BACKGROUND

The Quality, Safety and Performance Committee meets on a bi-monthly basis and provides an opportunity to triangulate information and data in respect of quality, safety, finance, workforce, performance and digital. Following its annual review in October

2022, the Committee continues to mature, actively seeking opportunities for continuous improvement, together with the ongoing development of reporting formats, additional assurance mechanisms and discussions to facilitate ongoing streamlining and triangulation of information.

3. HIGHLIGHT REPORT: 17th January 2023

3.1 Committee Governance

Committee Governance was a core theme of the meeting. Committee members identified that although there have been improvements in the quality of papers in the last year, further work is required to ensure robust, clear and focussed reporting, with effective tracking of improvement actions to provide the necessary assurance. The establishment of the new operational Integrated Quality & Safety Group and the work due to commence on the implementation of the 7 levels of assurance framework will enable improved reporting and Committee effectiveness. It was recognised that the Integrated Quality & Safety Group will require time to mature and that a robust business intelligence system is required to facilitate effective triangulation.

A review of the highlight report was undertaken following the November 2022 meeting to facilitate targeted, high-level reporting of items for escalation, key risks and actions undertaken / required to the Board. For Board members, who are not members of the Committee who require further detail, the agenda and papers for the January Quality, Safety & Performance Committee can be accessed at:

<https://velindre.nhs.wales/about-us/quality-safety-performance/quality-safety-performance-committee-2023/quality-safety-performance-committee-papers-17012022/>

3.2 Summary of Committee Highlights

The following areas were highlighted for reporting to the Trust Board by the Committee:

ALERT / ESCALATE	There are no items to alert or escalate to the Board.
ADVISE	<ul style="list-style-type: none"> • Finance Report The Committee received the Financial Report, outlining the financial position for the period to end of November 2022, NOTING the year end

	<p>forecast to achieve breakeven and ongoing risk relating to income to cover the COVID backlog and additional capacity costs.</p> <ul style="list-style-type: none"> Welsh Blood Service Divisional Report The Welsh Blood Service performance report, for November 2022 reporting period was received and the Committee NOTED the current positive stock level position across all priority groups. The provision of mutual aid to Northern Ireland, the maintenance of stock levels throughout the Christmas period and during industrial action and, an increase in Bone Marrow volunteers resulting from targeted education campaigns was commended. Duty of Quality Gap Analysis The gap analysis report against the Duty of Quality consultation Statutory Guidance and draft implementation plan were received and discussed, recognising that a number of timescales will be challenging in terms of delivery. Work has been undertaken in conjunction with the national Duty of Quality & Duty of Candour Implementation Board to identify minimum requirements to be in place by the 1st April 2023. Resource requirements for delivery were flagged and these will be included within the IMTP. The Committee noted that the final Statutory Guidance document was unlikely to be published until just a few weeks prior to the 1st April 2023. The Committee will receive an implementation update at the next meeting.
<p>ASSURE</p>	<ul style="list-style-type: none"> Velindre Cancer Service – Patient Story The Committee received a heart-warming patient story by means of a PowerPoint presentation, relating to the arrangement of a wedding blessing at Velindre Cancer Centre for a patient who had received a terminal prognosis. The story demonstrated how staff, teams and departments at Velindre Cancer Centre worked together to deliver what mattered most to the patient, which was a wedding blessing and to be able to die at home. The importance of ascertaining what mattered most to the patient and working as a team to go above and beyond to achieve this for the patient was recognised and commended. Trust Integrated Quality & Safety Group A report was received covering the Integrated Quality & Safety Group outcomes from October 2022 (inaugural meeting) to December 2022. The Integrated Quality & Safety Group was established to provide Executive operational oversight to support the Trust in meeting its

Quality and Safety responsibilities, including the legislative and national requirements in relation to the 'Duty of Quality' responsibilities to help to ensure quality is at the centre of all decision making across the Trust.

The Integrated Quality & Safety Group identified the need to develop a robust automated business intelligence system and to identify the Trust's comprehensive suite of quality, harm and safety measures.

The Committee **APPROVED** the Integrated Quality & Safety Group Terms of Reference, with an initial six-month review period.

- **Workforce & Organisational Development Performance Report / Finance Report**

The report was received and discussed, highlighting current key workforce and associated financial risks.

The Committee was assured that targeted recruitment interventions in hotspot areas had resulted in improvement, leading to an anticipated 16% year on year reduction in Agency spend for 2022-23. The committee sought assurance that the progress made in these hot spot areas could be replicated in other recruitment hotspots. QSP will continue to closely monitor this.

- **Workforce Report**

The Workforce Report was received and the Committee was again assured that 85% compliance with PADR would be achieved within Corporate areas by the end of March 2023 (currently at 63.64%). This will be monitored by the Committee.

- **Velindre Cancer Service Quality Safety & Performance Divisional Report**

The Velindre Cancer Service integrated Quality, Safety and Performance report was received. The Committee highlighted that the performance data in the cover paper was for November 2022 and Quality and Safety information in the VCC paper was to the end of October 2022. The Committee **NOTED** current improvements:-

- 100% compliance relating to management of concerns.
- Positive feedback following two unannounced Healthcare Inspectorate Wales (HIW) visits to Nuclear Medicine and First Floor Ward.

- Work undertaken to implement improvements to the Brachytherapy Service.

It was also noted that following two National Reportable Incidents (NRIs) resulting from missed opportunities to refer patients via the treatment helpline for an earlier medical review, immediate learning and improvements had been identified and a full review is underway.

The Committee was assured that the recurring issue of misalignment of the timings of the Velindre Cancer Service Divisional Report (October 2022) and Summary Performance Report (November 2022) would be addressed via the Executive Director of Nursing, Allied Health Professionals and Health Science.

- **Sustainability Report (including Decarbonisation)**

The Annual Sustainability Report April 2021-March 2022 was positively received and commended for its clear format, presentation and layout, demonstrating the achievements the Trust has made to actively take forward its commitment to sustainability over the course of the year. The Committee **ENDORSED** the report for Trust Board approval.

- **Trust Risk Register**

The current extract of Risk Registers was received, providing oversight and assurance of the management of risks across the Trust.

Ongoing work has continued regarding Velindre Cancer Service risk register management, in addition to a review of Welsh Blood Service risk register, to identify potential duplications and assess risk scores, amending as appropriate prior to Trust Board. The chair and IM members identified that the summary table still made it difficult to be able to track changes since the last report and actions being taken to achieve the target scores and demonstrate mitigation of risk. The Committee referenced the Quality Governance Review (Audit Wales) regarding the same issues and recommendations and triangulating this with the discussion in a recent Audit Committee. A proposed enhanced template format will be developed via active engagement with Audit Committee members and the Chair of the Quality, Safety & Performance Committee.

The Committee **NOTED** the revised risk appetite levels.

	<ul style="list-style-type: none"> • Trust Assurance Framework The Trust Assurance Framework was received, providing the current position in relation to principal risks falling within the remit of the Committee. Subsequent to discussions at Audit Committee and Executive Management Board, it was noted that following cross-reference with the Audit Tracker and Legislative Compliance Register, the Trust Assurance Framework template will be redeveloped to include: <ul style="list-style-type: none"> • The capture of explicit actions / reasons in relation to how identified gaps will be managed / accepted; • Clear corresponding actions in response to partial assurance ratings and / or gaps in controls; • Clear impact of 'closed' actions on the assurance rating. <p>The Committee was also advised that a refresh of the Trust Strategic Risks is underway and will be aligned with the development of the Trust Integrated Medium Term Plan for presentation to Trust Board.</p> <ul style="list-style-type: none"> • January Analysis of Quality, Safety & Performance Committee Effectiveness Feedback regarding analysis of triangulation was received from Committee members. Following agreement at the November 2022 meeting, a series of targeted questions will be circulated following each Committee to enable regular feedback and ongoing assessment of Committee effectiveness, facilitating continuous improvement.
INFORM	<ul style="list-style-type: none"> • Policies for approval (QS02 – Management of Safety Alerts and Important Notifications Policy) The Committee APPROVED the revised policy, subject to further amendments following discussions at the January 2023 Committee. These will be completed and the policy re-circulated to Committee members and attendees prior to Trust Board. • Annual Equality, Diversity & Inclusion Report 2021-22 The Committee received and ENDORSED the 2021-2022 Annual Equality, Diversity & Inclusion report for onward submission for Trust Board approval.

	<ul style="list-style-type: none"> Business Continuity The Committee received the Business Continuity report and NOTED that an update would follow in 6 months' time (the 2022/23 annual report) to support a level of assurance in terms of progress being made. Medical Devices Report The Medical Devices Report was removed from consent to allow for further discussion and it was agreed that a further update would be provided prior to the next annual report, as new regulations are coming into effect and the Trust needs to monitor compliance against these. Additional items discussed at the November Committee: Gender Pay Gap Report The agenda and papers for the Quality, Safety & Performance Committee (all meetings) can be accessed at: https://velindre.nhs.wales/about-us/quality-safety-performance/
APPENDICES	N/A

4. RECOMMENDATION

The Trust Board is asked to **NOTE** the key deliberations and highlights from the meeting of the Quality, Safety & Performance Committee held on the 17th January 2023.

WELSH HEALTH SPECIALISED SERVICES COMMITTEE (WHSSC) EXTRAORDINARY JOINT COMMITTEE MEETING BRIEFING – 10 JANUARY 2023

The Welsh Health Specialised Services Committee held its latest public meeting on 10 January 2023. This briefing sets out the key areas of consideration and aims to ensure everyone is kept up to date with what is happening within the Welsh Health Specialised Services.

The papers for the meeting can be accessed at:

<https://whssc.nhs.wales/joint-committee/committee-meetings-and-papers/2021-2022-meeting-papers/>

1. Single Commissioner for Secure Mental Health Proposal

Members received a report presenting the feedback received from Health Boards (HBs) on the options assessment for a single national organisation to commission integrated secure mental health services for Wales and to request support for the recommended course of action to be given to Welsh Government (WG) to achieve a single commissioner for secure mental health services in Wales.

Members (1) **Noted** the report, (2) **Noted** the feedback received from the seven Health Boards (HBs) on the options assessment circulated by the WHSSC team, (3) **Noted** that six of the seven Health Boards (HBs) supported WHSSC as the single commissioner with one HB raising concerns regarding the need for a single commissioner, (4) **Noted** that feedback emphasised a number of issues which would need to be addressed to ensure successful implementation of the change; and (5) **Supported** the following recommendations going forward to Welsh Government:

- That secure mental health services in Wales should be commissioned by WHSSC,
- That a national programme of work, including representatives from Welsh Government, WHSSC and all the seven Health Boards (HBs) should be set up to manage the transfer of the commissioning of low secure services; and
- That more detailed work needs to be done to define the appropriate timescales but that the programme of work is unlikely to be completed before April 2024 at the earliest.

2. Audit Wales WHSSC Committee Governance Arrangements – Update

Members received a report providing an update on progress against the recommendations outlined in the Audit Wales WHSSC Committee Governance Arrangements report.

Members (1) **Noted** the report, (2) **Noted** the progress made against WHSSC management responses to the Audit Wales recommendations outlined in the WHSSC Committee Governance Arrangements report, (3) **Noted** the progress made against the Welsh Government responses to the Audit Wales recommendations outlined in the WHSSC Committee Governance Arrangements report; and (5) **Noted** that a further update on progress will be brought to the May 2023 Joint Committee meeting; thereafter an update will be submitted to Audit Wales and to HB Audit Committees for assurance in June/July 2023.

3. Preparedness for the COVID-19 Public Inquiry

Members received a report providing an update on WHSSC's preparedness for the COVID-19 Public Inquiry.

Members **noted** the report.

4. Review of Financial Limits and Reporting

Members received a report requesting that the increased financial delegation limits introduced in March 2020 to enable effective financial governance as a consequence of the COVID-19 pandemic were approved as new permanent limits.

Members discussed the report and noted that discussion had been held with HB finance colleagues on the proposed approach. Members advised they were in agreement to approve the recommendations, subject to further discussion with the HB Board Secretaries.

Members (1) **Noted** the report, (2) **Noted** the rationale for the increase in financial delegation limits as a consequence of the COVID-19 pandemic, (3) **Approved** the updated financial authorisation matrix, which includes the increased financial delegation limits introduced in March 2020 to enable effective financial governance as a consequence of the COVID-19, (4) **Approved** the updated process for the current SFI requirement for Joint Committee "approval" of non-contract cases above defined limits for annual and anticipated lifetime cost, to be replaced by an assurance report to Joint Committee and the CTMUHB Audit & Risk Committee (ARC) notifying of all approvals above the defined limit and Chairs action to reflect the need for timely approval action, subject to further discussion with the HB Board Secretaries. (5) **Noted** that the Standing Financial Instructions (SFI's), and the scheme of delegation will be updated to reflect the changes; and (6) **Noted** that the updated scheme of delegation and the financial matrix will be appended to the SFI's for completeness.

WELSH HEALTH SPECIALISED SERVICES COMMITTEE (WHSSC) JOINT COMMITTEE MEETING BRIEFING – 17 JANUARY 2023

The Welsh Health Specialised Services Committee held its latest public meeting on 17 January 2023. This briefing sets out the key areas of consideration and aims to ensure everyone is kept up to date with what is happening within the Welsh Health Specialised Services.

The papers for the meeting can be accessed at:

<https://whssc.nhs.wales/joint-committee/committee-meetings-and-papers/2021-2022-meeting-papers/>

1. Minutes of Previous Meetings

The minutes of the meeting held on the 8 November 2022 were **approved** as a true and accurate record of the meeting.

2. Action log & matters arising

Members **noted** the progress on the actions outlined on the action log.

3. Draft Integrated Commissioning Plan (ICP) 2023-2024

Members received a presentation on the draft Integrated Commissioning Plan (ICP) 2023-2024 and a report presenting the plan for approval.

Members noted that the ICP had been updated following the Joint Committee ICP workshop on 10 January 2023 during which a range of scenarios were considered and it was recognised that the financial situation of NHS Wales had become clearer and the context for consideration of the plan had become more difficult.

Members discussed the financial elements of the plan and noted the constrained economic environment, recovery challenges and the volatile inflationary pressures. Members agreed to support the plan in principle but requested that additional work was required to focus on risks, efficiencies, monitoring and reporting, to be undertaken before being brought back to an extraordinary Joint Committee meeting in February 2023, in order to approve the ICP in readiness for inclusion in Health Board (JB) Integrated Medium Term Plans (IMTP's).

Members (1) **Noted** that the Plan has been finalised following the Joint Committee Workshop held on 10 January 2023, (2) **Agreed** to support the plan in principle but requested additional work be undertaken to focus on risks, efficiencies, monitoring and reporting before they could provide final approval,

(3) **Agreed** to convene an extraordinary Joint Committee meeting in February 2023 to:

- **Approve** the requirements of the Integrated Commissioning Plan (ICP) for inclusion in Health Board Integrated Medium Term Plans (IMTPs); and
- **Approve** the Integrated Commissioning Plan (ICP) 2023-2024 for submission to Welsh Government.

4. Chair's Report

Members received the Chair's Report and **noted**:

- Key meetings attended.

Members **noted** the report

5. Managing Director's Report

Members received the Managing Director's Report and **noted** the following updates on:

- **National Skin Camouflage Pilot Service** - WHSSC had received a formal request from Welsh Government (WG) following agreement at the NHS Wales Leadership Board (NWLB) for WHSSC to commission the national skin camouflage pilot service,
- **Individual Patient Funding Request (IPFR) Engagement Update** – The formal engagement process to review the WHSSC Individual Patient Funding Request (IPFR) panel Terms of Reference (ToR) and the specific and limited review of the all Wales IPFR policy, commenced on 10 November 2022 for a 6- week period following the Joint Committee supporting the proposed engagement process at its meeting on 8 November 2022. The feedback is being reviewed and an update will be provided to the Joint Committee in March 2023,
- **Board Development - Compassionate and Collective Leadership in Health and Social Care** - On 29 November 2022, the CDGB received a briefing from Professor Michael West CBE on Compassionate and Collective Leadership in Health and Social Care as part of his mandate to visit all NHS bodies to discuss the importance of compassionate and collective leadership, which is being led by Health Education & Improvement Wales (HEIW). Professor West will facilitate a session with the Joint Committee in 2023 to support discussions on working in partnership, developing cross-boundary team-based working and system leadership.

Members **noted** the report.

6. Plastic Surgery: realignment of future commissioning responsibilities between WHSSC and Health Boards

Members received a report outlining the outcome of the plastic surgery commissioning workshop held with the Management Group in September 2022 and to request support for WHSSC to establish a project to realign

commissioning responsibilities for plastic surgery between WHSSC and Health Boards (HBs).

Members (1) **Noted** the report, (2) **Noted** the outcome of the Management Group plastic surgery workshop held in September 2022, (3) **Considered** and **approved** the proposed realignment of commissioning arrangements for plastic surgery so that non-specialised surgery will be commissioned by Health Boards (HBs) and specialised surgery will be commissioned by WHSSC; (4) **Supported** a project led by WHSSC to undertake the work to transfer commissioning responsibility for non-specialised plastic surgery to Health Boards (HBs) and retain specialised surgery as commissioned by WHSSC.

7. WHSSC Cardiac Review

Members received a report addressing a number of recent events and trends that had impacted the WHSSC-commissioned cardiac surgery and TAVI services, and which sought to identify how they might be coherently and collectively addressed. The subjects of this analysis comprise:

- The 2021 GIRFT review of cardiac surgery,
- Changes to the volume of TAVI and cardiac surgery, together with cardiac surgery performance and escalation issues; and
- The clinical rationale for the selection of TAVI valves, in view of their differential costs.

Members (1) **Noted** the report, (2) **Noted** the impact of the recent events and trends as drivers change in the commissioning of cardiac surgery and TAVI services, (3) **Noted** the important link between the cardiac review and the Integrated Commissioning Plan (ICP) in that the work will conclude what level of cardiac surgery is required and inform the scale of any resultant de-commissioning, (4) **Approved** the development of new contract baselines for cardiac surgery and TAVI, (Stage 1), to be completed by June 2023, (5) **Approved** the proposal that the current TAVI commissioning policy be reviewed (Stage 1), to be completed by June 2023; and (6) **Approved** the recommendation that further demand and capacity planning be undertaken, concluding with an options appraisal to identify the preferred future service configuration of WHSSC-commissioned cardiac surgery and TAVI activity (Stage 2), to be undertaken during 2023-24 and 2024-25.

8. Governance Review of Welsh Kidney Network (WKN)

Members received a report which outlined the recommendations from the recent independent Governance Review for the Welsh Kidney Network (WKN) and which provided an assurance that the recommendations were being enacted through an action plan that had been developed, agreed and monitored through the WKN Board.

Members (1) **Noted** the report; and (2) **Received assurance** that there are robust processes in place to ensure delivery of the recommendations

detailed within the recent Governance Review of the Welsh Kidney Network (WKN).

9. South Wales Trauma Network Delivery Assurance Group (DAG) Report (Quarter 2 2022-23)

Members received a report providing a summary of the Quarter 2 2022-23 Delivery Assurance Group (DAG) report of the South Wales Major Trauma Network (SWTN).

Members noted the South Wales Major Trauma Network (SWTN) Delivery Assurance Group (DAG) Report for Quarter 2 2022-2023.

10. Corporate Risk Assurance Framework (CRAF)

Members received a report presenting the updated Corporate Risk Assurance Framework (CRAF) which outlined the risks scoring 15 or above on the commissioning teams and directorate risk registers, which provided an update on the progress made to develop the CRAF following the risk management workshop held in September 2022 and which presented a revised risk appetite statement for approval.

Members (1) **Noted** the report; (2) **Approved** the updated Corporate Risk Assurance Framework (CRAF) and **noted** the changes to the risks outlined in the report as at 31 December 2022, (3) **Noted** that a risk workshop was held in September 2022 to review the CRAF and WHSSC's risk appetite; and (4) **Approved** the updated risk appetite statement.

11. All Wales Positron Emission Tomography (PET) Programme Board Update

Members received a report providing an update on the All Wales Positron Emission Tomography (PET) Programme, including an assessment of clinical demand and growth for PET scanning in Wales and requests support for the recommendation to Welsh Government (WG) that a fourth scanner will be needed to meet predicted scanning demand.

Members (1) **Noted** the report, (2) **Considered** and **approved** a recommendation to Welsh Government (WG) (Programme Sponsor) for a fourth fixed PET scanning site within Wales, based upon up-to-date assessment of clinical demand, which confirms growth is in line with that described in the original Programme Business Case (PBC); and (3) **Received assurance** that there are robust processes in place to ensure delivery of the All Wales Positron Emission Tomography (PET) Programme.

12. COVID-19 Period Activity Report for Month 7 2022-2023 COVID-19 Period

Members received a report that highlighted the scale of the decrease in activity levels during the peak COVID-19 period and whether there were any signs of recovery in specialised services activity.

Members **noted** the report.

13. Financial Performance Report – Month 8 2022-2023

Members received the financial performance report setting out the financial position for WHSSC for month 8 2022-2023. The financial position was reported against the 2022-2023 baselines following approval of the 2022-2023 WHSSC Integrated Commissioning Plan (ICP) by the Joint Committee in February 2022.

The financial position reported at Month 8 for WHSSC is a year-end outturn forecast under spend of £14,195k.

Members **noted** the current financial position and forecast year-end position.

14. Corporate Governance Matters

Members received a report providing an update on corporate governance matters that had arisen since the previous meeting.

Members **noted** the report.

15. Other reports

Members also **noted** update reports from the following joint Sub-committees and Advisory Groups:

- Audit and Risk Committee (ARC)
- Management Group (MG),
- All Wales Individual Patient Funding Request (IPFR) Panel
- Welsh Kidney Network (WKN)

EMERGENCY AMBULANCE SERVICES JOINT COMMITTEE MEETING

**'CONFIRMED' MINUTES OF THE MEETING HELD ON
8 NOVEMBER 2022 AT 09:30HOURS
VIRTUALLY BY MICROSOFT TEAMS LIVE**

PRESENT

Members:	
Chris Turner	Independent Chair
Stephen Harray	Chief Ambulance Services Commissioner (CASC)
Nicola Prygodzicz	Chief Executive, Aneurin Bevan ABUHB
Gill Harris	Interim Chief Executive Betsi Cadwaladr, BCUHB
Suzanne Rankin	Chief Executive, Cardiff and Vale CVUHB
Paul Mears	Chief Executive, Cwm Taf Morgannwg CTMUHB (in part)
Andrew Carruthers	Chief Operating Officer, Hywel Dda HDUHB
Carol Shillabeer	Chief Executive, Powys PTHB
Sian Harrop-Griffiths	Director of Strategy, Swansea Bay SBUHB
Associate Members:	
Jason Killens	Chief Executive, Welsh Ambulance Services NHS Trust (WAST)

In Attendance:	
Nick Wood	Deputy Chief Executive, NHS Wales
Rachel Marsh	Director of Planning, Strategy and Performance, Welsh Ambulance Services NHS Trust (WAST)
Matthew Edwards	Head of Commissioning & Performance EASC Team, National Collaborative Commissioning Unit (NCCU)
Phill Taylor	Head of Commissioning & Performance EASC Team, National Collaborative Commissioning Unit (NCCU)
Sian Ashford	Senior Lead Nurse, Quality and Delivery Frameworks, National Collaborative Commissioning Unit (NCCU)
Gwenan Roberts	Committee Secretary

In Attendance:	
In Attendance for agenda item 2.3 Emergency Medical Retrieval and Transfer Service (EMRTS) Cymru Service Development Proposal	
David Lockey	National Director, Emergency Medical Retrieval and Transfer Service (EMRTS Cymru)
Sue Barnes	Chief Executive, Wales Air Ambulance Charity
Mark Winter	Operations Director, Emergency Medical Retrieval and Transfer Service (EMRTS Cymru)
Matt Cann	Programme Manager, Emergency Medical Retrieval and Transfer Service (EMRTS Cymru)
Steven Stokes	Director of Communications and Strategic Engagement, Wales Air Ambulance Charity

Part 1. PRELIMINARY MATTERS		ACTION
EASC 22/111	<p>WELCOME AND INTRODUCTIONS</p> <p>Chris Turner (Chair), welcomed Members to the virtual 'Teams Live' meeting (using the Microsoft Teams platform) of the Emergency Ambulance Services Committee and gave an overview of the arrangements for the meeting. This was the first EASC meeting to be live streamed.</p>	Chair
EASC 22/112	<p>APOLOGIES FOR ABSENCE</p> <p>Apologies for absence were received from Steve Moore, Mark Hackett and Steve Ham.</p>	Chair
EASC 22/113	<p>DECLARATIONS OF INTERESTS</p> <p>There were none.</p>	Chair
EASC 22/114	<p>MINUTES OF THE MEETING HELD ON 6 SEPTEMBER 2022</p> <p>The minutes were confirmed as an accurate record of the Joint Committee meeting held on 6 September 2022 with the exception of:</p> <ul style="list-style-type: none"> • clarification between the 'Internal Service Analysis' undertaken by the Emergency Medical Retrieval and Transfer Service and the 'Strategic Review' undertaken by the Wales Air Ambulance Charity • the addition of the word 'need' at the top of minute 22/100 (page 9), so that the sentence now reads 'Key headlines from the Strategic Review included under-utilisation and unmet need (geographic, overnight and hours of darkness)' • Amend the resolution to reflect that a service development proposal would be received. 	Chair

	<p>EASC 22/81</p> <ul style="list-style-type: none"> • Roster Reviews Jason Killens reported that this programme of work commenced in October and was on track for completion at the end of November. It was agreed that WAST would provide the numbers of staff available on a health board by health board basis. • WAST Working Practices Jason Killens confirmed that progress had been made on a range of working practices with the Trade Unions, including a potential pathway for emergency medical technicians. It was further noted that industrial action could take place in coming months. • Immediate Red Release The Chair asked Members to ensure that, whilst some progress was being made, a request for red release should continue to be seen as an absolute priority. <p>EASC22/20</p> <ul style="list-style-type: none"> • Performance Report This was on the action log awaiting further update re Digital Health and Care Wales looking at linked data sets related to patient outcomes. In future this would be added as a standing item in the Chief Ambulance Services Commissioner’s Report. <p>EASC 22/10</p> <ul style="list-style-type: none"> • Key Reports and Updates It was reported that the new WAST Director of Quality and Nursing was currently in the process of reviewing the reporting process on a range of metrics. An update would be provided at a future meeting. <p>EASC 21/26</p> <ul style="list-style-type: none"> • Committee effectiveness The Chair reported that attempts had been made to contact the Citizen’s Voice Body and would report progress at the next meeting. <p>Members RESOLVED to: NOTE the Action Log.</p>	<p>WAST</p> <p>ALL</p> <p>EASCT</p> <p>WAST</p>
<p>EASC 22/117</p>	<p>MATTERS ARISING</p> <p>There were no matters arising from the minutes.</p>	<p>Chair</p>
<p>EASC 22/118</p>	<p>CHAIR’S REPORT</p> <p>The Chair’s report was received. Members RESOLVED to:</p> <ul style="list-style-type: none"> • NOTE the Chair’s report and the Chair’s finalised objectives as set by the Minister. 	<p>Chair</p>

Part 2. ITEMS FOR DISCUSSION AND APPROVAL	ACTION
<p>EASC 22/119</p> <p>PERFORMANCE REPORT</p> <p>The Performance Report was received. In presenting the report Ross Whitehead highlighted the following areas:</p> <ul style="list-style-type: none"> • Ambulance Service Indicators - September’s data were now available on the EASC website • Handover delays including the handover improvement trajectories • EASC Action Plan – most recent version included in the meeting papers and the EASC Team was due to submit the latest version to Welsh Government (WG) and stakeholders following the meeting. Members noted that this was an integrated plan that draws various elements of work together, was developed with health boards and was aligned to actions from the Six Goals for Urgent and Emergency Care Programme. The winter resilience letter issued by Welsh Government and its expectation for progress was also noted in this context. <p>Members noted the need to use the plan to track progress, to identify and share areas of best practice, to learn from the bad weeks and to ensure mitigating action where required. Two key areas were noted, these were addressing 4 hour waits and generally reducing the variation within the system.</p> <p>Nick Wood noted the actions being undertaken across NHS Wales, summarised in the consolidated EASC Action Plan and sought assurance from health boards and WAST regarding their organisational commitment to being a part of the conversations being held and to delivering the actions in the plan.</p> <p>Jason Killens confirmed the commitment of WAST to its agreed actions and, while noting that further work was required in other areas, reported the progress already made against the roster review programme, working towards stretch targets for ‘Consult and Close’ and on track in terms of recruitment for the additional 100 full time equivalents by 23 January. The good progress made by WAST was noted.</p> <p>There was discussion regarding the progress in relation to the shared actions between WAST and health boards with the example of active discussion to expand the provision of advanced paramedic practitioners to direct activity away from Emergency Departments provided.</p>	

	<p>Members noted that severe pressures exist throughout the system from the 'front door' to community care, and, in addition to the requirement for increased community care capacity, there was a need to maximise the opportunities with regard to admission avoidance schemes and same day emergency care services.</p> <p>The focus on the winter plan and the actions within the Six Goals for Urgent and Emergency Care Programme with a particular focus on improving handover delays, 4 hour waits, red release and reducing community risk.</p> <p>It was recognised that the role of local authorities was critical in addressing delayed transfers, also the impact of ambulance services on other emergency services (primarily police services) and there was therefore a requirement for a joint approach and a wider public service message than was currently being conveyed.</p> <p>Members noted that there was an increasing trend in terms of units of hours produced and this position would further improve once the additional 100 full time equivalents become operational; while red performance was challenging, more patients were receiving a service. Further work was also required in relation to outcomes for patients that do receive a response and outcomes for those that do not.</p> <p>Highlighting the citizen's perspective, the Chair welcomed the weekly dashboard being widely circulated to the NHS by the EASC Team. This was felt to be helpful in identifying where performance had improved and deteriorated and broadly indicated where actions at the front door might have made an impact. Members noted the use of the dashboard and requested further work to better understand the wider context, the correlation between different elements and to understand the key drivers behind the data.</p> <p>It was agreed that further work would now be undertaken with the required teams to ensure access to key data and further development of the dashboard.</p> <p>Members RESOLVED to:</p> <ul style="list-style-type: none"> • NOTE the content of the report. • NOTE the Ambulance Services Indicators • NOTE additional actions that the committee could take to improve performance delivery of commissioned services • NOTE the handover improvement trajectories • NOTE the EASC Action Plan • NOTE the request to progress the dashboard. 	<p>WAST</p> <p>EASCT</p>
--	--	--------------------------

<p>EASC 22/120</p>	<p>QUALITY AND SAFETY REPORT</p> <p>The Quality and Safety Report on commissioned services was received.</p> <p>In presenting the report, Ross Whitehead reminded Members that an increased focus on quality and safety matters was a priority within the EASC Integrated Medium Term Plan (IMTP).</p> <p>The following areas were highlighted:</p> <ul style="list-style-type: none"> • The work of the Healthcare Inspectorate Wales (HIW) Task & Finish Group (convened by the EASC Team) established to lead and coordinate the work in response to the recommendations made as part of the HIW 'Review of Patient Safety, Privacy, Dignity and Experience whilst Waiting in Ambulances during Delayed Handover'. <p>A formal update was provided to HIW on 30 September, outlining the positions of all health boards and WAST relating to each of the recommendations.</p> <p>A formal response from HIW had been received requesting further detail on a number of the recommendations. Health Boards and WAST had also been asked for a response.</p> <p>A further 'Fundamentals of Care' workshop was planned to take place at the end of November to further address recommendations relating to patient care whilst waiting for delayed periods of time, on ambulances, outside hospitals.</p> <ul style="list-style-type: none"> • Fortnightly meetings had been held in response to the NHS Wales Delivery Unit Report on Appendix B submissions. <p>As a result of these meetings, a section of the policy had been developed to improve the process for the joint investigation between WAST and other NHS Wales organisations. Members noted this process would be tested over the forthcoming weeks.</p> <p>The Deputy Chief Ambulance Service Commissioner had written to each health board asking for written confirmation that they accepted the recommended new process.</p> <p>In order to provide support in the testing of the process a new form had been developed to replace the Appendix B form. A draft all Wales agenda template for joint meetings had also been produced to support this new process.</p>	
------------------------	--	--

	<p>Rachel Marsh noted the potential additional workload and capacity issues for WAST and the need to review the impact of this as soon as feasible. It was confirmed that the group would continue to meet to review the new process and to intervene and adapt as required.</p> <ul style="list-style-type: none"> • Regulation 28 – Prevention of Future Deaths – Members were asked to note the Regulation 28 – Prevention of future death notice that had been issued to the Welsh Ambulance Service NHS Trust and Betsi Cadwaladr University Local Health Board. <p>Whilst the report related to a specific case within the health board, Members recognised similar challenges across Wales in the delivery of effective ambulance services both for community response and inter-hospital transfers.</p> <p>Members RESOLVED to:</p> <ul style="list-style-type: none"> • NOTE the content of the report and the progress made by both Task and Finish Groups • NOTE the impact of deteriorating performance and the resulting challenges in commissioning the provision of safe, effective and timely emergency ambulance services, including the recent issuing of a regulation 28. • NOTE that Quality and Safety Reports relating to commissioned services would be received at all future meetings. 	<p>EASCT</p>
<p>EASC 22/121</p>	<p>EMERGENCY MEDICAL RETRIEVAL AND TRANSFER SERVICE (EMRTS CYMRU) AND WALES AIR AMBULANCE CHARITY SERVICE DEVELOPMENT PROPOSAL</p> <p>The Service Development Proposal report was received. In introducing the report, Ross Whitehead, provided Members with background information and an introduction to the proposal developed by the Emergency Medical Retrieval and Transfer Service (EMRTS Cymru) and the Wales Air Ambulance Charity Trust.</p> <p>Members noted that the proposal had been received and discussed at the EMRTS Delivery Assurance Group held on 1 November 2022 and further work and scrutiny had been requested, including in relation to weather, modelling and resource requirements.</p> <p>Members noted that the proposal had been developed following internal service analysis undertaken by the EMRT service (the Charity had carried out a Strategic Review), with key findings indicating under-utilisation of assets and confirming unmet need (geographic, overnight and hours of darkness).</p>	

The analysis and modelling indicated the opportunity for extended hours of operation and also included changes to base locations. The proposal suggested that by optimizing the operational configuration the service could:

- potentially attend an additional 583 patients and
- achieve 88% of the total demand compared with the existing model that meets 72% (within the same resource envelope).

Members were aware there had been significant public and political concerns raised around the development of the proposal, particularly in relation to the potential closure of air bases. This has resulted in challenges for both the Charity and EMRTS and there had also been an impact on individual health boards.

Additional challenges were recognised in relation to the Charity including its need to renew aviation contracts and the associated commercial negotiations, both of which could be impacted by the timeliness of the work required to assess the proposal.

The proposal outlined the level of unmet need that exists for the all Wales Service and the Committee would need to understand, and evaluate this, either through the adoption of this proposal or through further work.

Professor David Lockey, EMRTS National Director thanked members for considering the proposal. He noted that it built upon service developments already undertaken by the service since its establishment in 2015, including an increase in the number of air bases, commencement of night operations, the introduction of the Adult Critical Care Service (ACCTS) in both North and South Wales and the work linked to the Major Trauma network.

Prof Lockey also referred to the Strategic Review undertaken by the Charity. Sue Barnes, Chief Executive of the Charity, outlined the process undertaken by the Charity working with EMRTS to understand what further opportunities could be realized. This included alignment with the opportunity afforded by the Charity's required long-term aircraft procurement process with renewal due at the end of 2023.

Members recognised that the EASC Team had not had the opportunity to undertake appropriate due diligence and scrutiny of the proposal ahead of presenting it and making recommendations to Members. However, in view of the public interest it was felt that it was appropriate to receive the proposal at the meeting.

Ross Whitehead explained that there could be an impact on the capacity of the EASC team to support the process of scrutiny and engagement on this proposal, whilst also maintaining business as usual in terms of the commissioning arrangements for all EASC commissioned services. It was agreed that the Committee might need to consider providing temporary additional support once the likely impact has been fully considered.

Stephen Harray, the Chief Ambulance Services Commissioner summarised some of the key issues that had been raised and noted by the EASC Team during the activities already undertaken with stakeholders and the comments and questions received to date. These included:

- clarifying the position regarding resource implications
- responding to the significant comments raised and views regarding the importance of response times
- understanding how the air and road response model works, recognizing that for urban and rural areas it would be different
- further work required regarding the impact of weather
- consideration of the data reference period to ensure that this is appropriate and not unintentionally biased
- understanding any seasonal variation
- improving the understanding of the options available, including to consider whether changing bases is necessary, identifying further options and understanding why options have been discounted
- working with health board colleagues to consider the modelling undertaken.

Members agreed with the proposed approach for additional scrutiny, including the need to develop a streamlined and simplified proposal and to better understand the options identified. Members felt it would benefit health boards to better understand the data and modelling already undertaken and supported utilising the data analysis tool that was being developed to identify the impact on local communities. It was felt that this approach would ensure that the benefits and risks of each option could be fully understood and appraised including the implications relating to key elements such as air and road response, equity of access for the population and resource effectiveness.

Members stressed the need for an open and robust engagement process, in line with the direction provided by the Community Health Councils in Wales and questioned whether the January decision timeline was feasible, considering the need for the development and agreement of suitable engagement material, agreeing the equality impact assessment and the requirements for a mid-process review.

	<p>The CASC agreed that there were a number of phases to be undertaken and that there was a need to be transparent and realistic, to ensure the correct process was undertaken and that timelines would need to be revisited. In addition to the initial phase of due diligence and scrutiny already discussed, it was also noted that Community Health Councils had recommended that a meaningful and comprehensive public engagement process should be undertaken for at least 8 weeks, this engagement phase would need to be incorporated in to the timeline. The CASC assured Members that the EASC Team would now work closely with the EMRTS and the Charity to scrutinise the detail in the proposal. Discussions would also need to take place with health board communication, engagement and service change leads to ensure a robust process.</p> <p>It was recognised that there were many elements to focus on before an update could be provided and next steps agreed at the scheduled EASC session on 6 December.</p> <p>After discussion Members RESOLVED to:</p> <ul style="list-style-type: none"> • NOTE the content of the EMRTS Cymru and Wales Air Ambulance Charity Service Development Proposal and appendices • AGREE the next steps for additional scrutiny by the EASC Team and the development of a simplified proposal, including suitable engagement materials to meet the requirements of the Community Health Councils in respect of the proposal • NOTE the key risks and any mitigations the Committee need to be put in place. 	<p>EASCT</p> <p>EASCT</p>
<p>EASC 22/122</p>	<p>PROGRESS REPORT ON THE PLAN IN RELATION TO THE EMERGENCY MEDICAL RETRIEVAL AND TRANSFER SERVICE EMRTS CYMRU AND WALES AIR AMBULANCE CHARITY SERVICE DEVELOPMENT PROPOSAL</p> <p>The progress report on the plan in relation to the EMRTS Cymru and Wales Air Ambulance Charity Service Development Proposal was received. Ross Whitehead presented an update on the activity that had taken place following the request made by Members at the EASC meeting in September and included the:</p> <ul style="list-style-type: none"> • Activities already undertaken with stakeholders • Comments and questions received to date • Draft Communications and Engagement Plan • Draft Project Plan • Initial Equality Impact Assessment. 	

<p>Members noted that the CASC was continuing to work with Community Health Councils in Wales and was receiving advice and recommendations for the engagement process required. It was confirmed that discussions with health board and CHC colleagues would continue to take place to agree what would be engaged upon, including the required engagement materials and to further develop the communications and engagement plan.</p> <p>Following the briefing note issued on 14 October, a second briefing note would be prepared to update stakeholders with regards discussions held at today’s meeting and the next steps would be clarified. In addition, the comments and questions received to date would continue to be collated via the online facility on the dedicated page on the EASC website; an important part of the scrutiny process to lead to the engagement phase.</p> <p>In line with discussions held, the timeline would be reassessed and reconsidered in readiness for an update to be provided at the EASC meeting on 6 December. Members noted the importance of mitigating any impact on the Wales Air Ambulance Charity in the next phase of the work.</p> <p>In light of the previous agenda item and discussions held relating to the detailed proposal received and the need to undertake appropriate due diligence and scrutiny ahead of a process of engagement, the final recommendation relating to commencement of the formal engagement process was withdrawn.</p> <p>Members RESOLVED to:</p> <ul style="list-style-type: none"> • NOTE the structured approach adopted since the Committee meeting held 6 September • NOTE the activities already undertaken with stakeholders both face-to-face and online • NOTE the discussions held with CHCs, attendance at CHC meetings as requested by them and completion of the CHC ‘Joint Services, Planning & Change Committee Service Change Pro forma’ • NOTE the record of activities undertaken to date • NOTE the key themes arising from the questions, comments and letters received by stakeholders • NOTE the Briefing Note sent to stakeholders on 14 October • NOTE the development of a dedicated page on the EASC website • NOTE the draft Communications and Engagement Plan developed to date and a further document would be developed for engagement with the public based on a simplified proposal to be developed • NOTE the draft project plan included for comment • NOTE the Initial Equality Impact Assessment. 	<p>EASCT</p> <p>EASCT</p>
---	---------------------------

<p>EASC 22/123</p>	<p>WELSH AMBULANCE SERVICES NHS TRUST (WAST) UPDATE</p>	
	<p>The Welsh Ambulance Services NHS Trust update report was received. In presenting the report, Jason Killens highlighted the following areas:</p> <ul style="list-style-type: none"> • Point 2.5 - challenging red performance in September 2022 • Point 2.8 - almost 900 patients waiting more than 12 hours • Points 2.16 & 2.17 following temporary cessation of clinical indicator reporting relating to transition to the electronic patient clinical record (ePCR) new data was now available for stroke, fractured neck of femur, hypoglycaemia and ST elevation myocardial infarction (STEMI). Deep dive audits had been completed for these clinical indicators and the return of spontaneous circulation (ROSC) (at hospital door) deep dive audit was ongoing with this clinical indicator scheduled to be published over the coming months • Point 2.21 – increase in red demand • Point 2.21 – ambulance production was encouraging with unit hour production at 96% in September against the benchmark of 95% • Point 2.21 – improvements in sickness aligned to IMTP trend • Point 2.21 – highest ever handover lost hours at 28,500 hours, equating to over 30% of WAST conveying capacity • A verbal update was provided regarding NEPTS and the letting of new contracts as a result of the all-Wales business case with the new providers recently notified of the outcome of the tendering process. <p>It was agreed that the additionality diagram at the bottom of page 12 was useful, that it is a complicated picture and that it would now be sensible to build an improvement trajectory and to understand the likely impact of all interventions.</p> <p>The Chair summarised including to:</p> <ul style="list-style-type: none"> • Note the positive impact in relation to additional capacity and unit hour production, however it was noted that this was not sufficient to counter the losses across the system as noted above • Welcome the progress made re the electronic patient clinical record and the next steps in terms of data linkages • Note the update in terms of NEPTS procurement, resulting efficiencies and the focus on service quality. <p>Members RESOLVED to:</p> <ul style="list-style-type: none"> • DISCUSS and NOTE the WAST Provider Report 	<p>WAST</p> <p>WAST</p>

<p>EASC 22/124</p>	<p>CHIEF AMBULANCE SERVICES COMMISSIONER’S (CASC) REPORT</p> <p>The Chief Ambulance Services Commissioner’s report was received. Stephen Harray presented the report and highlighted the following:</p> <ul style="list-style-type: none"> • Progress on the recruitment of the additional 100 front line staff at WAST • Ongoing work with Heads of Midwifery in health boards and the particular impact of delayed ambulance response on obstetric emergencies. Work was underway to find out what could be achieved and an urgent temporary position was being sought. <p>Members RESOLVED to: NOTE the report.</p>	
<p>EASC 22/125</p>	<p>EASC COMMISSIONING UPDATE</p> <p>The EASC Commissioning Update was received. Matthew Edwards presented the report and Members noted that it provided an overview of the progress being made against the key elements of the collaborative commissioning approach.</p> <p>Members noted the many discussions in relation to the commissioning framework for emergency ambulance services over recent months at EASC Committee, EASC Management Group and other related fora. These discussions have resulted in a collaborative approach to transition and transformation through the development of local integrated commissioning action plans (ICAPs).</p> <p>The commissioning framework was included as a ‘focus on’ item at a previous meeting of the EASC Management Group and discussions have more recently taken place with all health boards. Work is being undertaken throughout November to use handover improvement plans to populate ICAPs. Health boards are asked to commit to sending appropriate representation to these meetings.</p> <p>The update also stated that there would be a focus on aligning actions within the ICAPs to the Six Goals for Urgent and Emergency Care Programme.</p> <p>In addition to the update on the commissioning framework, the update also included a Quarter 2 update against the EASC integrated Medium Term Plan and the agreed EASC Commissioning Intentions for 2022-23, with detailed updates appended.</p>	

	<p>Members RESOLVED to:</p> <ul style="list-style-type: none"> • NOTE the collaborative commissioning approach • NOTE the progress made in terms of developing the EMS Commissioning Framework, including the development of the local Integrated Commissioning Action Plans • NOTE the progress made against the EASC IMTP in Quarter 2 as set out in the update provided • NOTE the Quarter 2 update against the commissioning intentions for each of the commissioned services. 	
<p>EASC 22/126</p>	<p>FINANCE REPORT MONTH 6</p> <p>The Month 6 Finance Report was received. The purpose of the report was to set out the estimated financial position for EASC for the 6th month of 2022/23 together with any corrective action required.</p> <p>A forecasted break-even position was reported.</p> <p>In light of the significant financial pressure within the system, it was agreed that there is a need for robust financial planning. It was reported that the financial assumptions are in line with the assumptions made by health boards and that there is a need to demonstrate the best use of existing commissioning allocations.</p> <p>Further discussions would be held to ensure alignment with the IMTP process.</p> <p>Members RESOLVED to: NOTE the report.</p>	
<p>EASC 22/127</p>	<p>EASC SUB-GROUPS CONFIRMED MINUTES</p> <p>The confirmed minutes from the following EASC sub-groups were received:</p> <ul style="list-style-type: none"> • Chair’s Summary EASC Management Group – 20 October 2022 – Members noted that the meeting was not quorate and agreed to consider how their organisation would be represented at future meetings. • EASC Management Group – 18 August 2022 • NEPTS Delivery Assurance Group – 4 August 2022 • EMRTS Delivery Assurance Group – 7 June 2022 <p>Members RESOLVED to: APPROVE the confirmed minutes.</p>	
<p>EASC 22/128</p>	<p>EASC GOVERNANCE</p> <p>The report on EASC Governance was received. Gwenan Roberts, Committee Secretary presented the report and highlighted a number of items for approval, including:</p>	

	<ul style="list-style-type: none"> • The EASC Risk Register presented to each meeting of the EASC Committee, EASC Management Group and received for assurance at the CTM UHB Audit and Risk Committee (as the host organisation) • The 3 red risks within the EASC Risk Register relating to key items already discussed at the meeting • EASC Assurance Framework report, it was noted that this was in same style as the host body’s assurance framework (CTMUHB) • The EASC Standing Orders would be reviewed prior to the next meeting in line with arrangements by the Welsh Health Specialised Services Committee and would tie into the review of the WHSSC / EASC Standing Financial Instructions • The list of key organisational contacts was noted. <p>Members RESOLVED to:</p> <ul style="list-style-type: none"> • APPROVE the risk register • APPROVE the EASC Assurance Framework • NOTE the EASC Standing Orders would be reviewed prior to the next meeting • NOTE the information within the EASC Key Organisational Contacts. 	
EASC 22/129	<p>FORWARD LOOK AND ANNUAL BUSINESS PLAN</p> <p>The Forward Look and Annual Business Plan was received. The Chair asked Members to forward any suggestions for future ‘Focus on’ sessions.</p> <p>Members RESOLVED to: NOTE the report.</p>	
Part 3. OTHER MATTERS		ACTION
EASC 22/130	<p>ANY OTHER BUSINESS</p> <p>The Chair closed the meeting by thanking Members for their contribution to the discussions.</p>	
DATE AND TIME OF NEXT MEETING		
EASC 22/131	<p>The next scheduled meeting of the Joint Committee would be held at 13:30 hrs, on Tuesday 6 December 2022 at the Welsh Health Specialised Services Committee (WHSSC), Unit G1, The Willowford, Main Ave, Treforest Industrial Estate, Pontypridd CF37 5YL but likely to be held virtually on the Microsoft Teams platform.</p>	Committee Secretary

Signed
Christopher Turner (Chair)

Summary of key matters including achievements and progress considered by the Committee and any related decisions made.

An electronic link to the papers considered by the EAS Joint Committee is provided via the following link:

<https://easc.nhs.wales/the-committee/meetings-and-papers/december-2022/>

The minutes of the EASC meeting held on 8 November were approved.

PERFORMANCE REPORT

In presenting the report, Stephen Harray gave an update on the current emergency ambulance performance and an overview of the range of actions and processes that had or would be implemented to support performance improvement. The report also presented information in line with the most recent publication(s) of the Ambulance Service Indicators.

NOTED that:

- the report presented a picture of a system that was under severe and sustained pressure. It was reported that ambulance performance was well below levels that the Committee would want delivered and the actions being taken to improve performance were included within the report. Members were reminded that a proposal had previously been approved by Committee to alter a number of dispatch codes and that the likely consequence was that an increase the number of red calls would be received. It was noted that the service had started to see this impact
- the current position with record numbers of handover delays at hospital sites across Wales. Most members had been present at the recent **Ministerial Summit that took place on 28 November**, with the aim of discussing ongoing concerns around ambulance handover delays that were causing harm to patients. It was noted that the Minister for Health and Social Services opened the Summit by outlining her concerns around handover delays and reminded those in attendance of their organisational commitments to reducing delays.
 - Examples of improvements were shared by Walsall Healthcare NHS Trust, with key messages in relation to the organisational ownership of patients from the time they call 999 and take leadership for their care within the organisation. In addition, Cardiff and Vale University Health Board shared their experience of improving handover delays, following a focus on the 4-hour red line and further work was planned to further reduce delays.

Each health board provided an update on their handover improvement plans and commitments at the Summit

AGREED that:

the presentation by Walsall NHS Trust provided a helpful focus on areas of learning. It was proposed that further contact would be facilitated via the Chief Ambulance Services Commissioner rather than through a number of separate discussions and that this would be in line with the work in Goal 4 of the Six Goals for Urgent and Emergency Care Programme

NOTED that:

- **Fortnightly handover improvement plan meetings** continued to be helpful and constructive and ensured specific consideration of the agreed trajectories
- **Conveyance rates were reducing**, this impact must be considered in light of a reduction in attendance in response to escalation decisions; also that this reflected the increasing role of 'hear and treat' and the impact of recent investment in both staff and technology within the clinical support desk. Close relationships with NHS Wales 111 were also felt to be an important factor in reducing conveyance
- The '**hear and treat**' efficiency target of 10.2% of daily volume and that the Welsh Ambulance Services NHS Trust (WAST) had set an internal target of 15% by the end of the calendar year, it was reported that 16% had been reported on some days. The impact of new video technology and staff use of the ECNS (Emergency Nurse Communication System) to support decision-making
- **The level of risk and harm to patients across the system was widely recognised and the additional need to protect ambulance resources out of area, particularly for rural areas at a distance from emergency departments**
- Actions making a significant impact across the system included use of alternative pathways and services other than conveyance to emergency departments where appropriate to do so, a focus on the effective use of falls services and strengthened liaison between health boards and WAST to ensure effective communication, handover and release, particularly against the four-hour trajectory
- Work continued in partnership with local authorities to increase community care capacity with in excess of 450 bed/bed equivalents extra reported to date. Members were in agreement that this was significant, however, this would not solve the problems across the system with further work required on longer term provision, including additional care packages and support for people leaving hospital.

The Chair summarised and noted the key messages of the Minister for Health and Social Services in her closing remarks including the need for organisational commitment to the agreed actions, a focus on fewer key actions and the sharing of the key actions already having an effect.

Members **RESOLVED** to:

- **NOTE** the Ambulance Services Indicators
- **NOTE** additional actions that the Committee could take to improve performance delivery of commissioned services
- **NOTE** the handover improvement Ministerial summit discussion and the specific requirements of organisations.

UPDATE ON PROGRESS RELATED TO THE SERVICE DEVELOPMENT PROPOSAL EMERGENCY MEDICAL RETRIEVAL AND TRANSFER SERVICE (EMRTS CYMRU) AND WALES AIR AMBULANCE CHARITY

The report provided Members with an overview of the progress made since the Committee meeting on 8 November 2022. At that meeting, the EASC Team was asked to progress on:

- clarifying the position regarding resource implications
- responding to the significant comments raised and views regarding the importance of response times
- understanding how the air and road response model works, recognizing that for urban and rural areas it would be different
- further work required regarding the impact of weather
- consideration of the data reference period to ensure that this is appropriate and not unintentionally biased
- understanding any seasonal variation
- improving the understanding of the options available, including to consider whether changing bases is necessary, identifying further options and understanding why options have been discounted
- working with health board colleagues to consider the modelling undertaken.

NOTED that:

- Given the above requirements and the challenges raised by Committee members and stakeholders and in order to avoid protracted discussions over the process, content and transparency of the original proposal, the EASC Team had undertaken to start the process of undertaking this analysis afresh.
- the scrutiny in key areas would continue. The report focused on a description of the current service provision and the historical activity that had been delivered, including an overview of four specific areas related to base activity, these were:
 - Geographical coverage
 - Rapid Response Vehicle Usage (RRV)
 - Utilisation
 - Unmet need.
- there were potential opportunities for service improvement to be explored. The utilisation of all resources was included and, as an example to amplify this issue, both Caernarfon and Welshpool bases were reported as having lower levels of utilisation than the bases in Dafen and Cardiff. It was understood that an element of this would be related to the rural position and lower population density in these areas but options to provide equitable services should be explored
- when combined with unmet need, this would demonstrate that the EMRT service could potentially do more within its existing resource if changes were implemented to increase utilisation and reduce unmet need.

AGREED that:

- there was a need to explore and maximise the additional activity that could be achieved from existing bases and also to explore how any options to reconfigure the service could reduce the number of patients who require a critical care response from EMRTS but currently do not receive one (unmet need).

NOTED that

- modelling and modelling outputs would be part of a robust evaluation process, not used as a sole determinant
- as per the request at the last meeting, activity data from 2022 and weather probability information had been integrated into the preparation for the modelling, and this in turn would support further scenario modelling
- outputs of modelling would be determined by the assumptions that would be placed upon the modelling scenarios and, in order to do this, an understanding of the constraints that should be applied to any development process would be required
- noted that the report EMRTS 24/7 Service Expansion Review (received at the EASC meeting on 13 November 2018) provided the constraints that were adopted as part of the work and it was suggested that a similar a set of constraints would be appropriate and helpful for this current review
- the investment objectives that were used as part of the original case for the establishment of the 24-hour EMRTS service and the weighting that was applied to these objectives to inform the decision-making process for the 24/7 expansion review. The investment objectives were:
 - Health Gain
 - Affordability
 - Clinical Skills and Sustainability
 - Equity
 - Value for Money.

The Committee was asked to consider that the initial engagement process with the public, individual health boards and the Wales Air Ambulance Charity Trust should explore the appropriateness of the constraints, investment objectives and weighting presented, as part of a robust option appraisal process to inform discussion once further modelling and analysis was complete.

Stephen Harray gave an overview of the engagement activity that had been undertaken by the EASC Team since the last EASC meeting which included:

- Activities undertaken with many stakeholders both face to face and virtually
- Ongoing collation of, and responses to, over 60 stakeholder comments and questions
- Circulation of the latest stakeholder Briefing Note 2
- Updates to Community Health Councils (CHCs) and confirmation of the agreed key principles of engagement
- Fortnightly meetings with health board engagement, communication and service change leads.

The report proposed that the EASC Team would need to work closely with health board engagement, communication and service change leads and with Community Health Council (CHCs) colleagues in the development and agreement of appropriate engagement materials including the engagement document and the stakeholder engagement timetable.

It was proposed that the formal public engagement process could commence in early January, subject to agreement of engagement materials by health boards and CHCs.

The proposed engagement would include two phases, these were:

Phase 1:

- Explain how the current service works
- Test the constraints, investment objectives and weightings

Six-Week Review

- Agree options to be modelled

Phase 2:

- Undertake the modelling and use to inform a robust option appraisal process
- Make a recommendation to EASC Members.

Members discussed:

- The importance of utilisation of resources and the need for a balance in terms of availability of resources against the efficiency and effectiveness of service delivery (not over or underutilised)
- The need to explore reasonable utilisation levels considering population densities, urban vs rural locations etc
- EMRTS as a national service, not covering a geographical area like road-based ambulances
- The need to understand the current co-ordination and deployment process
- The need to review operating hours when looking at options to maximise additional activity that could be achieved from existing bases and the options to reconfigure
- The impact of the announcement of the preferred bidder for the new aircraft contract; it was confirmed that this process had been ongoing for sixteen months and that the only agreement in place was for four aircraft plus the back-up capability. Members noted that there had been no pre-determination on the number of or location of bases, this was pending the outcome of the EASC processes (engagement)
- The need for a range of engagement material, including the need for them to be bilingual and easy to understand
- the need to develop an effective engagement approach that asked the right questions and reached as many people as possible. It was agreed that this would need to be a collaborative effort with health boards and CHC colleagues and that local leads would be able to inform this, e.g. the positive Powys experience utilising drop-in sessions was noted
- The two phases of engagement proposed, including the review at six-weeks; Members supported this approach
- Questions had been raised by Swansea Bay University Health Board ahead of the meeting asking for additional clarification on the engagement process, the work with health boards and the community health councils and the need for Equality Impact Assessments
- The need for a pragmatic approach in terms of signing off the engagement materials, involving Engagement or Service Change Leads working with Board Secretaries. Members noted Gwenan Roberts would be the point of contact from the EASC Team
- Formal public engagement could commence 9 January if the required agreed documents were in place
- Consideration be given regarding short term support for the EASC Team.

The Chair confirmed that he would ensure the required assurance was in place ahead of undertaking Chair's Action (on behalf of the Committee) to commence the formal engagement process.

Members resolved to:

- **NOTE** the high-level overview provided and the variation in service delivery from the existing bases
- **AGREE** that the issues highlighted by this paper require further exploration and options appraisal process to deliver improvements
- **APPROVE** the service development constraints to be engaged upon
- **APPROVE** the EMRTS key investment objectives and weightings to be engaged upon
- **APPROVE** the commencement of a formal public engagement process as agreed
- **APPROVE** the use of the agreed constraints to inform subsequent modelling and development of options
- **APPROVE** the use of agreed EMRTS key investment objectives and weightings in the options appraisal process
- **APPROVE** Chair's action to commence the formal engagement process when documentation agreed.

Key risks and issues/matters of concern and any mitigating actions

- Red and amber performance
- Handover delays (and the development of handover improvement plans in HBs with trajectories) and the impact on WAST
- Structured approach relating to the engagement process for the EMRTS Service Review.

Matters requiring Board level consideration

- To acknowledge the significant risks for patients in relation to handover delays and the need for health boards to implement the local handover improvement plans and identified trajectories) for every emergency department against the 25% reduction on the minutes lost per arrival and no handover delays over 4 hours
- Opportunity for health boards to take part in the public engagement process related to the potential changes to EMRTS Cymru working in partnership with the Wales Air Ambulance Charity.

Forward Work Programme

Considered and agreed by the Committee.

WTE	Whole Time Equivalent (staff)
EMB	Executive Management Board
COSC	Clinical Oncology Sub-Committee
IPC	Infection Prevention Control
RCC	Rutherford Cancer Centre

1. SITUATION/BACKGROUND

The attached Trust performance reports provide an update to the Quality, Safety and Performance Committee with respect to Trust-wide performance against key performance metrics through to the end of November 2022 for the Velindre Cancer Centre, the Welsh Blood Service and for VUNHST Corporate Services respectively.

2. ASSESSMENT / SUMMARY OF MATTERS FOR CONSIDERATION

The reports set-out performance at Velindre Cancer Centre (**appendix 1**), the Welsh Blood Service (**appendix 2**) and the Workforce (**appendix 3**). Each report is prefaced by an '*at a glance*' section which is intended to draw attention to key areas of performance. A number of areas from the reports are highlighted below.

2.1 Velindre Cancer Centre:

Due to the implementation of the new digital patient system DHCR, there is a requirement to fully remap and rebuild the extraction of data from this system into our data warehouse and rebuild all of the reports. This is a known and planned stage of the replacements of such systems and has previously been highlighted in relation to the DHCR programme. This extensive work programme is still ongoing and being delivered according to the delivery plan. The impact of this is mainly for the radiotherapy treatment times and outpatient attendances that this system provides. The data system work is due to be completed in late January/early February and will then be operationally validated. This will then enable the retrospective data for November, December and January to be compiled for review. Data will be shared as it becomes available.

VCC continues to experience challenge in providing capacity to meet the overall demand for services within SACT and Radiotherapy, with referrals increasing as health boards undertake additional activity to address their longest waiting patients. There continues to be variation in demand and tumour sites.

Regular operational meetings continue to take place between VCC and the local Health Boards, which help to provide a more detailed picture of the expected number of referrals to VCC from Health Boards and changes to specialist teams and practice that are likely to impact on demand for services from VCC. There are planned activities in Health Boards to significantly reduce their waiting lists which will have a likely impact upon VCC services through quarter 4 of 2022-23. There is detailed analysis of the Health Board data to ensure this is fed into the VCC demand data to allow services to plan for the likely surge.

Alongside better intelligence on demand to support planning, there is a comprehensive programme of work supported by activity plans to maximise efficiency and productivity to

demonstrate the most effective use of resources. However, it should be noted that variation in referral patterns occurring continues to be a challenge as health boards undertake focused activity within specific specialist areas.

Whilst the forecast increase in referrals to SACT and RT of 12% and 8% respectively has yet to be seen, information from within individual health board cancer trackers suggests that this level of increase in referrals is still potentially to be realised by 31st March 2023.

A number of immediate actions have been implemented as part of the ongoing capacity task force groups established in radiotherapy and SACT. The improvement programmes have led to an ongoing improvement in waiting times in both radiotherapy and SACT.

2.1.2 Radiotherapy Waiting Times

As explained above, due to the implementation of DH & CR in the cancer centre, we are unable to report the November waiting times position yet as the reports are still being written which could not be done in advance of the implementation. We are expecting to report at the end of February when we will report November's position alongside December.

A gradual increase in LINAC capacity has been underway to increase the number of planned hours, which is being supported through a temporary increase in staffing hours and reallocation of roles. This has helped support the improving position.

In addition, a change in software has increased the number of Linacs on which breast patients may be receive treatment, which has resulted in increased flexibility to manage these patients.

Work is also being undertaken through a taskforce to understand principal reported causes for delays and breaches. Three main areas have been identified: delays in planning for those patients waiting for radial RT, requirement for 3D conformal Plans for palliative radiotherapy patients, change of intent and transport times.

There will now be some focused work to address these issues, which include:

- Implementation of holistic pathway improvement project, which will require a more granular analysis of the breaches to determine a way forward.
- Complex palliative treatments will be re-categorised as 'scheduled' (January 2023) in conjunction with new COSC guidelines and clinical leads.
- Work with WAST on revised transport arrangements and a clear action in relation to transport times for radiotherapy patients.

Attendances show significantly less than 2019/20 baseline. However, this is as a result of change in the management of patients i.e. introduction of hyperfractionation.

Challenges in radiotherapy remain aligned to the fragility of the equipment associated with its age, resulting in a greater risk of breakdown, as we increase usage and capacity issues in brachytherapy and medical physics as a result of staffing issues

2.1.3 SACT Waiting Times

Performance against the non-emergency time-to-treatment target has continued to improve and has resulted in full compliance with waiting times targets in November. Breach numbers have also reduced from 14 in October to 6 in November. The 6 patients who breached were all treated within 28 days, which is also a considerable improvement from recent months. We are continuing to monitor delivery against demand.

Other areas

2.1.4 Falls

During November 2022, there were 4 Velindre falls on first floor ward. All falls were discussed at the Scrutiny Panel and two were deemed avoidable. Appropriate actions have been identified.

2.1.5 Pressure Ulcers

During November 2022, there was 1 Velindre acquired pressure ulcer on first floor ward. This was deemed as unavoidable by the Scrutiny Panel and all learning and actions to reduce the risk of pressure ulcers occurring was undertaken.

2.1.6 Healthcare Acquired Infections

No Healthcare Acquired Infections (HAIs) were reported in November 2022.

2.1.7 SEPSIS bundle NEWS score

6 patients met the criteria for response to sepsis and all 6 received antibiotics within 1 hour where appropriate = 100% compliance.

5 of the 6 patients went on to receive a diagnosis of sepsis and all 5 patients received all 6 elements of the SEPSIS bundle within 1 hour = 100% compliance.

2.1.8 Delayed Transfers of Care (DTCOC's)

There was 1 delayed transfers of care reported in November 2022. The delay was due to lack of bed availability at the District General Hospital.

Further detailed performance data is provided in Appendix 1

2.2 Welsh Blood Service

Demand for red blood cells averaged at 1371 units per week, and all clinical demand was met in November placing the service in good and stable position. During November the red cell stock holding did not drop below 3 days for priority blood groups, and stock levels were satisfactory across all groups. Due to this, the service was in a position to export 120 units to Northern Ireland. The role of the daily Demand Planning Group meeting, which includes representatives from all departments supporting the supply chain, has been critical to steering the service through extremely challenging times.

2.2.1 Quality

At 96% quality incident investigations completed continues to exceed the target of 90% closed within 30 days. There were no critical or major non-conformances recorded from audits in November, no adverse event reports submitted to the MHRA and no adverse event reports were submitted to the HTA. In addition, no Serious Hazards of Transfusion (SHOT) incidents were reported during the month.

At 96% donor satisfaction continues to remain above target.

In November 2022, 7,904 donors were registered at donation clinics with 8 concerns (0.1%) reported within this period. The one formal concern recorded in November is expected to be completed before the 30 day target of 05/01/23, whilst the remaining concerns were managed as 'early resolution' within the required timescales.

2.2.2 Recruitment of new Bone Marrow Volunteers

In November, 315 new donors were recruited to the Welsh Bone Marrow Donor Registry (WBMDR) against a target of 333, the highest number recruited this year. The Recovery Plan continues to focus on recruitment of donors at schools, colleges and universities, and in November ensured that a 'Bone Marrow Champion' was present at every school, college and university blood collection session. The service continues to work proactively to understand the optimum programme for recruitment of donors via buccal swab, including utilising digital solutions to improve ways of generating an increase in numbers.

The total stem cells collected in November was 1 (1 collection was cancelled during November for patient reasons). The total stem cell provision for the service was 6 (1 collected and 5 imported for Welsh patients). The WBMDR five year strategy, re-

appraising the existing collection model and its ambition, is in development and will be informed by the assessment of the Recovery Plan for Bone Marrow Volunteer recruitment.

2.2.3 Part Bags & Failed Venepuncture

Performance for both % part bags and failed venepuncture are within tolerance, however, there is an upward trend in monthly figures that is currently being explored.

2.2.4 Collection Efficiency

Collection efficiency performance failed to meet target in November. This drop in performance is a short-term consequence of managing low hospital demand. The number of donor slots was reduced to avoid over collection, however the time was utilised to support staff to complete mandatory training and PADR's.

2.2.5 Reference Serology

Reference Serology turnaround performance failed to meet the 80% target in November at 65%. Recent performance is due to continued staff absences, high levels of testing requests and planned annual leave. An additional Band 6 Specialist Biomedical Scientist resource to increase complex testing is being recruited. Validation the new automated analyser has been completed and this will start to support an improvement in performance. Further validation of red cell phenotyping is expected to be completed by the end of January 2023 further improving efficiency.

2.2.6 Time Expired Platelets

All clinical demand for platelets was met averaging 161 units per week, representing a strong performance against this metric in November. However, platelet wastage is still above target at 15%. Creation of a forecasting tool to inform decisions around pooled platelet manufacture will support a reduction in this figure. This is due to be completed in quarter 4.

3 WORKFORCE

3.1 PADR (Target 85%)

Trust Wide 75.40%, increase on previous month
 WBS 84.67%, increased compared to last month
 VCC 74.90%, increased compared to last month

3.2 Sickness Absence (Target 3.54%)

Trust wide 6.23%, very slight increase on previous month
WBS 7.17%, sickness rates decreased compared to last month
VCC 6.20%, sickness decreased compared to last month.

3.3 Statutory & Mandatory Compliance (Target 85%)

Trust Wide 85.69%, above target increase on previous month.
WBS 90.96%, above target but decrease on previous month
VCC 84.92% decrease on previous month.

4.0 IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	Yes (Please see detail below)
	The current performance reporting and monitoring system is predicated upon identifying performance issues and supporting effective decision making at service and operational levels to drive forward continuous improvement in quality, safety and the overall experience of patients and donors.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability
	If more than one Healthcare Standard applies please list below: <ul style="list-style-type: none"> • Staff and Resources • Safe Care • Timely Care • Effective Care.
EQUALITY IMPACT ASSESSMENT COMPLETED	Yes
LEGAL IMPLICATIONS / IMPACT	There are no specific legal implications related to the activity outlined in this report.
FINANCIAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	Delivery against the performance metrics presented in the attached reports and the work associated with delivering improved performance supports sound financial governance across the Trust.

5.0 RECOMMENDATION

5.1 Trust Board is asked to **NOTE** the contents of the attached performance reports.

SACT Referral Trends - Overall

All SACT Referrals

Month	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar
2019/20 Actual	315	334	309	387	309	284	359	294	317	394	276	379
2020/21 Actual	242	211	300	301	275	326	311	313	309	298	330	374
2021/22 Actual	375	336	348	342	306	294	339	364	341	333	349	395
2022/23 Actual	332	366	338	330	344	392	374	385				

Another month of high referrals into the SACT service with November 2022 being the 3rd highest ever recorded.

Non-Emergency SACT Patients Treated Within 21-Days

Target: 98%

SLT Lead: Chief Pharmacist

Current Performance

Trend

Of 354 patients treated, 6 patients waited over 21 days = performance of 98%. This is the first time the performance target has been achieved since December 2021.

Intent /Days -	22-28
Non-emergency (21-day target)	6

This is the 6th month where performance has improved from the previous month, arresting a 7-month decline. Breach numbers have also reduced to 6 in November from 14 in October.

No patient waited longer than 28 days for treatment, which is also a significant improvement as we have been regularly treating patients waiting 50 days in recent months.

Intent	Monthly Average (2020-21)	Monthly Average (2021-22)	Patients Scheduled to Begin Treatment (Nov 2022)
Non - emergency		321	354
	Patients Scheduled to Begin Treatment (Nov 2020)	Patients Scheduled to Begin Treatment (Nov 2021)	
		325	

Short Term Actions

Incremental gains in pharmacy capacity are being delivered through reviews of working practices and the focus on maximising SACT provision.

Discussions with Aneurin Bevan UHB regarding the reintroduction of services at Nevill Hall Hospital (NHH) as an interim solution taking place.

Emergency SACT Patients Treated Within 5-Days

Target: 98%

SLT Lead: Chief Pharmacist

Current Performance

Trend

6 patients referred for emergency SACT treatment were scheduled to begin treatment in November 2022. All were treated in target with 100% performance.

Actions

- Continue to balance demand and ring fencing with capacity.

The number of patients scheduled to begin emergency SACT treatment in October 2022 (5) was lower than in September (9).

Intent	Monthly Average (2020-21)	Monthly Average (2021-22)	Patients Scheduled to Begin Treatment (Nov 2022)
Emergency		6	6
	Patients Scheduled to Begin Treatment (Nov 2020)	Patients Scheduled to Begin Treatment (Nov 2021)	
		6	

Outpatient 30 minute wait

Target: 100%

SLT Lead: Outpatient Manager

Current Performance

Trend

Monitoring of indicator reinstated between July and September, but remained limited as only a snapshot of clinics at particular times. Currently paused due to DHCR implementation.

Actions

Focus Groups to be established with patient involvement to define performance measures reflecting the entire patient experience at outpatients as part of the Trust wide PMF review.

Equitable and Timely Access to Services - Therapies

Target: 100%

SLT Lead: Head of Nursing

Current Performance

Percentage of Therapies Referrals (Inpatients) Seen Within 2 Working Days

OP's (urgent)

DT = 98 % (x 1 breach. The referral was received on 3/11. The patient had an appointment in clinic on 15/11 but Dietitian covering the clinic was on annual leave. Dietitians made contact with him 18/11 - hence the breach.

Actions:

Review cross cover arrangements. Small team makes cross cover a challenge.

The breach was due to annual leave. There are x2 part time locums. Recruitment has proved difficult to date and a current risk is still open regarding this.

Cover is prioritised cover on a daily basis and recruitment for the vacancies are still underway. Posts are being redesigned where appropriate.

Velindre Acquired Pressure Ulcers

Trend	Action
<p>There were 4 falls during November 2022, 2 of which were deemed avoidable after a multi-disciplinary review.</p> <p>Fall 1 –The patient was deemed at risk of falls. All relevant care plans and equipment were in place. Patient had full capacity and did not use the call bell before mobilising and fell. All post fall care completed, and no harm identified.</p> <p>Fall 2 – The patient was deemed at risk of falls. All relevant care plans and equipment were in place. Patients second fall during admission. Patient had full capacity and did not use the call bell before mobilising and fell. All post fall care completed, and no harm identified.</p> <p>Fall 3 - The patient was deemed at risk of falls due to previous falls at home. All relevant care plans and equipment were in place. The patient was admitted out of hours on the weekend. There was a missed opportunity for referral to out of hours physiotherapy which may have resulted in supply of a walking aid. This fall is therefore deemed <u>avoidable</u>. All post fall care completed, and no harm identified.</p> <p>Fall 4 - The patient was deemed at risk of falls due to confusion and agitation and required 1:1 nursing. During a busy night shift, another patient required urgent support from a number of staff. During this period the nurse undertaking the 1:1 supervision was asked to assist. The patient was asleep at the time of the decision, however the patient subsequently woke up and attempted to mobilise and fell. All post fall care completed, and no harm identified. Due to the unexpected increase in acuity on the night shift this fall was deemed <u>avoidable</u>.</p>	<p>Actions: what we are doing to improve</p> <p>Revise investigation tool.</p> <p>Feedback the outcomes of scrutiny panel back to ward staff.</p> <p>To remind staff about the services provided by physiotherapy on the weekend – this will be discussed with the staff daily during w/c 12/12/22 at the staff huddle.</p> <p>Implement a checking system to check sensor mat equipment.</p> <p>Physiotherapy to develop a referral criteria and attend ward huddles and staff meetings to discuss. This is not currently done at weekends.</p>

Delayed Transfer of Care

Target: 0

SLT Lead: Head of Nursing

Current Performance

There was 1 DTOC in November 2022.

Patient admitted 7/10/22 to FF ward and had a prolonged admission requiring physiotherapy and occupational therapy input to support discharge home and ongoing rehabilitation. Patient was referred for repatriation to local DGH 15/11/2022 for rehabilitation. There was a delay in repatriation due to lack of bed capacity at accepting DGH. A social work referral and therapies input to support discharge were ongoing during admission and the patient was safely discharged home from VCC 06/12/2022, resulting in a delay of 21 days.

Actions:

Monthly operational meetings are now in place between VCC senior team and Health Board teams. We will add DTOC to that agenda to ensure that these cases are understood by the HBs and to consider joint improvements to manage these issues.

In addition, we will join the daily patient flow meetings with HBs, WAST and Welsh Government to ensure that issues impacting on us are shared with the health community for awareness and resolution.

Patients with a NEWS Score Greater Than or Equal to Three Who Receive All 6 Elements in Required Timeframe

Target: 100%

SMT Lead: Clinical Director

Current Performance

Trend

Assessment of current performance, set out key points:

- 7 patient episodes met criteria for response to sepsis - 7 received antibiotics within 1 hour where appropriate = 100%
- In total 5 patient episodes received diagnosis of sepsis - 5 received all 6 elements within 1 hour = 100%

Actions

No improvement actions required.

Healthcare Acquired Infections (HAIs)

Welsh Blood Service Monthly Report

November 2022

Demand for red blood cells (full weeks) averaged at 1371 units per week, and all clinical demand was met in November placing the service in good and stable position. During November the red cell stock holding did not drop below 3 days for priority blood groups (O, A and B+), and stock levels were satisfactory across all groups. Due to this, the service was in a position to export 120 units to Northern Ireland. The role of the daily Demand Planning Group meeting, which includes representatives from all departments supporting the supply chain, has been critical to steering the service through extremely challenging times.

At 96% quality incident investigations completed continues to exceed the target of 90% closed within 30 days. There were no critical or major non-conformances recorded from audits in November, no adverse event reports submitted to the MHRA and no adverse event reports were submitted to the HTA. In addition, no Serious Hazards of Transfusion (SHOT) incidents were reported during the month.

At 96% donor satisfaction continues to remain above target.

In November 2022, 7,904 donors were registered at donation clinics with 8 concerns (0.1%) reported within this period. The one formal concern recorded in November is expected to be completed before the 30 day target of 05/01/23, whilst the remaining concerns were managed as 'early resolution' within the required timescales.

Performance for both % part bags and failed venepuncture are within tolerance, however there is an upward trend in monthly figures that is currently being explored.

Collection efficiency performance failed to meet target in November. This drop in performance is a short term consequence of managing low hospital demand. The number of donor slots was reduced to avoid over collection, however the time was utilised to support staff to complete mandatory training and PADR's.

At 96% the turnaround time for routine Antenatal tests in November remains above the target of 90%, however, Reference Serology turnaround performance failed to meet the 80% target in November at 65%. Recent performance is due to continued staff absences, high levels of testing requests and planned annual leave. An additional Band 6 Specialist Biomedical Scientist resource to increase complex testing is being recruited. Validation of the new automated analyser has been completed and this will start to support an improvement in performance. Further validation of red cell phenotyping equipment is expected to be completed by the end of January 2023 further improving efficiency.

All clinical demand for platelets was met averaging 161 units per week, representing a strong performance against this metric in November. However, platelet wastage is still above target at 15%. Creation of a forecasting tool to inform decisions around pooled platelet manufacture will support a reduction in this figure. This is due to be completed in quarter 4.

In November, 315 new donors were recruited to the Welsh Bone Marrow Donor Registry (WBMDR) against a target of 333, the highest number recruited this year. The Recovery Plan continues to focus on recruitment of donors at schools, colleges and universities, and in November ensured that a 'Bone Marrow Champion' was present at every school, college and university blood collection session. The service continues to work proactively to understand the optimum programme for recruitment of donors via buccal swab, including utilising digital solutions to improve ways of generating an increase in numbers.

The total stem cells collected in November was 1 (1 collection was cancelled during November for patient reasons). The total stem cell provision for the service was 6 (1 collected and 5 imported for Welsh patients). The WBMDR five year strategy, re-appraising the existing collection model and its ambition, is in development and will be informed by the assessment of the Recovery Plan for Bone Marrow Volunteer recruitment.

Reference Table

Measure	Target	Timeframe	National / Local
Number of new bone marrow donors aged 18-30 recruited to the Welsh Bone Marrow Donor Registry (WBMDR)	4,000	Annual	Local
Number of days when the Red Blood Cell (RBC) stockholding for O, A & B - fell below 3 days cover	0 days	Monthly	Local
Number of bags of RBCs manufactured as a % of the number of issues to hospitals (% Red Cell Demand Met)	100%	Monthly	Local
Number of bags of platelets manufactured as a % of the number of issues to hospitals (% Platelet Demand Met)	100%	Monthly	Local
Number of Confirmatory Tests (CTs) requested and bled as a % of the total CTs requested (Confirmatory Tests Bled)	65%	Monthly	Local
Number of Stem Cell Collections	80	Annual	Local
Number of antenatal patient results provided to customer hospitals within 3 working days from receipt of sample (Antenatal Turnaround Times)	90%	Monthly	Local
Number of samples referred for red cell reference serology work ups provided to customer hospitals within 2 working days. (Reference Serology Turnaround Times)	80%	Monthly	Local
% of Quality Incident Records (recorded in DATIX), closed within 30 days over a rolling 3 month period	90%	Rolling	Local
Number of critical non-conformances through external audits or inspections	0	Annual	Local
Number of Serious Adverse Blood Reactions & Events (SABRE) reported to the Medicines and Healthcare products Regulatory Agency (MHRA)	0	Annual	Local
Number of whole blood donations that are collected on session which are below the minimum viable volume, as a % of the total number of whole blood donations collected (% Part Bags)	3%	Monthly	Local
Number of donors where venepuncture is attempted to be performed on but no blood enters the bag, as a % of the number of donors who have reached the donation chair (% Unsuccessful Venepuncture)	2%	Monthly	Local
The number of blood components (weighted) collected per Standardised FTE (Blood Collection Efficiency)	1.25 WTE	Monthly	Local
Number of components manufactured per Standardised FTE. (Manufacturing Efficiency)	392	Monthly	Local
Number of platelets which have time expired as a % of the total number of platelets manufactured (Time Expired Platelets)	10%	Monthly	Local
Number of RBC units which become non-viable during the manufacturing process which could have been avoided, as a % of the number of complete whole blood donations (Controllable Manufacturing Losses)	0.5%	Monthly	Local
Number of bags of RBC, including Paediatric bags, which have time expired as a % of the total number of RBC bags manufactured (Time Expired Red Cells)	1%	Monthly	Local
Number of donors that scored 5 or 6 out of 6 (6 being totally satisfied and 1 being totally dissatisfied with their overall donation experience after they have been registered on clinic to donate (Donor Satisfaction)	71%	Monthly	Local
Number of 'formal' and 'informal' concerns received from blood donors	~	~	~
% of 'formal' concerns received and treated under 'Putting things Right Regulations within 30 working days	100%	Monthly	National
% of all concerns (formal and informal) acknowledged within 2 working days as required by the 'Putting things Right' Regulations	100%	Monthly	National
Number of new Whole Blood Donors recruited to the donor panel	2,750	Quarterly	Local
Number of new Apheresis Donors recruited to the donor panel	14	Quarterly	Local
Number of Deceased Donor Typing / Cross Matching reported within given period	80%	Quarterly	Local
Number of Anti D & -c Quantitation patient results provided to customer hospitals within 5 working days	90%	Quarterly	Local

Monthly Reporting

Annual Target: 4000 (ave 333 per month)	SMT Lead: Jayne Davey / Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>Performance has started to improve as the Recovery Plan is implemented but has still not met target in November.</p> <p>The service continues to focus on recruitment of donors at schools, colleges and universities, with a bone marrow champion present at every school, college and University blood session.</p> <p>The number of eligible donors increased in November to 951 versus 700 in October.</p> <p>The service continues to work proactively to understand the optimum programme for recruitment of donors via buccal swabs.</p> <p>NB: there is a delay between timelines of registration and receiving the swabs back from donors of up to six weeks.</p>	<p>A Recovery Plan has been developed to explore new ways to increase recruitment of bone marrow volunteers. A project group has been established to drive implementation and is meeting weekly. A review is being carried out in December and the plan will be adapted accordingly to focus on areas where results are being seen.</p> <p>As part of that plan, targeted bone marrow donor recruitment on social media commenced in November. A 'Roadshow' marketing campaign, which aims to actively recruit donors aged between 17-30 across Wales, is being piloted between December 2022 and May 2023. Digital solutions are being explored to support recruitment.</p> <p>The WBMDR five year strategy, re-appraising the existing collection model and its ambition, is in development and will be informed by the assessment of the Recovery Plan.</p>	<p>Ongoing</p> <p>May 2023</p> <p>Qtr 4</p>

Monthly Target: 0	SMT Lead: Jayne Davey / Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>During November, the red cell stock holding did not drop below 3 days for priority blood groups (O, A and B+). Stock levels are satisfactory across all groups.</p>	<p>The service constantly monitors the availability of blood for transfusion through its daily Demand Planning Group meetings which include representatives from all departments supporting the blood supply chain.</p> <p>At the meetings, business intelligence data is reviewed and facilitates operational responses to the challenges identified. Appropriate operational adjustments are made to maintain adequate stock levels and minimise blood shortages.</p>	<p>Reviewed daily to support responses to changes in demand.</p>

Monthly Target: 100%	SMT Lead: Jayne Davey/ Tracey Rees	
What are the reasons for performance?	Actions(s) being taken to improve performance	By When
<p>All clinical demand was met in November with the service in good and stable position, with healthy stock levels across all priority groups. Due to this, 120 O+ units were able to be exported to Northern Ireland in November.</p> <p>Washed red cells received due to specialist requirements.</p> <p>Demand in November (full weeks) averaged at 1371 units per week.</p>	<p>The service constantly monitors the availability of blood for transfusion through its daily Demand Planning Group meetings which include representatives from all departments supporting the blood supply chain.</p> <p>At the meetings, business intelligence data is reviewed and facilitates operational responses to the challenges identified. Appropriate operational adjustments are made to maintain adequate stock levels and minimise blood shortages.</p>	<p>Reviewed daily to support responses to changes in demand.</p>

Monthly Target: 100%	SMT Lead: Jayne Davey / Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>All clinical demand for platelets was met representing a strong performance against this metric in November.</p> <p>Platelet demand was 161 units per week on average.</p> <p>Note: A value over 100% indicates sufficiency in supply over the month, whilst a value less than 100% would indicate shortage of platelets. High values will also increase time expiry of platelets.</p>	<p>Due to their short shelf life (7 days), platelet stocks are monitored on a daily basis to ensure adequate response time to any 'spikes' in demand. Daily communications between the Collections and Laboratory teams enables agile responses to variations of stock levels and service needs.</p> <p>The service carried out a review to better understand current demand trends in order to improve production/distribution efficiency performance. Task & Finish Groups were established in Q3 to implement the recommendations. They cover optimising the clinic collection plan for Apheresis and creation of a forecasting tool to inform decisions around pooled platelet manufacture.</p>	<p>Reviewed daily</p> <p>12 months Qtr 4</p>

Annual Target: 80 (ave 7 per month)	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>The total stem cells collected was 1 (1 collection was cancelled during November for patient reasons). The total stem cell provision for the service was 6 (1 collected and 5 imported for Welsh patients). In addition, 2 Peripheral Blood Lymphocytes were collected.</p> <p>The Service continues to experience a cancellation rate of approx. 30% compared to 15% for pre COVID levels. This is due to patient fitness and the need for collection centres to work up two donors simultaneously due to a reduction of selected donors able to donate at a critical point in patient treatment.</p> <p>Currently, 4 stem cell products are due for collection in December.</p>	<p>The WBMDR five year strategy, re-appraising the existing collection model and its ambition, is in development and will be informed by the assessment of the Recovery Plan for Bone Marrow Volunteer recruitment.</p>	<p>Quarter 4</p>

Monthly Target: 90%	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>At 96% the turnaround time for routine Antenatal tests in November remains above the target of 90%.</p>	<p>Efficient and embedded testing systems are in place.</p> <p>Continued monitoring and active management remains in place, maintaining high performance against current target.</p>	<p>Business as Usual, reviewed daily</p>

Monthly Target: 80%	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>Reference Serology 'turnaround' performance failed to meet the 80% target in November 2022. Recent performance is due to continued staff absences, continued high levels of testing requests and planned annual leave.</p> <p>Compatibility testing (43% of referrals) continues to meet clinical target and all time-critical tests are being completed on time, whilst the volume of testing requests has increased slightly to 228 per month compared to Average 226/month for 2021.</p>	<p>The service conducts specialist tests to confirm hospital results that are difficult to interpret or will undertake additional testing which is not performed in the hospital blood banks. These tests must be performed within 7 days of the sample being taken and are prioritised appropriately to ensure the fastest turnaround possible.</p> <p>The service continues to prioritise compatibility referrals and safe provision of red cells for transfusion. All referrals are prioritised based on clinical need.</p> <p>An additional Band 6 Specialist Biomedical Scientist resource to increase complex testing is being recruited.</p> <p>Validation the new automated analyser has been completed and this will start to support an improvement in performance through efficiency. Further validation of red cell phenotyping equipment is expected to be completed by the end of January 2023 further improving analytical efficiency.</p>	<p>Quarter 4</p> <p>January 2023</p>

Monthly Target: 90%	SMT Lead: Peter Richardson	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>At 96% Quality incident investigations closed within 30 days continues to exceed the target of 90% . A 1% reduction in month is within expected variation for this measure.</p>	<p>Continue to closely monitor performance.</p> <p>Each incident report is reviewed within a working day of being reported to ensure all information needed for effective risk assessment and investigation is captured. The review identifies complex investigations that may need multi-disciplinary support to establish a root cause.</p> <p>We expect the multidisciplinary approach to investigating complex incidents to enable faster identification of root cause and more effective preventative action to be put in place.</p> <p>The progress of actions to address incidents is closely monitored. The QA team continue to send weekly updates alerting owners/managers of actions recorded within QPulse that are likely to breach close-out deadlines.</p>	<p>Every incident report is reviewed within a working day of being reported</p>

Target: 0	SMT Lead: Peter Richardson	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>There were no critical or major non-conformances in November.</p>	<p>Where they occur, the work to assign root causes of non conformances will be completed.</p>	

Annual Target: 0	SMT Lead: Peter Richardson	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
There were no Serious Averse Blood-Related Event (SABRE) reports submitted to the Medicines and Healthcare Product Regulatory Agency (MHRA) in November. No adverse event reports were submitted to the Human Tissue Authority (HTA), and no Serious Hazards of Transfusion (SHOT) incidents were reported during the month.	Completion of Corrective Actions and Preventative Actions (CAPA), in respect of SABRE reports, is monitored via existing processes and reported to the Regulatory Assurance and Governance Group (RAGG).	Progress of completion of investigations is monitored via monthly QA metrics reporting into RAGG.

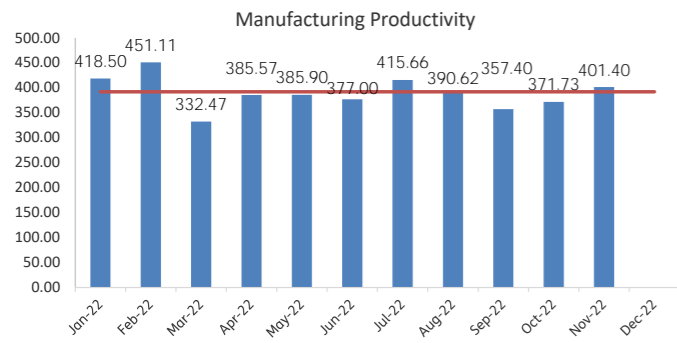

Monthly Target: Maximum 3%	SMT Lead: Janet Birchall	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
Performance remains within the required tolerance level of 3% at 2.92% for November, however there is an upward trend in monthly figures that is being explored. NB: Causes of Part Bags are various (needle placement, clinical risk, donor is unwell, donor request to stop donation, late donor information and equipment failure) and at times cessation of donation resulting in a part bag is clinically appropriate. This is a separate factor to Failed Venepuncture (FVPs).	Work is underway with Clinical Services and the Training Team to understand rationale for upward trend. Findings shared with operational managers and further training/support provided where required. Continue with close monitoring and intervention where required.	Ongoing

Monthly Target: Maximum 2%	SMT Lead: Janet Birchall	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
At 1.8%, overall performance is within the required tolerance (2%), however there is an upward trend in monthly figures that is being explored.	Work is underway with Clinical Services and the Training Team to understand rationale for upward trend. Findings shared with operational managers and further training/support provided where required. Continue with close monitoring and intervention where required.	Ongoing

Monthly Target: 1.25	SMT Lead: Jayne Davey	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
Collection efficiency performance failed to meet target in November. This drop in performance is a short term consequence of managing low hospital demand. The number of donor slots was reduced to avoid over collection, however the time was utilised to support staff to complete mandatory training and PADR's. NB. Current resource reporting does not allow for recording of non-donor facing hours which also has had a direct impact on performance reporting.	Daily review of stock levels in conjunction with the wider service to support correct available 'days of blood' by blood group stock levels. Supporting staff to complete mandatory training and PADR's when capacity allows. Daily monitoring of hospital demand to support flexible increases in capacity if required. Update the current efficiency reporting tool to incorporate the capture of non-donor facing hours, this will lead to a more accurate reporting efficiency.	December 2022

Monthly Target 392	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>At 401 manufacturing efficiency performance exceeds the target of 392.</p> <p>NB. This target measures the manufacturing productivity by assessing the staffing levels against the number of blood components being manufactured.</p>	<p>Continue to monitor and review as part of development of new suite of KPIs.</p>	

Monthly Target: Maximum 10%	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>Platelet wastage is still above target at 15% due to difficulty in understanding production/distribution efficiency performance.</p> <p>Demand continues to be met without the need for Mutual Aid support.</p>	<p>Given the variability of expired platelets over the past 12 months, the service has carried out a review to better understand current demand trends in order to improve production/distribution efficiency performance.</p> <p>Task & Finish groups have been established in November to implement the recommendations. They cover optimising the clinic collection plan for Apheresis and creation of a forecasting tool to inform decisions around pooled platelet manufacture. Regular highlight reports are being submitted to the SMT.</p> <p>More sustained resolution will arise through the work exploring cold platelet storage which the Component Development Laboratory are facilitating.</p>	<p>12 months Qtr 4</p>

Monthly Target: Maximum 0.5%	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>Controllable losses were low at 0.13% and remain within tolerance of below 0.5%.</p> <p>These levels are well within tolerance and represent good performance.</p>	<p>Active management of the controllable losses in place, including vigilance and reporting of all units lost.</p> <p>Ongoing monitoring of losses when occurring in order to understand the reasons and consider appropriate preventative measures thus continuously improving practice through lessons learned and analysis.</p>	<p>Business as Usual, reviewed monthly</p>

Time Expired Red Cell

Monthly Target: Maximum 1%	SMT Lead: Tracey Rees	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
This metric remains well within the target and there are no concerns around expiry of red cells.	Daily monitoring of age of stock as part of the resilience meetings. Red Cell shelf life is 35 days, with all blood stocks stored in blood group and expiry date order and issued accordingly. Continued effective management of blood stocks to minimise the number of wasted units.	Business as usual, reviewed daily

Donor Satisfaction

Monthly Target: Minimum 71%	SMT Lead: Jayne Davey	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
At 96.1% donor satisfaction continues to be above target for November. In total there were 1,100 respondents to the donor survey.	Findings are reported to the Senior Management Team (SMT) at the Collections meeting to address any actions for individual teams. WBS has now fully implemented the Civica tool at post donation care on donor sessions. Feedback will be incorporated into future quarterly divisional highlight reports.	Business as usual, reviewed monthly

Number of Concerns Received

Target: N/A	SMT Lead: Alan Prosser	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
In November 2022, 7,904 donors were registered at donation clinics with 8 concerns (0.1%) reported within this period. The one formal concern recorded in November is being managed under 'Putting Things Right' (PTR) regulations and is expected to be completed before the 30 day target of 05/01/23. The formal concern recorded in October was completed on 21/10/22, ahead of the 30 day target. The remaining concerns were managed as 'early resolution' within the required timescales. Formal Concern: A Donor raised a number of concerns around donation experience. Early Resolutions: 1. A donor felt rushed, was disappointed with RN's behaviour. 2. Donors were unhappy to be turned away from session when attending with children. 3. 2 Donors were unhappy to be turned away from session for being late. 4. A donor was unhappy with the lack of available venues in postcode area. 5. A donor was unhappy that a staff member made comment about existing bruise on arm.	Formal Concern: A full Investigation underway to establish if there was a breach of duty. Early Resolution: 1. An apology was made to the donor regarding their donation experience, caused by the failure of the RN to explain the need to wash hands following a blood spillage. The RN has been reminded of the importance of effective communication. 2. The Clinical Lead RN in question has been reminded to discuss attendance at collections session with donors who bring children, emphasising that accepting children at donation centres will be at their discretion and based on clinical safety and venue capacity. 3. Reception staff have been reminded to inform the Clinical Lead RN of donors who arrive late for their appointment, in order to be able to assess clinic capacity and safety and the potential to accept late donors. 4. Following appropriate risk assessments as part of the aim to restore collections to pre COVID levels, plans to re-introduce Mobile Donation Units (MDU) to support the availability of collections made in the community are now in place. 5. Collections team staff have been reminded of the importance of effective and sensitive use of their communication skills with donors.	

% Responses to Concerns within 30 Working Days

Monthly Target: 100%	SMT Lead: Alan Prosser	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>All concerns due to be completed in November were dealt with in October ahead of timeline. The Service is on target to conclude the formal concern received in November within the 30-working day timeframe.</p> <p>All concerns continue to be monitored and actioned as appropriate.</p> <p>* Under PTR guidelines, organisations have 30 working days to address/close formal concerns. This can result in concerns being received and subsequently closed within separate reporting periods.</p>	<p>Continue to monitor this measure against the '30 working day' target compliance.</p> <p>Continued emphasis of the 'Concern' timescale needs to all involved in concerns management reporting.</p> <p>Review Standard Operating Procedure (SOP) relating to children attending session with donors.</p> <ul style="list-style-type: none"> - Training Awareness of Effective Documentation Skills is taking place. - Ongoing individualised staff assessments. 	December 2022

% Concerns Acknowledged within 2 Working Days

Monthly Target: 100%	SMT Lead: Alan Prosser	
What are the reasons for performance?	Action(s) being taken to improve performance	By When
<p>Performance met target in November 2022, with all concerns managed within required timelines.</p>	<p>Continued daily monitoring of this measure against the 'two working day' compliance target.</p> <p>Remind all staff involved in concerns management of the importance of the 2-day response timescale</p> <p>Review the Standard Operating Procedure (SOP) relating to children attending donation sessions</p> <p>Training Awareness of Effective Documentation Skills is taking place.</p> <p>Ongoing individualised staff assessments</p>	

Workforce Report provides the following:

- Overview of Key Performance Indicators for Sickness, PADR, Statutory and Mandatory training in all Divisions of the Trust, including Corporate Divisions, TCS and Research and Development (excluding hosted);
- Corporate Divisions include Finance, Workforce and OD, Corporate Estates and Planning, Corporate IT, Clinical Governance, Infection Control, Fundraising and Trust Management and Board;
- The report provides a 12 monthly trend report for Sickness, PADR, Statutory and Mandatory training;
- Hotspots identified, with in month actions to explain improvement trajectory work. Hotspots defined as areas where KPIs are not met and there has been a downward trend over the last three months;
- In month Job Planning figures with narrative to notify areas of improvement;
- Usage of Work in Confidence platform.

Sickness – The Narrative

Performance Indicator	RAG/ Change from previous month	Oct Figure	Hotspot	%	Comment
Sickness absence (3.42%)	6% 	6%	Welsh Blood Service (7%)		
			Collections	10%	<i>Same as previous month (10%)</i> The People and Relationships team continue to support managers in the application of MAWW policy. Sickness audits underway with expected outcomes in late January 2022.
			Laboratory	8%	<i>Increase on previous month (7%)</i> Outcome of targeted Respect and Resolution interventions to be collated for SMT and further action will be required.
			Velindre Cancer Centre (6%)		
			Clinical Audit	12%	<i>Decrease on previous month (14%)</i> Due to the smaller nature of the department one absence has had significant impact on the overall sickness compliance of the team.
			Outpatients	14%	<i>Decrease on previous month (15%)</i> The People and Relationships team continue to support managers in the application of MAWW policy.
			Private Patients	9%	<i>Same as previous month (9%)</i> In month absence has declined and it is expected the rolling absence compliance will decline as the year progresses.
			Information Section	9%	<i>Increase on previous month (7%)</i> New hotspot areas due to increasing compliance month on month. Detailed analysis required by services leads and WOD Business Partner.

	Operational Services	9%	<i>Increase on previous month (8%)</i> New hotspot areas. Operational services were removed from the hotspot category after significant improvement in absence earlier in the year however they now have 3 consecutive months of absence growth which is a cause for concerns to be further analysed by Senior BP and service leads.
	Corporate Areas (4%)		
	Clinical Corporate Governance	12%	<i>Same as previous month (12%)</i> Highly complex long-term sickness cases remain the primary concern for the department and these cases are being managed in line with the MAWW policy.
	RD&I	7%	<i>Same as previous month (7%)</i> Long-term absence cases remains to be the primary concern in RD&I and cases are being managed in line with the MAWW policy.
	TCS	0%	The spike in short-term absence in the month of October has ended and TCS absence has returned to its normal position. This will be removed as a hotspot.

Velindre University NHS Trust

Long Term Sickness (in month) **1.87%**
Short Term Sickness (in month) **3.59%**

The graph opposite shows the changing position of long and short term sickness (rolling 12 months) absence. There is an overall decline in long-term and short-term sickness as the People and Relationship Team continue to support managers in the application of the MAWW policy.

Anxiety/stress/depression/other psychiatric illnesses remains the highest reason for absence across the Trust at 31% and wellbeing drop in

session have been scheduled to support staff and glean useful qualitative data for improving this figure.

WBS

Long Term Sickness (in month) **2.18%**

Short Term Sickness (in month) **4.72%**

Stress/Anxiety related absence continues to be the highest reason of all absences over the last 12 months, at a slightly increased rate this month, of 36.8% coupled with a turnover rate (12 month) is reported at 17.26% there has been a need for targeted intervention within WBS to understand any correlation and provide analysis to this quantitative day.

Ongoing interventions and collation of qualitative data from within hotspot areas and this information is being prepared for SMT in January 2022 which will also become part of ongoing OD interventions regarding culture and values within the organisation.

VCC

Long Term Sickness (in month) **3.14%**

Short Term Sickness (in month) **2.04%**

In month sickness has increased slightly once more in November 5.18% and managers continue to manage cases in line with the MAWW policy. Sickness Audits undertaken in departments across VCC have shown no cause for concern in relation to the application of the MAWW policy.

Corporate Areas (including RD&T, HTW & TCS)

Long Term Sickness (in month) **3.43%**

Short Term Sickness (in month) **0.71%**

The significant increase in short-term absence seen in October 2022 has returned to normal in the month of November.

There are several ongoing complex long-term absence cases in Corporate and RD&I that are being managed sensitively and in line with the MAWW policy.

WG	Welsh Government
VCC	Velindre Cancer Centre
MMR	Monthly Monitoring Returns
HTW	Health Technology Wales

1. SITUATION/BACKGROUND

- 1.1 The attached report outlines the financial position and performance for the period to the end of November 2022.
- 1.2 This financial information included within this report relates to the Core Trust (Including HTW). The financial position reported does not include NWSSP as they are directly accountable to WG for their financial performance. Only the balance sheet (SoFP) and cash flow provides the full Trust position as this is reported in line with the WG monthly monitoring returns (MMR).

2. ASSESSMENT / SUMMARY OF MATTERS FOR CONSIDERATION

2.1 Performance against Key Financial Targets:

	Unit	Current Month £m	Year to date £m	Year End Forecast £m
Revenue	Variance	(0.002)	0.003	0.000
Capital (To ensure that costs do not exceed the Capital Expenditure limit)	Actual Spend	2.149	10.010	28.312
Public Sector Payment Performance (Administrative Target – To pay 95% of non NHS invoices within 30 days measured against number of invoices paid).	%	96.0%	95.7%	95.0%

2.2 Revenue Budget

At this stage of the financial year the overall revenue budget (excl. Covid and the exceptional cost pressures) remains broadly in line with expectations as planned within the IMTP, with a projected forecast outturn position of breakeven.

The overall position against the profiled revenue budget to the end of November 22 is an underspend of **£0.003m**, with an outturn forecast position of **Breakeven**.

The Trust has now received funding towards both the pay award and the temporary increase in Employers NI.

The pay award funding received for 2022-23 was £3.065 leaving a funding risk of circa £0.450m. This year the gap will be mitigated through non recurrent measures with divisions calculating the recurrent impact into future years as part of the IMTP budget setting process.

The Trust is yet to receive full funding from WG for both Covid response and the incremental increase in Energy costs, however confirmation has been received that funding will be provided based on a maximum of the outturn forecast as at September leaving minimal risk to the Trust.

It is expected that any potential cost pressures are managed by budget holders to ensure the delegated expenditure control limits are not exceeded in line with budgetary control procedures.

Two saving schemes relating to service redesign and supportive structures have turned red with contingency plans have been put in place to ensure that the saving target is met for this financial year.

The Trust continues to report a year end forecast breakeven position which is following confirmation from WG that the Exceptional National cost pressures and Covid response costs will be funded based on the month 6 forecast position. Covid funding towards recovery from commissioners remains a risk, however, will be mitigated on a non-recurrent basis during 2022-23.

2.3 PSPP Performance

During November '22 the Trust (core) achieved a compliance level of **96%** of Non-NHS supplier invoices paid within the 30-day target, which gives a cumulative core Trust compliance figure of **95.72%** as at the end of month 8.

2.4 Covid Expenditure

Covid-19 Revenue Spend / Funding 2022/23					
	WG £m	Commissioners £m	Total £m	IMTP Plans £m	Cost Reduction £m
Mass Vaccination	0.225		0.225	0.375	0.150
PPE	0.070		0.070	0.335	0.265
Cleaning	0.293		0.293	0.427	0.134
Other Covid Response	0.304		0.304	0.967	0.663
Covid Recovery - Internal Capacity		3.645	3.645	6.056	2.411
Covid Recovery - Outreach		0.261	0.261	4.150	3.889
	0.893	3.906	4.799	12.310	7.511

The overall gross funding requirement related to Covid has reduced further and currently stands at £4.799m, with £0.893m being recognised for funding from WG, and the balance of £3.906m being sought from our Commissioners.

The £4.799m represents a significant reduction in outsourcing costs from the Trust IMTP plan as of 31st March, largely due to the liquidation of the Rutherford Cancer Centre (RCC).

Other funding / cost reduction reflects control measures and review of service delivery models to reflect latest WG Covid de-escalation guidance.

2.5 Reserves

The financial strategy for 2022-23 facilitated the development of a recurrent and non-recurrent reserve in support of the Trust transformation and delivery agenda. These reserves could only be accommodated on the basis that all income expectations are received, planned savings schemes delivered and new emerging cost pressures managed. In addition, the Trust holds an emergency reserve of £0.522m.

A review of the reserves position is currently underway which is following confirmation from WG that both Covid and the Exceptional National Costs will be funded.

2.6 Financial Risks

Covid

The Trust continues to be in dialogue with Commissioners with regards to the costs of additional capacity required to meet the demands placed on our Planned Care services. To date, the full requirement of £3.906m, which has been invested in securing additional capacity, has not been agreed by Commissioners.

The Trust has received signed Long Term Agreements (LTA's) from our Commissioners. However, the funding for Planned care & Covid backlog capacity remains a risk as the marginal income that the Trust is forecast to receive will not cover the additional costs being incurred.

2.7 Capital

a) All Wales Programme

Performance against the current agreed All Wales Programme budget allocations are at this stage expected to deliver to budget. Slippage on the nVCC Enabling works has resulted in the Trust returning £6.393m of funding to WG during 2022/23 which will be re-provided next financial year.

The Trust (during November) received the funding award letter from WG in relation to IRS. The total funding allocated is £41.602m for the period April 22 to March 2026 with £7.9m of the total to be provided during 2022/23.

Also, in November the Trust received an additional £0.370m of funding from WG yearend slippage money which will go towards priority schemes approved by EMB on the 26th October.

The Trust CEL was fixed on the 31st October. At this point WG expect any further slippage to be managed internally by the Trust.

Due to the timing of meetings the CEL reported in the TCS finance report does not include the requested changes to the nVCC enabling and project costs. This will be updated to align with the main finance report from next month.

b) Discretionary Programme

The Trust discretionary capital allocation for 2022/23 is £1.454m. This represents a 24% reduction in capital allocation compared to £1.911m in 2021/22 and is reflective of the reduced overall NHS capital budget position.

The Trust Discretionary Programme for 2022/23 was approved by EMB in August and is expected to deliver and remain within the CEL.

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	There are no specific quality and safety implications related to the activity outlined in this report.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability If more than one Healthcare Standard applies please list below:
EQUALITY IMPACT ASSESSMENT COMPLETED	Not required
LEGAL IMPLICATIONS / IMPACT	There are no specific legal implications related to the activity outlined in this report.
FINANCIAL IMPLICATIONS / IMPACT	Yes (Include further detail below) The Trust financial position at the end of November 2022 is an underspend of £0.003m with a year-end forecast break-even position in accordance with the approved IMTP

4. RECOMMENDATION

Trust Board is asked to **NOTE**

- 4.1 the contents of the November 2022 financial report and in particular the financial performance to date, and the year-end forecast to achieve financial break-even and key risk in relation to income to cover Covid backlog additional capacity costs.
- 4.2 the TCS Programme financial report for November 2022 attached as **Appendix 1**.

FINANCIAL PERFORMANCE REPORT

FOR THE PERIOD ENDED NOVEMBER 2022/23

TRUST BOARD
31/01/2023

1. Introduction

The purpose of this report is to outline the financial position and performance for the year to date, performance against financial savings targets, highlights the financial risks, and forecast for the financial year, outlining the actions required to deliver the IMTP Financial Plan for 2022-23.

2. Background / Context

The Trust IMTP Financial Plan for the period 2022-2025 was set within the following context.

- The Trust submitted a balanced three year IMTP, covering the period 2022-23 to 2024-25 to Welsh Government on the 31 March 2022.
- For 2022-23 the Plan (excl Covid) included;
 - an underlying **deficit of -£0.5m** brought forward from 2021-22,
 - **FYE of new cost pressures / Investment of -£11.461m,**
 - offset by **new recurring Income of £11.161m,**
 - and Recurring FYE **savings schemes of £0.8m,**
 - Allowing a **balanced position** to be carried into 2023-24.
- The underlying deficit is expected to be eliminated during 2022/23 through the discretionary uplift in funding, enabling a balanced position to be carried into 2023/24.
- **To eliminate the brought forward underlying deficit, the savings target set for 2022-23 must be achieved, all anticipated income is received, and any new emerging costs pressures are either mitigated at Divisional level or managed through the Trust reserves.**

Underlying Position +Deficit/(-Surplus) £Ms	b/f Into 2022/23	Recurring Savings	New Recurring Income / Allocations	FYE New Cost Pressures/ Investment	c/f Into 2023/24
Velindre NHS Trust	-0.500	0.800	11.161	-11.461	0

3. Executive Summary

Summary of Performance against Key Financial Targets (Excluding Hosted Organisations)

(Figures in parenthesis signify an adverse variance against plan)

Table 1 - Key Targets

	Unit	Current Month £m	Year to date £m	Year End Forecast £m
Revenue	Variance	(0.002)	0.003	0.000
Capital (To ensure that costs do not exceed the Capital Expenditure limit)	Actual Spend	2.149	10.010	28.312
Public Sector Payment Performance (Administrative Target – To pay 95% of non NHS invoices within 30 days measured against number of invoices paid).	%	96.0%	95.7%	95.0%

Performance against Planned Savings Target

Efficiency / Savings	Variance	0	0	0
----------------------	----------	---	---	---

Revenue

The Trust has reported a £(0.002)m overspend for November '22, with a cumulative position of £0.003m underspent, and an outturn forecast position of **Breakeven**.

Capital

The approved Capital Expenditure Limit (CEL) as at November '22 is **£28.312m**. This represents all Wales Capital funding of **£26.858m**, and Discretionary funding of **£1.454m**. The Trust reported Capital spend to November'22 of £10.010m and is forecasting to remain within its CEL of £28.312m for 2022-23.

The Trust's CEL is broken down as follows:

	£m Opening	£m Movement	£m November 2022
Discretionary Capital	1.454	0.000	1.454
All Wales Capital:			
Fire Safety	0.500	0.000	0.500
CANISC Cancer Project	0.000	0.579	0.579
TCS Programme	23.902	-6.393	17.509
IRS		7.900	7.900
Priority Year end Spend		0.370	0.370
Total CEL	25.856	2.456	28.312

With WG agreement, slippage on the TCS Programme has led to £6.393m Capital funding being pushed back into 2023/24.

The Trust has now received approval from WG for the Integrated Radiotherapy Solution (IRS) capital expenditure with £7.900m being provided during 2022-23 and has also been awarded £0.370m as part of the request for year-end priority schemes which gives a revised Trust CEL of £28.312m for 2022-23.

PSPP

During November '22 the Trust (core) achieved a compliance level of **96%** (October 22: 97.29%) of Non-NHS supplier invoices paid within the 30-day target, which gives a cumulative core Trust compliance figure of **95.72%** as at the end of month 8, and a Trust position (including hosted) of **95.73%** compared to the target of 95%.

Efficiency / Savings

At this stage the Trust is currently planning to fully achieve the savings target during 2022-23. Replacement schemes have been put in place to support under delivery on two schemes that have turned RAG rated red and will not be achieved during this financial year.

Revenue Position

Cumulative				Forecast		
£0.003m Underspent				Breakeven		
Type	YTD Budget (£m)	YTD Actual (£m)	YTD Variance (£m)	Full Year Budget (£m)	Full Year Forecast (£m)	Forecast Variance (£m)
Income	(118.305)	(118.110)	(0.196)	(182.187)	(182.023)	(0.165)
Pay	51.012	50.652	0.359	76.493	76.365	0.128
Non Pay	67.294	67.454	(0.160)	105.694	105.658	0.036
Total	(0.000)	(0.003)	0.003	(0.000)	(0.000)	0.000

The overall position against the profiled revenue budget to the end of November 2022 is an underspend of **£0.003m**, along with an overall outturn forecast position of **Breakeven**.

The Trust continues to report a year end forecast breakeven position which is following confirmation from WG that the Exceptional National cost pressures and Covid response costs will be funded based on the month 6 forecast position. Covid funding towards recovery from commissioners remains a risk, however, will be mitigated on a non-recurrent basis during 2022-23.

4.1 Revenue Position Key Issues

Income Key Issues

Income underachievement to November is largely where activity is lower than planned on Bone Marrow and Plasma Sales in WBS, with plans having already been put in place to support recovery in the latter part of the year particularly around plasma sales which has seen a significant overachievement during November.

The WBS underachievement (£0.595k) to date is being partly offset by VCC income generated through increase in activity from providing SACT homecare and the additional VAT savings, along with the over achievement on private patient income due to drug performance.

Pay Key Issues

The total Trust vacancies as at November 2022 is 101wte, VCC (49wte), WBS (31wte), Corporate (5wte), R&D (9wte), TCS (0wte) and HTW (7wte).

The Trust has now received the pay award funding of £3.065m from WG relating to 2022/23. The funding provided leaves a funding risk of circa £0.450m, with £3.510m being the total funding required to cover the core Trust full establishment including vacancies and increments. The divisions are currently reviewing the impact on the position however any funding gap for this year will be met through the high level of vacancies that has been carried through the Trust across the period, along with the release of the additional annual leave provision carried forward from last year. The recurrent financial impact into future years will need to be considered as part of the IMTP process which is currently underway.

The Trust has now received the full funding of £0.339m from WG towards the temporary increase in Employers NI rates (1.25%).

Vacancies throughout the Trust although reducing remain high, however several posts in both VCC and WBS have been appointed at risk in response to Covid activity backlog and additional capacity required for forward recruitment on service developments without agreed funding pending activity undertaken or FBC approval by WG and Commissioners. In addition, work continues to be underway in both divisions to either secure additional funding to support these posts or looking at options to migrate staff into vacancies to help mitigate the current risk exposure.

Both VCC and WBS hold a £0.450m vacancy factor target, which will need to be achieved during 2022/23 in order to balance the overall Trust financial position.

Non Pay Key Issues

The expected increase in energy prices has reduced further during November to £0.671m (October £0.845m) following the introduction of the price cap and review of volume consumption. The stepped increase of £0.671m has been recognised as an Exceptional National cost pressures by WG with confirmation that funding will be provided based on the month 6 forecast (£0.898m) as a maximum.

Each Division holds both a general reserve to meet unforeseen costs and a savings target / Cost improvement Plan (CIP). The savings target for each division was set as VCC £0.700m, WBS £0.500m and Corporate £0.100m as part of the IMTP for 2022/23.

The Trust reserves and previously agreed unallocated investment funding is held in month 12 and is released into the position to match spend as it occurs throughout the year.

4.2 Pay Spend Trends (Run Rate)

The pay award for 2022/23 was paid in September (back dated to April) as demonstrated in the spike in pay spend shown in the graph below. Agency costs have decreased this year from the 2021/22 levels largely due to the reduction of agency staff previously recruited to support Covid response. Further reductions in the use of agency were expected in 2022/23 by recruiting staff required on a permanent basis. However, more agency staff have been required recently in

particular to support the running of estates in VCC in order to deliver ongoing maintenance and statutory compliance duties. The service are actively trying to recruit into current vacancies in order to reduce the need of agency support.

The spend on agency for November 22 was £0.179m (October £0.183m), which gives a cumulative year to date spend of **£1.149m** and a current forecast outturn spend of circa **£1.600m** (£1.906m 2021/22). Of these totals the year to date spend on agency directly relating to Covid as at the end of November is £0.221m and forecast spend is circa £0.315m (£0.826m 2021/22).

The increase in WTE (20) during November is largely within VCC and relates to the recruitment of Nurses and HCSW into service area's such as inpatients, Chemotherapy and Prince Charles.

4.3 Non Pay

Non-pay 21/22 (c£96m) average monthly spend of £8m was £1.2m higher than the reported monthly average spend for 20/21 (£6.8m). Most of the monthly average increase (circa £0.9m) related to the growth in NICE / High Cost drug usage following the recovery and associated surge related to Covid and an increase in WBS wholesaling (circa £0.3m). The average monthly spend for 22-23 is currently £8.4m which is an average increase of circa £0.4m against 21/22 expenditure and is mainly due to the increase in NICE / High Cost drugs.

4.4 Covid-19

The latest forecast funding requirement as at 30th November in relation to Covid for 2022-23 has been further revised down to £4.799m (October £4.856m) which is a significant reduction from the £12.310m that was submitted as part of the Trust IMTP. Of the £4.799m total Covid requirement £0.893m (IMTP plans £2.104m) is being requested directly from WG, and the balance of £3.906m (IMTP plans £10.206m) being sought from our commissioners.

Covid-19 Revenue Spend / Funding 2022/23					
	WG £m	Commissioners £m	Total £m	IMTP Plans £m	Cost Reduction £m
Mass Vaccination	0.225		0.225	0.375	0.150
PPE	0.070		0.070	0.335	0.265
Cleaning	0.293		0.293	0.427	0.134
Other Covid Response	0.304		0.304	0.967	0.663
Covid Recovery - Internal Capacity		3.645	3.645	6.056	2.411
Covid Recovery - Outreach		0.261	0.261	4.150	3.889
	0.893	3.906	4.799	12.310	7.511

The latest forecast spend and funding requirement from WG has decreased by a further £0.057m from £0.950m reported in October to £0.893m. A further de-escalation of required cleaning is reducing both cost and funding requirements.

Following DoF's meeting on the 2nd November the Trust is now assuming that full funding for Covid response costs will be provided by WG. The Trust has already invoiced and received funding for costs in relation to Mass Vaccination and PPE, for the first quarter of the year from April to June 2022.

The Trust Covid expenditure is based on activity demand forecast modelling which commenced in 2021/22 and has been updated regularly working with Health Board operational teams. The Trust

has already invested £2.943m in additional capacity. The anticipated funding requirement of £4.150m for outsourcing has been removed as the Rutherford went into liquidation earlier this year. The Trust had also been working up plans to expand internal capacity which it has now established in its outreach Centre at Prince Charles Hospital (from October) for SACT, with forecast additional cost above that already invested in Covid capacity of circa £0.261m. In addition, the Trust has developed plans for expanding Radiotherapy capacity internally through use of weekend working which will require existing staff to work additional hours as WLIs with enhanced pay rates. The full cost and operational deliverability of this additional capacity is still being worked up. These additional investments in capacity to meet the activity demand from Health Boards will not be fully covered through LTA marginal income leading to an additional financial pressure to the Trust which it is managing through use of non-recurrent measures in 2022-23. However, with the anticipated removal of the LTA income protection in 2023-24 there will be a significant financial risk of £1.5m – £2m which the Trust may not be able to cover depending on demand and its ability to deliver activity within the current capacity.

Other cost reduction from IMTP plans reflects financial control measures and review of service delivery models to reflect latest WG Covid de-escalation guidance.

4. Savings

The Trust established as part of the IMTP a savings requirement of £1.300m for 2022-23, £0.800m recurrent and £0.500m non-recurrent, with £0.750m being categorised as actual saving schemes and £0.550m being income generation.

The divisional share of the overall Trust savings target has been allocated to VCC £0.700m (54%), WBS £0.500m (38%), and Corporate £0.100m (8%).

Two schemes continue to be impacted by Covid during 2022-23 have now turned red which relate to service redesign and supportive structures.

Service redesign and supportive structures is a key area of savings for the Trust which are focused on removing inefficiencies in the ways the Trust are working. These plans are aligned to a number of the Trust VBHC bids that sought funding for new posts to support medical workforce redesign but were unsuccessful. The ability to enact these saving schemes is proving to be difficult due to the legacy of the pandemic and current workforce situation, particularly the high number of vacancies along with the high level of sickness that is currently being experienced throughout the Trust. Plans are still being developed by the Trust divisions however, it is recognised due to the current challenges that these saving schemes will not be achieved in the short term and therefore delivery has been removed from this financial year.

Contingency measures have been put in place on the basis that these savings schemes will not be achieved this year, however these replacement schemes are both recurrent and non-recurrent in nature. **It is extremely important that divisions continue to review their current savings schemes, and where delivery is not going to be achieved this year consider the impact on next year's financial position especially where those schemes were classified as recurrent.**

5. Reserves

The financial strategy for 2022-23 facilitated the development of a recurrent and non-recurrent reserve in support of the Trust transformation and delivery agenda. These reserves could only be accommodated on the basis that all income expectations are received, planned savings schemes delivered and new emerging cost pressures managed. In addition, the Trust holds an emergency reserve of £0.522m.

Summary of Total Recurrent Reserves Remaining Available in 2022/23	£m
Recurrent Reserves Available for investment	1.241
Previously Committed Reserves Bfwd 2021-22	(0.137)
Previously agreed Exec Investment	(0.973)
New Commitments	(0.131)
Emergence of Slippage against Recurrent Reserves Commitments	
Remaining Balance	0

Summary of Total Non-Recurrent Reserves Remaining Available in 2022/23	£m
Non-Recurrent Reserves Available for investment	1.471
Previously Committed Reserves Bfwd 2021-22	(0.102)
Previously Agreed Exec Investment	(1.302)
New Commitments	(0.067)
Emergence of Slippage against Non-Recurrent Commitments	
Remaining Balance	0

A review of the reserves position is currently being undertaken which is following confirmation from WG that both Covid and the Exceptional National Costs will be funded.

6. End of Year Forecast / Risk Assessment

The Trust is currently reporting a year end breakeven position against its revenue budget, however there are a couple of risks remaining which are being managed and closely monitored. The table below summarises the key financial risks & opportunities highlighted to Welsh Government.

Covid Funding via Commissioners – Risk £500k, Likelihood - Medium

Commissioners have not committed to providing the full funding ask of £3.906m as a block funding arrangement but have all stated that any funding required to cover additional Covid recovery costs will flow through the LTA under the national funds flow mechanism. This mechanism, whilst providing enhanced income protection over the normal LTA arrangements, does not cover the additional costs of enhanced pay rates for WLI's or additional costs above marginal when establishing new capacity. The Trust has received signed LTA's back from our commissioners, however the funding for planned care & Covid backlog capacity remains a risk for the Trust.

Other C-19 Response Costs – Risk £0.755m (total £0.893m less income received £0.138m), Likelihood - Low

Following further Covid de-escalation related activity and a review of operational costs in line with the updated WG guidance, the latest forecast spend and funding requirement from WG has reduced further by £0.057m from £0.950m reported in October to £0.893m. The risk level has been reduced to low given the message delivered by Steve Elliot Interim Director of Finance for Health and Social Care, Welsh Government at DoFs on the 2nd November that Covid response funding will be provided based on the year-end forecast provided in month 6.

Exceptional National Cost Pressures – Risk £0.671m - Low

Following DoF's meeting on the 2nd November the Trust is now assuming to receive full funding for Energy prices based on the month 6 year end forecast and so this risk has been reduced to low but will remain flagged as a risk until the funding flows through to the Trust. The incremental increase in Energy prices has reduced slightly from £0.845m in October to £0.671m which reflects the latest forecast provided by NWSSP Colleagues during November.

7. CAPITAL EXPENDITURE

Administrative Target

- *To ensure that net Capital expenditure does not exceed the Capital Expenditure Limit (CEL) approved by the Welsh Government.*
- *To ensure the Trust does not exceed its External Financing Limit*

	Approved CEL £m	YTD Spend £m	Committed Orders Outstanding £m	Budget Remaining @ M8 £m	Full Year Actual Spend £m	Year End Variance £m
All Wales Capital Programme						
nVCC - project costs	2.394	2.073	0.000	0.321	2.894	-0.500
nVCC - Enabling Works	15.115	6.048	0.000	9.067	14.615	0.500
Canisc Cancer Project	0.579	0.579	0.000	0.000	0.579	0.000
Fire Safety	0.500	0.172	0.000	0.328	0.500	0.000
Integrated Radiotherapy Solutions (IRS)	7.900	0.809	0.000	6.831	7.640	0.260
WG Priority Year end Spend	0.370	0.000	0.000	0.370	0.370	0.000
Total All Wales Capital Programme	26.858	9.681	0.000	16.917	26.598	0.260
Discretionary Capital	1.454	0.329	0.000	1.125	1.714	-0.260
Total	28.312	10.010	0.000	18.042	27.942	0.000

The approved 2022/23 Capital Expenditure Limit (CEL) as at November 2022 was £28.312m. This includes All Wales Capital funding of £26.858m, and discretionary funding of £1.454m. The approved CEL has increased in year by £2.456m which reflects approval of the Canisc Cancer Project (0.579m), IRS (7.900m), and Velindre's share of the WG yearend spend request (0.370m). This is offset by a reduction of 6.393m on the nVCC Enabling works project to reflect the latest forecast requirement for 2022/23. Following agreement with WG the £6.393m will be re-provided to the programme during 2023/24.

WG colleagues have agreed a further movement of £0.500m between the nVCC enabling and project costs which is reflected in the table above but represented as a variance rather than a CEL adjustment.

In January 2022 WG informed the Trust that the discretionary allocation will be significantly reduced during 2022/23 (previously £1.911m), which is reflective of the reduced overall NHS capital budget position.

Allocation of the discretionary programme was approved by EMB Shape on the 27th August.

Following a request from WG a list of prioritised bids was approved by EMB on 26th October for submission to WG should any Capital funding become available. The Trust has received confirmation during November that £0.370m of additional funding will be provided to support delivery of the priority one schemes which includes replacement Hemoflows in WBS £0.238m, Patient Monitors in VCC £0.062m and £0.070m towards Digital priorities.

On the 22nd November the Trust received the award funding letter from WG in relation to IRS. The total funding allocated is £41.602m for the period April 22 to March 2026 with £7.900m of the total to be provided during 2022/23 with future years funding cash flow to be agreed with WG.

Within the £7.900m of IRS funding, £0.694m has been released back into the discretionary programme which was previously either spent or ringfenced to support the procurement stage of the IRS project. Of the £0.694m, £0.434m was ringfenced from discretionary in 2022/23 and £0.260m will be reimbursed from the WG funding allocation as the spend was incurred last financial year.

The £0.694m will be utilised to support the remaining priority one schemes that were submitted to EMB on the 26th October but not supported by WG.

The Trust CEL was fixed on the 31st October. At this point WG expect any further slippage to be managed internally by the Trust.

On the 16th December the Trust was awarded funding of £11.400m in respect of the Integrated Radiotherapy Solution for the Satellite Centre at Nevil Hall. The funding will be drawn down from 2023/24 and beyond to match the profiled spend.

Performance to date

The actual cumulative expenditure to November 2022 on the All-Wales Capital Programme schemes was £9.681m, this is broken down between spend on the nVCC enabling works £6.048m, nVCC project costs of £2.073m, Canisc Cancer Project £0.579m, fire safety £0.172m, and IRS £7.900m.

Spend to date on Discretionary Capital is currently £0.329m leaving a remaining balance of £1.125m as at the 30th November.

Year-end Forecast Spend

The year-end forecast outturn is currently expected to be managed to a breakeven position.

Major Schemes in Development

The Trust has also been in discussions with WG over other projects which it is seeking to secure funding from the All-Wales Capital programme.

Major Schemes in development that will be considered during 2022/23 and beyond in conjunction with WG include:

	Scheme	Scheme Total	Stage (i.e. OBC development, FBC development, scoping etc.)	22/23 £m	23/24 £m	24/25 £m	25/26 £m	26/27 £m	27/28 £m	28/29 £m
1	WBS HQ	34.125*	FBC under development	0.150	13.674	9.996	4.434	5.215	0.608	0.048

*Cash flow of these schemes is still under review alongside WG.

Other Major schemes which are under discussion internally and WG are sighted on include VCC outpatients, ventilation, and plasma fractionation.

8. BALANCE SHEET (Including Hosted Organisations)

The Balance Sheet in NHS Financial Statements is known as the Statement of Financial Position (SoFP). It provides a snapshot of the Trust's financial position including the hosted divisions at a point in time.

The statement shows the Trust's assets and liabilities. As part of the Trust SFIs there is a mandatory requirement to report movement in working capital.

	Opening Balance Beginning of Apr 22	Closing Balance End of Nov-22	Movement from 1st April Nov-22	Forecast Closing Balance End of Mar 23

9. CASH FLOW (Includes Hosted Organisations)

The cash-flow forecast is important to enable the Trust to plan for sufficient cash availability throughout the financial year to pay its debts, such as payroll, services provided by other health bodies and private companies. The cash-flow forecast ensures that the Trust has an early understanding of any cash-flow difficulties.

As part of the Brexit emergency planning an additional £5m of stock had been purchased by NWSSP and an additional £2m of commercial blood products were purchased by WBS, to provide resilience for NHS Wales due to the uncertainty around supply chain reliability because of Brexit.

To aid the Trust's cash flow while the additional stock was being held for Brexit, Welsh Government provided the Trust with additional cash of £7m during 2019/20. WBS did intend to run down the commercial blood stock, however given the uncertain situation with Covid and potential impact on supply chains the Trust continues to hold this stock with assessments ongoing. NWSSP are continuing to liaise with WG regarding the level of Brexit stock to maintain but it is anticipated that the repayment of the additional cash will take place later this year but will be dependent on the stock being released.

Due to the high levels of purchases relating to Covid within NWSSP, the cash levels over the past year or so have been significantly higher than usual, however by the end of this financial year expectation is that cash balances should return to pre-Covid levels.

Following a request from WG the Trust transferred £5.9m of cash into the Escrow holding account during May for the nVCC programme. These funds were consequently drawn down in July from WG to reimburse the Trust ensuring that there was no cash risk to the organisation.

Cash levels are monitored daily using a detailed cash flow forecast to ensure the Trust has sufficient cash balances to meet anticipated commitments.

VCC Key Issues:

The reported financial position for the Velindre Cancer Centre as at the end of November 2022 was **breakeven**, and an expected outturn position of **breakeven**.

Income at Month 8 represents a surplus of **£0.410m** and a forecast outturn overachievement of **£0.441m**. This is largely from an increase in activity from providing SACT homecare and the additional VAT savings, and over achievement on private patient income due to drug performance, which is above general private patient performance, along with a one-off drug rebate. This is offsetting the divisional income savings target of £0.541m as at the end of November.

VCC have reported a year-to-date underspend of **£0.019m** against staff, and a forecast of **£0.171m** underspent. The level of vacancies within VCC reduced by circa 20wte during November following recruitment of Nurses and HCSW into service areas such as inpatients, Chemotherapy and Prince Charles. As at month 8 the Division is still carrying 49wte vacancies with the savings being above the divisional vacancy factor target and offsetting the cost of agency (£0.807)m to end of November, £0.193m being directly related to Covid). In additions the savings from vacancies are also supporting the costs of advanced recruitment into IRS.

Medical costs have increased due to additional temporary staff recruited at risk to ensure that all Jnr Dr rotation placements are filled, and to provide additional resilience against pressured consultants. Additionally, enhanced out of hours service, for advanced life support which will be nursing led continues at this stage covered by Jnr Dr's with transition to nursing having begun but being phased.

Early recruitment to the delayed Integrated Radiotherapy Solution (IRS) has led to year to date committed cost of £0.353m.

Non-Staff Expenditure at Month 8 was **£(0.430)m** overspent, forecast **£(0.612)m** overspend. The overspend largely relates to the facilities management office pressures which were previously supported by Covid, maintenance and repair of the Linacs, transport SLA overspend, consumable spend from increased activity, and unexpected prior year invoices being received from Virgin Media, which are being partly offset by an underspend on general drugs.

WBS

	YTD Budget	YTD Actual	YTD Variance	Annual Budget	Full Year Forecast	Year End Projected Variance
	£000	£000	£000	£000	£000	£000
Income	17,519	16,924	(595)	24,718	23,930	(788)
Expenditure

Sub Total	31,345	30,750	595	45,515	44,727	788
Total	(13,826)	(13,826)	0	(20,797)	(20,797)	0

WBS Key Issues:

The reported financial position for the Welsh Blood Service at the end of November 2022 was **breakeven** with an outturn forecast position of **breakeven** currently expected.

Income underachievement to date is **£(0.595)m** forecast **£(0.788)m**, where activity is lower than planned on Bone Marrow and Plasma Sales. Targeted income generation YTD from plasma sales to research is not achieving desired levels, however contract one of two awarded for new supplier in October which includes increased selling price. Benefits of new contract reflected with significant overachievement during November and expectation that the underachievement will be recovered by the year end for plasma sales to breakeven. Transitional operating sites for Bone Marrow and increasingly curtailed procedures is resulting in activity being considerably lower than target.

Assumed WHSSC income for suppressed income is reflected as an underspend within the non-pay position, however WHSSC income support for the underachievement has now been fully utilised.

Staff reported a small year-to-date overspend of **£(0.004)m** to November, forecast **£(0.434)m**. Outturn overspend expected from posts supported without identified funding source which includes advanced recruitment and service developments which have been incurred as a divisional cost pressure particularly in relation to Component development where no WHSSC funding has been secured. WG bid has been submitted to support Plasma Fractionation staffing costs.

Work is still underway to either secure additional funding to support these posts or looking at options to migrate staff into vacancies to help mitigate the current risk exposure.

Non-Staff underspend of **£0.599m**, forecast **£1.212m** is largely due to reduced costs from suppressed activity underspends within Laboratory Services and WTAIL. WTAIL underspend is inclusive of £0.217m relating to Bone Marrow reflected to contra income underachievement as described above.

Corporate

	YTD Budget £000	YTD Actual £000	YTD Variance £000	Annual Budget £000	Full Year Forecast £000	Year End Projected £000
Income	697	969	272	1,226	1,619	393
Expenditure

Sub Total	8,000	8,269	(268)	12,505	12,898	(393)
Total	(7,303)	(7,300)	3	(11,279)	(11,279)	0

Corporate Key Issues:

The reported financial position for the Corporate Services division at the end of November 2022 was an underspend of **£0.003m**. The Corporate division is currently expecting to achieve an outturn position of **breakeven**.

The Trust is currently benefiting from receiving greater returns on cash being held in the bank due to the rise in interest rates which will be partly utilised to support the WRP contribution on the expectation this cost will become recurrent in nature.

Staff expectation is that vacancies within the division, will help offset use of agency and achieve the £0.100m divisional savings target.

Non pay overspend is **£(0.381)m**, forecast **£(0.507m)** as at month 8 largely relates to the divisional savings target £(0.0104)m as at end of November which is expected to be met in year via staff vacancies and the additional income being received in response to the increase in interest rates. Other large pressures include the increased running costs for the hospital Estate.

RD&I

	YTD Budget	YTD Actual	YTD Variance	Annual Budget	Full Year Forecast	Year End Projected Variance
	£000	£000	£000	£000	£000	£000

Total	(383)	(383)	0	240	240	0

RD&I Key Issues

The reported financial position for the RD&I Division at the end of November 2022 was **breakeven** with a current forecast outturn position of **breakeven**.

Staff vacancies which are relatively high at the moment within R&D are offsetting the innovation income target with the stretched target for this year and not expected to be met.

APPENDIX 2: TCS Programme Funding for 2022/23.....	12

1. INTRODUCTION

- 1.1 The purpose of this report is to provide a financial update for the Transforming Cancer Services (TCS) Programme for the financial year 2022/23, outlining spend to date against budget as at November 2022 and the current year-end forecast.
- 1.2 The TCS Programme financial position is continually monitored and updated, with an update provided regularly to both the TCS Programme Delivery Board and Trust Board.

2. EXECUTIVE SUMMARY

- 2.1 The summary financial position for the TCS Programme for the year 2022/23 as at 30th November 2022 is provided below. A detailed table of budget, spend and variance for the capital and revenue expenditure is provided in Appendix 1.

Expenditure Type	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Capital	£8.297m	£17.687m	£17.677m	£0.010m
Revenue	£0.433m	£0.674m	£0.674m	£0
Total	£8.730m	£18.361m	£18.351m	£0.010m

- 2.2 The Programme is currently forecasting an overall underspend of £0.010m against a budget of £18.361m for the financial year 2022/23.
- 2.3 The Enabling Works forecast position reflects an under-spend of £0.805m, which will support the nVCC Project. This will be provided from the Enabling Works QRA and poses a low financial risk for the Enabling Works Project. The approach has been agreed with WG and we are awaiting formal approval.
- 2.4 A review of the Enabling Works Project in October 2022 has resulted in a further virement of £3.021m from 2022/23 into 2023/24, as agreed with WG. This reduces the overall **capital** funding for 2022/23 to **£17.687m**. To date the EW Project has undertaken the following adjustments into 2023/24:
- Adjustment of £1.9m in May 22 – delay in Enabling Works Project
 - Adjustment of £1.472m in August 22 – delay in the Asda works
 - Adjustment of £3.021m in October 22 – delay in the Asda works; utilities and Added Value works
- 2.5 The Welsh Government position is that the funding allocations shown on CRL / CEL schedules at the end of October 2022 will be considered fixed. Therefore, following the above reviews, the EW Project has confirmed its funding requirements to deliver the EW FBC in 2022-23. The project will need to manage its financial position, and any further 'slippage' will need to be managed by the Trust's Capital Programme or returned to WG without re-provision.
- 2.6 Following Ministerial approval of the IRS Final Business Case during November 2022, the IRS Procurement Project will now close. The final costs for this Project are

£0.178m. Therefore, of the £0.434m funding ring fenced from the core Trust discretionary programme for the project in lieu of FBC approval, only the final requirement of £0.178m will be drawn down by the Project. However, as there is provision to fund these costs in the FBC, this amount will be reimbursed back to the discretionary programme for utilisation elsewhere within the Trust.

- 2.7 Provisional revenue funding of £0.020m towards pay award costs was provided to the Programme in September 2022 from the WG allocation to the Trust. However, following a review of the Programme's revenue budget and forecast expenditure for the year, there is sufficient resource from within the Programme to cover its increased pay costs. Therefore, this additional funding will not be drawn down in 2022/23. These increased costs will however be taken into account when forecasting future pay costs.
- 2.8 The Trust has approved a budget of £0.033m for the Judicial Review matter, a decrease of £0.010m from the original budget ring fenced for this matter (further details in paragraph 7.16 below). The **revenue** budget has now reverted to **£0.674m** for 2022/23.
- 2.9 There are currently three key financial risks to the Programme:
- A further underspend within the Enabling Works Project as a result of the delay in key project activities;
 - Increased advisory fees to conclude the tender evaluation stage and Successful Participant to Financial Close stage; and
 - Further legal fees relating to the Judicial Review matter.
- 2.10 These risks have mitigation plans in place or being developed by the relevant Project Teams.

3. BACKGROUND

- 3.1 In January 2015 the Minister for Health and Social Services approved the initial version of the Strategic Outline Programme 'Transforming Cancer Services in South East Wales'. Following completion of the Key Stage Review in June/July 2015, approval was received from the Minister to proceed to the next stage of the Programme.
- 3.2 By 31st March 2022, the Welsh Government (WG) had provided a total of £25.904m funding (£23.283m capital, £2,261m revenue) to support the TCS Programme. In addition, the Trust provided £0.264m from its discretionary capital allocation and £0.111m from non-recurrent revenue funding.
- 3.3 NHS Commissioners agreed in December 2018 to provide annual revenue funding to the Trust to support TCS Programme, with £0.400m provided in 2018/19 and £0.420m thereafter.
- 3.4 The current funding provided to support the TCS Programme in 2022/23 is £17.943m capital and £0.704m revenue, as outlined in Appendix 2.

4. CAPITAL POSITION

4.1 The current capital funding is outlined below:

• EW Project	£15.420m	Capital Expenditure Limit (CEL)
• nVCC Project	£2.089m	Capital Expenditure Limit (CEL)
• IRS Project	£0.178m	Trust's discretionary capital allocation
Total	£17.687m	

4.2 The capital position as at 30th November 2022 is outlined below, with a forecast underspend for 2022/23 of £0.010m.

Capital Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Enabling Works Project	£6.046m	£15.420m	£14.615m	£0.805m
nVCC Project	£2.073m	£2.089m	£2.885m	-£0.796m
IRS Procurement Project	£0.178m	£0.178m	£0.178m	£0
Total	£8.297m	£17.687m	£17.677m	£0.010m

4.3 The forecast overspend of £0.796m for the nVCC Project will be supported by the Enabling Works Project underspend of £0.805. This will be provided from the Enabling Works QRA and poses a low financial risk for the Enabling Works Project. The approach has been agreed with WG and we are awaiting formal approval.

4.4 Following Ministerial approval of the IRS Final Business Case during November 2022, the IRS Procurement Project will now close. The final costs for this Project are £0.178m. Therefore, of the £0.434m funding ring fenced from the core Trust discretionary programme for the project in lieu of FBC approval, only the final requirement of £0.178m will be drawn down by the Project. However, as there is provision to fund these costs in the FBC, this amount will be reimbursed back to the discretionary programme for utilisation elsewhere within the Trust. Further details are provided in Section 7.

5. REVENUE POSITION

5.1 The current revenue funding is outlined below:

• PMO	£0.300m	NHS Commissioners & Trust Reserves
• nVCC Project	£0.063m	Trust Reserves
• SDT Project	£0.311m	NHS Commissioners & Trust Reserves
Total	£0.674m	

5.2 Following the implementation of the annual NHS pay award in September 2022, a review of the forecast revenue pay for 2022/23 has taken place in November 2022. Adjustments have been made in to the relevant pay and non-pay budgets, allowing increased revenue pay costs in 2022/23 to be covered from within the Programme.

5.3 The revenue position as at 30th November 2022 is outlined below, with a forecast breakeven outturn for 2022/23 against a revised budget of **£0.674m**.

Revenue Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
PMO	£0.171m	£0.300m	£0.300m	£0
nVCC Project	£0.054m	£0.063m	£0.063m	£0
SDT Project	£0.207m	£0.311m	£0.311m	£0
Total	£0.433m	£0.674m	£0.674m	£0

6. CASH FLOW

6.1 The projected capital cash flow for the **EW Project** is outlined below:

6.2 The run rate indicates that around 80% of the costs will be incurred in the second half of the financial year. This is due to the delay in the start of the works.

6.3 The projected capital cash flow for the **nVCC Project** is outlined below:

6.4 The run rate for the nVCC Project is relatively 'flat' and reflects planned activities in respect of the successful participant stage.

6.5 The capital cash flow for the **IRS Project** and the **Revenue** cash flow are not reported as these are not of a material nature.

7. PROJECT FINANCE UPDATES

7.1 A detailed table of budget, spend and variance is provided in Appendix 1.

Programme Management Office

7.2 The total revenue funding for 2022/23 is **£0.300m**. £0.0240m of this is from NHS Commissioners' funding, and the remaining £0.060m from the Trust Reserves. The provisional pay award funding of £0.010m in 2022/23 previously reported will not be drawn down as the increased costs will be covered from within the PMO financial year.

7.3 There is no capital funding requirement for the PMO in 2022/23.

7.4 The revenue position for the PMO as at 30th November 2022 is shown below.

PMO Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Pay	£0.165m	£0.287m	£0.287m	£0
Non Pay	£0.006m	£0.013m	£0.013m	£0
Total	£0.171m	£0.300m	£0.300m	£0

7.5 The forecast spend review in November 2022 has resulted in an adjustment to the pay and non-pay budgets to align them with the new forecasts.

- 7.6 There is a low financial risk of an underspend due to a delay in project and support work carried out by the PMO. However, plans will be developed during December to mitigate this risk.

Enabling Works Project

- 7.7 In February 2022, the Minister for Health and Social Services approved the EW FBC. This has provided capital funding of £28.089m in total.
- 7.8 For 2022/23 the EW Project initially received a CEL for £21.813m but after several reviews the final CEL is **£15.420m**. It should be noted that the Welsh Government position, is that the funding allocations shown on CRL / CEL schedules at the end of October 2022 will be considered fixed. Therefore, following the above reviews, the EW Project has confirmed its funding requirements to deliver the EW FBC in 2022-23. The project will need to financially manage its position, and any further 'slippage' will need to be managed by the Trust's Capital Programme or returned to WG without re-provision.
- 7.9 The Project's financial position for 30th November 2022 is shown below. The forecast position reflects an underspend of £0.805m due to a delay in key activities, which will be used to support the nVCC Project as agreed by WG.

Enabling Works Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Pay	£0.224m	£0.220m	£0.335m	-£0.115m
Non Pay	£5.822m	£15.200m	£14.280m	£0.920m
Total	£6.046m	£15.420m	£14.615m	£0.805m

- 7.10 The spend relates to the following activities:

Enabling Works Project Capital Budget & Spend Summary 2022-23						
Description	Year to Date			Financial Year		
	Budget Nov-22 £	Spend Nov-22 £	Variance Nov-22 £	Annual Budget £	Annual Forecast £	Annual Variance £

- 7.11 There is a risk of a further underspend within the Enabling Works Project as a result of the delay in key project activities.

New Velindre Cancer Centre Project Capital

- 7.12 In March 2021, the Minister for Health and Social Services approved the nVCC OBC. This has provided capital funding of £5.550m in total, with a CEL for 2022/23 is **£2.089m**.
- 7.13 The capital financial position for the nVCC Project for 30th November 2022 is shown below, with a further breakdown provided in Appendix 4. The forecast position reflects an overspend of £0.796m, which will be supported from the Enabling Works Project as agreed by WG.

nVCC Capital Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Pay	£0.770m	£1.274m	£1.175m	£0.099m
Non Pay	£1.303m	£0.815m	£1.709m	-£0.894m
Total	£2.073m	£2.089m	£2.885m	-£0.796m

- 7.14 The spend relates to the following activities:

nVCC Project Capital Budget & Spend Summary 2022-23						
Description	Budget	Year to Date	Variance	Annual	Financial Year	Annual
	Nov-22	Spend	Nov-22	Budget	Annual	Variance

nVCC Project Capital Total	627,015	1,261,984	-634,969	731,127	1,627,894	-896,767
TOTAL nVCC fbc CAPITAL EXPENDITURE	1,534,012	2,072,955	-538,944	2,089,000	2,884,589	-795,589

- 7.15 There is a financial risk relating to increased advisory fees in the range of £0.100m to £0.200m required to conclude the tender evaluation stage and Successful Participant to Financial Close stage. The Project's financial position will be monitored closely over the remaining months of the financial year.

Revenue

- 7.16 No revenue funding has been provided for the nVCC Project by WG in 2022/23. Therefore, the Trust has provided **revenue** budget of **£0.063m** from the Trust reserves. This is £0.010m less than was previously reported due to a budget of £0.033m provided for the Judicial Review matter as opposed to the original ring fenced budget of £0.043m. this revised budget was based on a revised forecast spend for the year.
- 7.17 The revenue financial position for the nVCC Project for 30th November 2022 is shown below, reflecting a forecast breakeven spend against a budget of **£0.063m**.

nVCC Revenue Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Project Delivery	£0.021m	£0.030m	£0.030m	£0
Judicial Review	£0.033m	£0.033m	£0.033m	£0
Total	£0.054m	£0.063m	£0.063m	£0

7.18 The legal team has provided an estimated final cost for this matter of £0.134m. £0.084m of this was expended in 2021/2022, and the remaining £0.050m is expected during 2022/23. Therefore there is a risk of an overspend of £0.017m in this financial year. The action to mitigate this risk is to request additional funding from the Trust Reserves during December 2022.

Integrated Radiotherapy Solution Procurement Project

7.19 Ministerial approval of the IRS Final Business Case during November 2022, and subsequent signing of the contract with the preferred bidder, has instigated the closure of the IRS Procurement Project by 30th November 2022. Continuation of the overall project will continue with the IRS Implementation Project, managed by Velindre Cancer Centre.

7.20 The final costs for the IRS Procurement Project are £0.178m, as outlined below:

Pay	£0.083m
Legal Advisors	£0.092m
Other Costs	£0.003m
Total costs	£0.178m

7.21 Estimated costs of £0.127m in 2022/23 for bunker refurbishment LA5 previously reported by the Project will now be covered directly by funding provided directly from the FBC and have been removed from the final Project costs.

7.22 Of the £0.434m funding ring fenced from the core Trust discretionary programme for the project in lieu of FBC approval, only the final requirement of £0.178m will be drawn down. However, as there is provision to fund these costs from the FBC funding letter provided by WG, this will be reimbursed back to the discretionary programme for utilisation elsewhere within the Trust.

7.23 There is no revenue requirement for the Project in 2022/23.

7.24 The capital position for the IRS Project for 30th November 2022 is outlined below, with a breakeven position forecast for the year.

IRS Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Pay	£0.083m	£0.083m	£0.083m	£0
Non Pay	£0.095m	£0.095m	£0.095m	£0
Total	£0.178m	£0.178m	£0.178m	£0

7.25 There is a risk of the final legal fee being higher than expected. However, it is not anticipated that this will be a significant amount. There are no financial risks relating to the IRS Procurement Project.

Service Delivery and Transformation Project

7.26 The total revenue funding for 2022/23 is £0.180m from NHS Commissioners' funding and £0.131 from Trust reserves. The provisional pay award funding of £0.010m in 2022/23 previously reported will not be drawn down as the increased costs will be covered from within the SDT project for this financial year. The resulting budget is **£0.311m** for this financial year.

7.27 There is no capital funding requirement for the Project in 2022/23.

7.28 The SDT Project revenue position as at 30th November 2022 is shown below.

SDT Expenditure	Year to Date Spend	2022-23 Full Year		
		Budget	Forecast	Variance
Pay	£0.207m	£0.288m	£0.288m	£0
Non Pay	£0.000m	£0.023m	£0.023m	£0
Total	£0.207m	£0.311m	£0.311m	£0

7.29 The forecast spend review in November 2022 has resulted in an adjustment to the pay and non-pay budgets to align them with the new forecasts.

7.30 There is a low financial risk of an underspend due to a delay in project and support work carried out by the SDT Project. However, plans are being developed to mitigate this risk.

8. KEY RISKS AND MITIGATING ACTIONS

8.1 There are currently three key financial risks to the Programme:

- A further underspend within the Enabling Works Project as a result of the delay in key project activities;
- Increased advisory fees to conclude the tender evaluation stage and Successful Participant to Financial Close stage; and
- Further legal fees relating to the Judicial Review matter.

8.2 These risks have mitigation plans in place or being developed by the relevant Project Teams.

9. TCS SPEND REPORT SUMMARY

9.1 This update is currently being developed.

APPENDIX 1: TCS Programme Budget and Spend 2022/23 as at 30th November 2022

CAPITAL	Year to Date			Financial Year

COMMITTEE/GROUP WHO HAVE RECEIVED OR CONSIDERED THIS PAPER PRIOR TO THIS MEETING

COMMITTEE OR GROUP	DATE	OUTCOME
Quality, Safety and Performance Committee	17/01/2023	The Report was Noted

ACRONYMS

IBI	Infected Blood Inquiry
NHSBT	National Health Service Blood and Transplant (England)
NIBTS	Northern Ireland Blood Transfusion Service

SNBTS	Scottish National Blood Transfusion Service
WBS	Welsh Blood Service

1. SITUATION/BACKGROUND

- 1.1 The Infected Blood Inquiry is the independent public statutory inquiry into the use of infected blood particularly since the 1970's.
- 1.2 The Inquiry has been established to examine why men, women and children in the United Kingdom were given infected blood and / or infected blood products; the impact on their families; how the authorities (including government) responded; the nature of any support provided following infection; question of consent; and whether there was a cover-up.
- 1.3 The Welsh Blood Service (WBS), VUNHST has core participant status in the Inquiry.
- 1.4 The Inquiry has been in operation for over 4 years and has been taking evidence from those affected and infected together with a number of individuals representing relevant organisations. The activity of the IBI has continued during the COVID 19 pandemic. We are now approaching the stage of the inquiry that will enable Core Participants to submit a written statement in response to the evidence that has been heard.
- 1.5 During the majority of the period under review, WBS was legally an entity within a number of Welsh NHS organisations and operated in effect as a regional center under a collaborative working arrangement across England and Wales. As such, the evidence given by NHSBT has in the main covered England and Wales.

2. ASSESSMENT / SUMMARY OF MATTERS FOR CONSIDERATION

2.1 Written submissions to IBI

VUNHST submitted a Final Written Statement, as agreed to the Inquiry by the deadline of 16th December 2022 (**Appendix 1**).

This statement was written by the Lead Counsel representing the Trust and stated that WBS agreed with and endorsed the comprehensive submissions and recommendations advanced to the Inquiry by NHSBT. This was in the main due to the fact there was no neat separation between the blood services in England and Wales for the periods the Inquiry has been considering. For much of it, the Welsh service was in effect a constituent centre of the English service

The statement did not seek to duplicate what had been submitted but did observe that, in Wales, headway is already being made in areas which overlap some of the recommended actions.

An apology was included which recognised the utterly devastating impact upon the Infected and Affected of what had occurred, and apologised for the actions or inactions of its predecessor organisations

The statement confirmed that WBS would consider whatever recommendations the Inquiry makes, with a view to building on those improvements which have already started and would work in collaboration with the other UK blood services through the Blood Services UK Forum.

2.2 Hearings

The Oral Hearings resumed on the week commencing 16th January 2023, where the Inquiry will hear closing oral statements from those Core Participants who have requested to do so.

Following information from the IBI Legal Team and the meetings with the Trust's legal team, based on the advice of the Trust's Lead Counsel a decision was taken not to make a final oral statement on behalf of WBS.

Throughout the Inquiry WBS has had a reactive role in providing all the documents requested by the Inquiry. During the times being examined by the Inquiry the Welsh Regional Blood Service based in Cardiff acted as a region of England and as such did not make any independent decisions in relation to setting or following policy. This point will be made during the closing statement of NHSBT

The IBI legal team agreed this approach would be consistent with our submissions, the position to date and the fact that for the majority of the relevant time WBS was part of NHSBT or predecessor bodies. It would also be consistent with the statement of approach on closing submissions.

Following the conclusion of the Oral Statements the Chair will retire to consider the conclusions and recommendations he may wish to consider. As a Core Participant the Trust will have access to the final report prior to publication.

3 IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	There are no specific quality and safety implications related to the activity outlined in this report.
	The Inquiry relates to historic timelines.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability
	Standard 2.8 Blood Management
EQUALITY IMPACT ASSESSMENT COMPLETED	Not required
	The Inquiry relates to historic timelines.
LEGAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	The Inquiry will identify in relation to its' Terms of Reference, any individual responsibilities as well as organisational and systematic failures.
FINANCIAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	Funding for this work was confirmed with the Welsh Government to continue for the duration of the Inquiry

4. RECOMMENDATION

The Trust Board members are asked to NOTE the update.

INFECTED BLOOD INQUIRY

WRITTEN SUBMISSION OF THE WELSH BLOOD SERVICE, VELINDRE UNIVERSITY NHS TRUST ("WBS") TO THE INQUIRY FOLLOWING THE CLOSE OF EVIDENCE

1. This submission from WBS is made following careful consideration of the comprehensive submissions and recommendations that are to be provided to the Inquiry by NHSBT.
2. Today, WBS is a distinct service covering Wales. However, as traversed in the evidence received by the Inquiry, there was no such neat separation between the blood services in England and Wales for the periods the Inquiry has been considering. For much of it, the Welsh service was in effect a constituent centre of the English service. The history and relationship between the services has been set out in the following documents: the rule 9 response of Gail Mifflin **[WITN0672006]**; the brief history of the establishment and management of the Welsh blood service **[WITN6876002]**; the Updated NHSBT Family Tree **[WITN0672007]**; the Counsel to the Inquiry presentation on the history of the blood services in the UK **[INQY0000307]**; the first rule 9 response of Catherine O'Brien **[WITN6876001]**; and the rule 9 response of Tony Napier **[WTN6915001]**.
3. As those documents demonstrate, a large part of Wales was served by the NHSBT through a regional transfusion centre in Liverpool up until 2016, and the south of Wales was served by a single regional transfusion centre under NBTS (Wales), which ultimately answered to the Welsh Office within the UK government until 1999.¹

¹ The historically idiosyncratic nature of the blood service as described means that at times over the course of the Inquiry, the meaning of the phrase 'England and Wales' has been used where at times more appropriately it would have been 'England with North Wales', and where at other times it would have been 'England with North Wales, and additionally South Wales'.

4. Although WBS has accordingly been a smaller presence during the Inquiry compared to NHSBT, it has endeavoured to support the Inquiry to the best of its ability, including in respect of the sourcing and disclosure of historic documents, its provision of Rule 9 statements, and the giving of live evidence. WBS is a signatory to the Charter for Families Bereaved by Public Tragedy² and has endeavoured at all times to assist the Inquiry with openness, honesty and transparency.
5. At this closing stage, WBS agrees and endorses the comprehensive submissions and recommendations now advanced to the Inquiry by NHSBT. It does not seek to duplicate what has there been said, though observes that, in Wales, headway is already being made in areas which overlap some of the recommended actions, as a result of the Welsh-specific 'NHS Wales Blood Health Plan'³, initially launched in 2017. WBS will consider with care whatever recommendations the Inquiry makes, with a view to building on those improvements which have already started. In doing so it will work in collaboration with the other UK blood services through the Blood Services UK Forum, which is the vehicle for co-ordination and promotion of consistency and collaboration between UK services.
6. WBS wishes to offer its own apology to the Infected and Affected before concluding this brief submission. WBS recognises the utterly devastating impact upon the Infected and Affected of what has occurred, and apologises, without reservation, for the actions or inactions of its predecessor organisations which have contributed to bringing about what occurred.

QSP	17.1.23	Endorsed for Board approval

ACRONYMS

VCC	Velindre Cancer Centre
-----	------------------------

WBS	Welsh Blood Service
-----	---------------------

1. SITUATION/BACKGROUND

1.1 This report provides the equality monitoring data in line with the Equality Act 2010 and the Public Sector Equality Duty (2011). The equality duty was created under the Equality Act 2010. The equality duty replaced the race, disability and gender equality duties. The workforce statistics relating to protected characteristics as at 31 March 2022 can be seen in appendices 1 and 2. The data presented at Appendix 1 covers the full legal entity, including NHS Wales Shared Services, and the data presented at Appendix 2 is Velindre only, covering Velindre Cancer Centre, Welsh Blood Service and Corporate Services.

1.2 The Public Sector Equality Duty (PSED) requires that all public authorities covered under the specific duties in Wales should produce an annual equality report by 31st March each year. The essential purpose of the specific duties under the Equality Act, in relation to monitoring, is to help authorities to have better due regard to the need to achieve the three aims of the general duty, which are to:

- eliminate unlawful discrimination, harassment, victimisation and any other conduct prohibited by the Act;
- advance equality of opportunity between people who share a protected characteristic and people who do not share it;
- foster good relations between people who share a protected characteristic and people who do not share it.

Therefore, as a specific duty itself, the role of annual reporting is to support the Trust in meeting the general duty. It also has a role in setting out achievements and progress towards meeting the other specific duties. In particular, the annual report supports the Trust to have a better due regard to the duties by providing an opportunity to;

- Monitor and review progress;
- Monitor and review the effectiveness and appropriateness of arrangements;
- Review objectives and processes in light of new legislation and other new developments;
- Engage with stakeholders around these issues, providing partners and the public with transparency.

1.3 As well as meeting the Trust's obligations under the Public Sector Equality Duty, this data will inform the Trust's Workforce and OD actions, in the areas of recruitment, training and policy.

1.4 The report also includes a synopsis of progress made against the Trust's Strategic Equality Plan objectives, which run from 2020 to 2024.

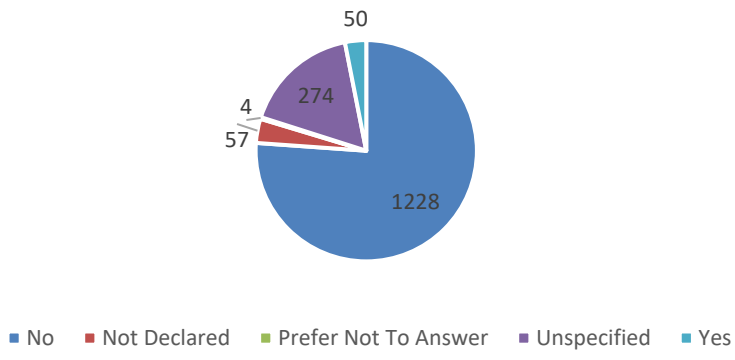

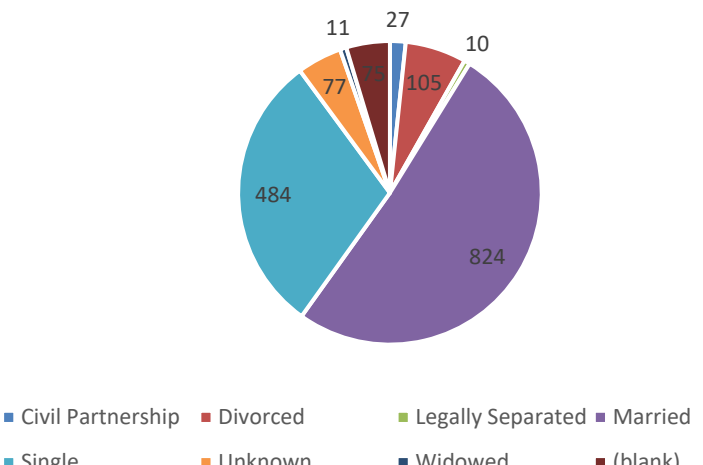

2. ASSESMENT / SUMMARY OF MATTERS FOR CONSIDERATION

There are nine protected characteristics under the Equality Act 2010 which all public sector organisation report on annually. Statistics are neutral; it is the picture they paint that can help us understand difference in experience of employees from different backgrounds.

The data for the combined organisation of 6,505 people is available at Appendix 1. The analysis below focuses on the 1,613 people at Velindre (excluding hosted) only, shown at Appendix 2.

<p>2 Disability 3% of the workforce have declared a disability compared with around 16% of the working population. However, 21% are listed as Not Declared/ Prefer not to Answer/ Unspecified which needs to be reviewed.</p> <p>The Trust is registered as a Disability Confident Employer Level 2 and is working towards Level 3.</p>	<p style="text-align: center;">Disability - Headcount</p>  <table border="1"> <thead> <tr> <th>Category</th> <th>Headcount</th> </tr> </thead> <tbody> <tr> <td>No</td> <td>1228</td> </tr> <tr> <td>Not Declared</td> <td>57</td> </tr> <tr> <td>Prefer Not To Answer</td> <td>4</td> </tr> <tr> <td>Unspecified</td> <td>274</td> </tr> <tr> <td>Yes</td> <td>50</td> </tr> </tbody> </table>	Category	Headcount	No	1228	Not Declared	57	Prefer Not To Answer	4	Unspecified	274	Yes	50

Asian	43																

7 Religion or Belief
40% Christian, 20% Atheist, 14% Do Not wish to Disclose. 16% unspecified needs to be followed up. The Trust has set up a Multi Faith Room at the VCC and is designing one for WBS at Talbot Green.

8 Sex (Gender)
75:25 split Female to Male. 58% of women have full time roles compared with 84% of men. Payscales for Men make a up a smaller proportion of jobs at Bands 7 and below than for Bands 8 and above. This area is dealt with more fully within the Gender Pay Gap report.

2.1 Progress with the five objectives in the Strategic Equality Plan is outlined below.

2.1.1 Increase workforce diversity and inclusion

A Widening Access Coordinator postholder has been working with local colleges and the community to offer a wider variety of routes into working in healthcare. The Trust has provided Internships and Apprenticeships to local people to support their education and employment experience. The Trust is working with HEIW on national careers initiatives, for clinical and non-clinical roles.

The Trust is accredited at Level 2 of Disability Confident and is working towards Level 3.

Staff Networks have been operational from time to time although participation was hampered due to COVID and related restrictions. A new phase of work started in 2022 to establish the networks and engagement opportunities that staff are looking for.

The focus on individual staff needs and risks that was required during COVID has left a positive legacy in terms of how people’s needs are considered at work. This has informed the Trust’s approach to hybrid working where instead of rigid policies regarding working location being applied to all staff, there are fundamental principles in place showing that service needs determine what work needs to be done and then there can be flexibility about how or where that is done to reflect individual preferences.

2.1.2 Eliminate pay gaps

The focus has been on the Gender Pay Gap with the Trust reporting in line with national requirements. The reporting cycle for this has been brought forward in 2022 to allow the Trust earlier identification of issues and opportunities to reduce the pay gap. This will be

supplemented by calculating the Race Pay Gap in 2023 in line with the Anti-Racism Wales plan and the Trust will also implement the policy on pay gaps in relation to Disability once the details have been issued.

All new posts are evaluated through the All Wales Job Evaluation process to counteract bias relating to preconceptions of the value of different work. Recent improvements to the recruitment process have made it easier for new staff to apply for incremental credit on appointment which will reduce disparity in starting salaries between people with a protected characteristic and those without.

2.1.3 Engage with the community

Patient feedback is gathered in VCC in relation to the provision of cancer services and to understand people's views and experience. Similarly, Donor feedback is used by WBS to refine their processes. A specific example is the work done to increase the diversity of the Bone Marrow donor panel. Approximately 2% of the Welsh Bone Marrow Donor Registry (WBMDR) panel is identified as minority ethnic and this is reflected in the blood donor panel. In recognition of this under-representation and to encourage ethnic diversity on the stem cell donor panel, the WBMDR have introduced registration for non-blood donors using mouth swabs instead of blood samples. Consequently, the service can recruit from communities not actively giving blood strengthening the ability of the WBMDR to recruit donors from all communities.

The WBMDR is actively engaging ethnic minority communities to understand the barriers to joining the stem cell donor panel. This includes the Welsh Race Forum and the National Black Asian and Minority Ethnic Transplant Alliance.

Velindre University NHS Trust uses an integrated assessment process for equality, wellbeing and socio-economic impact. This rounded approach means that all issues are raised and reviewed at the early stage of any project. For example, a recent EQIA on the inclusive design of our new VCC hospital in Cardiff examined the impact on people from a wide range of perspectives. This aims to ensure that everyone is able to participate and relax and have equal access to treatment. This would be achieved through making the building accessible from the beginning, giving clear signposting and communication and providing an on-site car parking and bus stop and future public transport links. This has the potential to reduce health inequalities

2.1.4 We communicate with people in ways that meet their needs

The Trust has implemented the Active Offer in relation to the Welsh language in VCC and WBS. Improvements have been achieved in the range of ways patients and donors can access service through the medium of Welsh.

The Trust uses the Wales Interpretation and Translation service which provides 24/7 translation support in 135 languages including BSL. Staff can access this when it will assist in

communicating with patients who do not communicate effectively in English.

2.1.5 Ensure service delivery reflects individual need.

Equality Impact Assessments are used to support any service development or change. These are comprehensive assessments covering the protected characteristics, socio-economic duty and sustainability. They are a systematic approach to ensure service delivery reflects individual needs.

In addition to Equality Impact Assessments, work has been in hand in VCC and WBS to tailor services. One specific example of this relates to lifting the ban on Gay men from blood donation in 2021.

On 14 June 2021 the UK rules around blood donation changed, allowing more people than ever before to be eligible to donate including people from the Men who have Sex with Men (MSM) community. Dr Stuart Blackmore from WBS played a leading role in the research that led to this change.

Prior to the change in donation rules we announced the changes through media releases distributed to national and local outlets, including Welsh Government and LGBT+ groups. The announcement was shared through national news outlets such as ITV, BBC and S4C. Detailed information was also provided through the WBS channels such as dedicated webpages, FAQs and social media posts.

On the day of launch a donation session was arranged featuring a gay male couple, a gay male and regular blood donor and the First Minister of Wales. ITV and BBC both filmed on the day and media releases were sent publicly, including Welsh Government, Wales247 and more. Announcements were made on the day via WBS social channels featuring quotes from the donors including the First Minister.

After the launch, the WBS continued to promote the introduction of the new rule over a 16-week period (one full cycle for donors) via SMS and social media updates. WBS' Dr Stuart Blackmore also represented the Service at a live Q&A held by Pride Cymru for the LGBT+ community. A full review was carried out to analyse the success of the campaign during National Blood Donor Week. Over 235,000 accounts were reached during the week.

As a result of this change we no longer ask donors about their sexuality, this makes it difficult to quantify the number of previously excluded individuals who have now become donors. Anecdotal feedback immediately after the change was extremely positive and continues to be so.

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	There are no specific quality and safety implications related to the activity outlined in this report.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability
EQUALITY IMPACT ASSESSMENT COMPLETED	Yes
	The work described in this report supports the organisation in its achievements of its duties under Equality legislation which benefits people across all protected characteristics
LEGAL IMPLICATIONS / IMPACT	Yes (Include further detail below)
	The Trust is required to publish its Equality Monitoring Information of 31 March 2022 by 31 March 2023.
FINANCIAL IMPLICATIONS / IMPACT	There is no direct impact on resources as a result of the activity outlined in this report.

4. RECOMMENDATION

The Trust Board is asked to **APPROVE** this report.

Executive Management Board	5.12.22	ENDORSED FOR APPROVAL
QSP	17.1.23	ENDORSED FOR APPROVAL

ACRONYMS	

1. SITUATION/BACKGROUND

- 1.1 The Equality Act 2010 (Specific Duties and Public Authorities) Regulations 2017 apply to a list of 'specified public authorities' in relation to the publication of their gender pay gap data, which came into force on 31 March 2017. These regulations underpin the Public-Sector Equality Duty and require relevant organisations to publish their gender pay gap by 30 March each year. This includes the mean and median gender pay gaps; the mean and median gender bonus gaps; the proportion of men and women who received bonuses; and the proportions of male and female employees in each pay quartile.
- 1.2 It is important for the Trust to analyse its pay data, to gain an understanding of any gaps, what this means for its workforce and as appropriate, use this information and data to develop an action plan that will respond to bridging any identified gender pay gaps.
- 1.3 The analysis of pay data as of 30 March 2022 was conducted earlier in the year than usual to allow the Trust to understand its current situation before developing the actions included in this report. The deadline for reporting these figures remains 30 March 2023.
- 1.4 The report attached therefore provides the Executive Management Board with the information to endorse for Board Approval the publication of the Trust Annual Gender Pay Gap Report.

2. ASSESSMENT / SUMMARY OF MATTERS FOR CONSIDERATION

- 2.1 The attached report provides data and narrative of activities for the mean and median gender pay gaps; the mean and median gender bonus gaps; the proportion of men and women who received bonuses; and the proportions of male and female employees in each pay quartile to ensure the Trust meets its legal requirements.
- 2.2 The report shows information of the summary of statistics below that are being detailed in the Gender Pay Gap Report.

<p>The Mean Gender Pay Gap is £0.88 an hour. Women are paid 4% less than men. The mean average hourly rate is £19.83 for women and £20.72 for men.</p>	<p>The Median Gender Pay Gap is £0.44 an hour. Women are paid 2% less than men. The median average hourly rate is £17.94 for women and £18.38 for men.</p>	<p>Men's mean bonus payment is £3,113 more than women's, a Mean Bonus Pay Gap of 43%</p>
		<p>Men's median bonus payment is £307 more than women's, a Median Bonus Pay Gap of 9%</p>

2.3 This report also analyses the situation for Velindre core services, when NHS Shared Services Partnership data is excluded. This level of detail has shown a different picture than that for the legal entity as a whole. In particular:

- The Mean Gender Pay Gap is 14%, not 4%. This is shown in context of Welsh Health Boards who have reported Gender Pay Gaps of 21%, 28% and 32% over the past two years.
- The Mean Bonus Gap is 47%, not 43%. However, the Median Bonus Gap falls from 9% for the combined figure to -7% for Velindre only, which means when looking at the median of bonus payments made to all staff, women are paid more than men. Thirty-four staff received a bonus in 2021-22, 20 women and 14 men, all within the Medical staff group.
- There is variation in the Gender Pay Gap depending on Staff Group. There is a gap for Medical and Dental of 3.2%, Estates and Ancillary of 4.5% and Nursing and Midwifery of 5.3%, all of which should be addressed. However, the key determinant of the 14% Gender Pay Gap is the 26.2% Gender Pay Gap for Administrative and Clerical where male staff are disproportionately represented in the higher pay bands.

2.4 Five actions were agreed in March 2022 linked to the previous Gender Pay Gap report. Progress with these actions over the past three months is listed below.

Actions set in March 2022	Progress as at November 2022
Pursue the Strategic Equality Objectives including eliminating pay gaps by 2024	All actions below support the elimination of gender pay gaps by 2024. This will be supplemented by consideration of the pay

	gaps for other groups, such as the Race Pay Gap, during 2022-23.
Undertake a programme of work offering opportunities for women to develop their leadership skills, build career aspirations and take on more senior roles. There will be a particular focus on female Medical staff in light of the bonus pay implication of the Clinical Excellence Award scheme.	<p>Two delegates completed the HEIW Talent Management Practitioner programme to allow the Trust to move forward with building career pathways to more senior roles, including supporting under-represented groups such as women. This work is being led by the Executive Director of OD and Workforce and will benefit from the sponsorship from the Executive Ambassador for Gender.</p> <p>Nationally, the Clinical Excellence Award Scheme has been changed to the National Clinical Impact Award Scheme specifically to counteract the Gender Pay Gap that resulted from the previous scheme.</p>
Improve recruitment processes and to ensure gender-sensitive language in adverts, gender-blind shortlisting and decision making and unconscious bias training for recruiting managers. Ensure all new staff understand how and when to apply for incremental credit on appointments.	The Attraction, Reward and Recognition project has been initiated to improve our approach to attracting and retaining talent. This includes reducing bias and promoting inclusivity. The process for applying for incremental credit on appointment has been revised and is now an integral part of the recruitment process.
To promote inclusive language when working externally in schools, colleges and within education and development training inside our organisation. To keep raising awareness and continue creating a culture of inclusivity.	The Trust has a Widening Access Coordinator who works with schools and colleges to improve access to NHS jobs and careers. The Inspire Leadership Development programme includes a module on Equality, Diversity and Inclusion which is supporting the development of an inclusive culture.
Supporting all staff equally in developing, through leadership, coaching and mentoring.	Leadership is one element within the Building our Future Together portfolio. During 2022-23 the Trust will be building resources for staff to access leadership development, coaching and mentoring. This will allow women, or other people who are currently underrepresented at more senior levels, to progress their professional development and their careers.

2.5 The actions for 2022-23 have been refined, taking into account the findings from the Gender Pay Gap as at March 2022 and these fall into six areas:

1. **Listening to women.** We will offer options for staff, male and female, to share their experiences and ideas relating to improving gender equality in the workplace. This will include options such as setting up an internal Gender Equality Network, joining other external Equality Networks and/or the introduction of Allyship in support of women.
2. **Implementing our Education Strategy in an equal and fair way**, supporting all staff in their personal and professional development. During the year we will develop a Talent Management approach based on principles of inclusion. This will be demonstrated through the range of leadership development and coaching and mentoring opportunities that are taken up by women and men. This will be offered in a way that does not unintentionally exclude any groups of staff, including on basis of gender or race. The allocation of funding for Study Leave will be reviewed to ensure fairness across the Trust.
3. **Utilising our development projects such as nVCC to create development opportunities for people at all levels of the organisation.** Where necessary, additional encouragement will be offered to offset any gender disparity in uptake. Project roles and responsibilities will be offered as development opportunities to existing staff, either as a secondment or as an addition to their current role.
4. **To deliver an Attraction, Recruitment and Retention project** to achieve effective and inclusive approaches to bringing people into our organisation and encouraging them to remain with us. This includes improving the recruitment processes to ensure that we use gender-sensitive language in adverts and use gender-neutral pronouns and clean language to prevent us from potentially putting women off from applying for positions. This will include highlighting all Agile working and family-friendly benefits and ensuring all new staff understand how and when they can apply for incremental credit on appointment. This will benefit all genders of applicants and offer an environment for more women to put themselves forward for employment.
5. **To promote inclusive language within education and development training inside our organisation, to keep raising awareness and continue to develop a culture of inclusivity.** Develop and deliver unconscious bias training that can firstly be delivered to managers so they can role model expected behaviours creating a peer-learning environment that models the values of the organisation.

6. **Monitoring of engagement with initiatives by gender.** The proportion of male and female staff taking up education programmes and development opportunities will be monitored to highlight if positive action is required. Analysis of recruitment will show whether job applications receive equal outcomes for men and women, from application, shortlisting and appointment.

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	There are no specific quality and safety implications related to the activity outlined in this report.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability
EQUALITY IMPACT ASSESSMENT COMPLETED	Yes The work described in the response to the gender pay gap analysis will benefit people on the basis of gender and also other protected characteristics
LEGAL IMPLICATIONS / IMPACT	Yes (Include further detail below) Legal requirement to publish by 30 March 2023
FINANCIAL IMPLICATIONS / IMPACT	There is no direct impact on resources as a result of the activity outlined in this report.

4. RECOMMENDATION

The Trust Board is asked to **APPROVE** the report.

GENDER PAY GAP

2022
REPORT

FORWARD

Velindre University NHS Trust aims to ensure that people are treated fairly and equally at work. Our focus ensures that staff has the same access and opportunities to reward, recognition, and career development.

The Trust believes that it is important to analyse its pay data, to gain an understanding of any gaps, what this means for our workforce, and as appropriate, to use this information and data to develop an action plan that will respond to any identified gender pay gaps.

WHAT IS THE GENDER PAY GAP

The gender pay gap shows the difference between the average (mean or median) earnings of male and female employees. It should be noted that gender pay gap analysis differs from that of equal pay issues, which deal with the pay differences between male and female employees who carry out the same jobs, or similar jobs, or work of equal value. It is unlawful to pay employees unequally because of their gender.

When gender pay reporting is used to its full potential, it provides a valuable tool to assist an organisation to assess levels of equality in the workplace, male and female participation, and how effectively talent is being maximised. A high gender pay gap can be an indication that there may be a number of issues that the organisation may need to deal with as a matter of priority. The individual gender pay calculations may help the organisation to identify what those issues are.

This document reports pay data on 31 March 2022. It represents Velindre University NHS Trust as a legal entity that also includes hosted organisations, NHS Wales Shared Services Partnership and Health Technology Wales. To better understand our pay gap, we have drilled down to some of the Divisions within the organisation and created actions to address issues which were not evident in the data for the composite organisation.

OUR GENDER PAY PROFILE 2022

On 31 March 2022 VUNHST employed 6,420 people, 40% male 60% female.

Mean and Median Pay

The **Mean Gender Pay Gap** is £0.88 an hour. Women are paid 4% less than men. The mean average hourly rate is £19.83 for women and £20.72 for men.

The **Median Gender Pay Gap** is £0.44 an hour. Women are paid 2% less than men. The median average hourly rate is £17.94 for women and £18.38 for men.

Bonus Pay

0.93% of men receive a bonus
1.53% of women receive a bonus

Men's mean bonus payment is £3,113 more than women's, a **Mean Bonus Pay Gap** of 43%

Men's median bonus payment is £307 more than women's, a **Median Bonus Pay Gap** of 9%

Quartile Range

When dividing the female workforce and the male workforce into four equal parts, men's pay and women's pay show different patterns with women being clustered in the middle quartiles and men more concentrated in the lowest and highest quartiles.

MOVEMENT BETWEEN 2021 AND 2022

The Mean Gender Pay Gap has stayed the same, at 4%. However, the Median Gap has decreased from 7% in 2021 to 2% in 2022.

The Mean Bonus Gap stayed the same at 43% whereas the Median Bonus Gap decreased from 22% to 9%.

The spread between the Quartiles for each gender is also very similar between 2021 and 2022 where we see Women clustered in Quartile 2 and 3 and Men tending to fall more towards either Quartile 1 or 4.

LOOKING BENEATH THE ORGANISATIONAL LEVEL DATA

The above report is based on the legal entity of 6,420 employees, 76% of whom work for NHS Wales Shared Services Partnership. If these people are taken out of the analysis, there are 1,567 employees in Velindre Cancer Centre, Welsh Blood Service and Corporate and other functions.

These 1,567 employees are spread between two Divisions and a combination of Corporate and other functions, as follows:

	Women	Men	Percentage Women	Percentage Men	Total Employees
Velindre Cancer Centre	595	176	77%	23%	771
Welsh Blood Service	315	116	73%	27%	431
Corporate and Other Functions	253	112	69%	30%	365
TOTAL	1,163	404	74%	26%	1,567

This shows that all three groupings are female dominated, with 77% of the Velindre Cancer Centre workforce, 73% of Welsh Blood Service and 69% of Corporate staff being Female.

Similarly, all staff groups are predominantly Female, however this becomes particularly pronounced with Allied Health Professionals and Nursing and Midwifery. The Staff Groups are ranked in order of gender diversity below.

Staff Group	Female to Male Ratio
Estates and Ancillary	53:47
Medical and Dental	58:42
Healthcare Scientists	59:41
Additional Professional, Scientific and Technical	71:29
Administrative and Clerical	75:25
Allied Health Professions	82:18
Nursing and Midwifery	93:7

The key statistics for Gender Pay Gap reporting are shown below. This shows a marked difference between the Trust position as a whole and that for Velindre. The Mean Gender Pay Gap increases from 4% to 14% and the Median Bonus Gap changes from 9% to -7% (meaning Women are paid more than Men).

	2022	2022	2022
	Velindre	NWSSP	Combined
Mean Gap	£2.95 an hour	3p an hour	88p an hour
Mean Gap	14%	<1%	4%
Median Gap	65p an hour	0	44p an hour
Median Gap	4%	0	2%
Mean Bonus Gap	£6,648	£813	£3,113
Mean Bonus Gap	47%	25%	43%
Median Bonus Gap	-£434	£1,319	£307
Median Bonus Gap	-7%	37%	9%

When looking into the detail of the spread of pay for all employees we see a difference between Welsh Blood Service and Velindre Cancer Centre and Corporate/Other functions with a higher proportion of staff being with Quartile 1. This difference is not linked to gender, as the graphs below show a similar line for Female and Male staff in Welsh Blood Service.

However, what is clear from these graphs is that there is a peak in Females in Velindre Cancer Centre in Pay Quartile 2, which is feeding into the overall pay structure within the Gender Pay Gap analysis.

CONCLUSIONS

- There has been very little change in our headline figures between 2021 and 2022. The Mean Gender Pay Gap stayed at 4% overall with a Mean Bonus Gap remaining at 43%. The Median figures have improved with the Median Pay Gap falling from 7% to 2% and the Median Bonus Gap going from 22% to 9% in the year. However, the gender split in the workforce has become slightly more polarised, going from 58% women in 2021 to 60% women in 2022. This reflects the picture for Velindre University NHS Trust, including NHS Wales Shared Services Partnership.
- When we drill down, we see that although the Mean Pay Gap for the Velindre University NHS Trust is 4%, when Shared Services are discounted it changes to 14%. This shows that specific actions are need in the clinical and corporate areas of the Trust.
- The Bonus Pay Gap reflects a small number of payments which tends to produce larger percentages. Despite there being an overall pay gap for the Trust, there is actually a negative Median Bonus Pay Gap in Velindre meaning that Women's median bonus payment is £434 higher than men's.
- All staff groups are female dominated and this is markedly so in Allied Health Professionals and Nursing and Midwifery. This does not necessarily cause a gender pay gap – it would depend on salaries earned being comparable to those in other staff groups. However, a more even gender balance would be desirable to create more diverse and inclusive teams and help reduce career-based gender stereotypes.
- Welsh Blood Service shows a different spread of people within the four Pay Quartiles, with an over-representation in Quartile 1 and a low representation in Quartiles 3 and 4 but this does not affect either gender specifically. Initiatives to improve career progression within the Welsh Blood Service can improve this trajectory so that the service has a more even distribution of pay.
- When comparing pay for men and women the key issue seen is a disproportionate representation of Women from Velindre Cancer Centre in Pay Quartile 2. This covers hourly salaries between £11.53 an hour and £16.18 an hour (base pay plus enhancements paid during the period) and includes people from all staff groups.

ACTIONS MOVING FORWARD FOR 2022 - 2023

The Trust is committed to its Strategic Equality Objectives including eliminating pay gaps by 2024. The action to achieve this over the next period are:

1. **Listening to women.** We will offer options for staff, male and female, to share their experiences and ideas relating to improving gender equality in the workplace. This will include options such as setting up an internal Gender Equality Network, joining other external Equality Networks and/or the introduction of Allyship in support of women.
2. **Implementing our Education Strategy in an equal and fair way,** supporting all staff in their personal and professional development. During the year we will develop a Talent Management approach based on principles of inclusion. This will be demonstrated through the range of leadership development and coaching and mentoring opportunities that are taken up by women and men. This will be offered in a way that does not unintentionally exclude any groups of staff, including on basis of gender or race. The allocation of funding for Study Leave will be reviewed to ensure fairness across the Trust.
3. **Utilising our development projects such as nVCC to create development opportunities for people at all levels of the organisation.** Where necessary, additional encouragement will be offered to offset any gender disparity in uptake. Project roles and responsibilities will be offered as development opportunities to existing staff, either as a secondment or as an addition to their current role.
4. **To deliver an Attraction, Recruitment and Retention project** to achieve effective and inclusive approaches to bringing people into our organisation and encouraging them to remain with us. This includes improving the recruitment processes to ensure that we use gender-sensitive language in adverts and use gender-neutral pronouns and clean language to prevent us from potentially putting women off from applying for positions. This will include highlighting all Agile working and family-friendly benefits and ensuring all new staff understand how and when they can apply for incremental credit on appointment. This will benefit all genders of applicants and offer an environment for more women to put themselves forward for employment.
5. **To promote inclusive language within education and development training inside our organisation, to keep raising awareness and continue to develop a culture of inclusivity.** Develop and deliver unconscious bias training that can firstly be delivered to managers so they can role model expected behaviours creating a peer-learning environment that models the values of the organisation.
6. **Monitoring of engagement with initiatives by gender.** The proportion of male and female staff taking up education programmes and development opportunities will be monitored to highlight if positive action is required. Analysis of recruitment will

show whether job applications receive equal outcomes for men and women, from application, shortlisting and appointment.

Gender

Velindre University NHS Trust

Catherine O'Brien, Chief Operating Officer
Executive Ambassador for Sex (Gender)

Definition

Sex- often related to biology is protected characteristic - in every-day language use the term Gender.

Gender *refers to the characteristics of women, men, girls and boys that are socially constructed. This includes norms, behaviours and roles associated with being a woman, man, girl or boy, as well as relationships with each other. As a social construct, gender varies from society to society and can change over time.* -World Health Organisation

Where someone falls on the spectrum of gender identity is not automatically connected to their expression, sexuality, or assigned sex at birth.

Sex vs Gender

THE LANCET

Source: Lancet Series on Gender Equality, Norms and Health. Paper 1, 2019

Legal Obligation

- The **Sex Discrimination Act 1975** (c. 65) was an Act of the Parliament of the United Kingdom which protected men and women from discrimination on the grounds of sex or marital status. The Act concerned employment, training, education, harassment, the provision of goods and services, and the disposal of premises.
- **The Equality Act 2010 – replaced SDA** - legally protects people from discrimination in the workplace and in wider society.

Public Sector Equality Duty (April 2011)

- Public bodies have to consider all individuals when carrying out their day-to-day work – in shaping policy, in delivering services and in relation to their own employees.
- Due regard to the need to:
 - eliminate discrimination
 - advance equality of opportunity
 - foster good relations between different people when carrying out their activities

Gender matters because...

European Institute for Gender Equality

In reality, also men benefit from gender equality as they too face gender-specific issues such as lower life expectancy, bad health, lower education levels and rigid gender norms. It is essential that both women and men are aware of the benefits that gender equality brings to them as individuals and as members of communities and societies.

Gender matters because...

- Social construct - influence how you engage in healthcare
- It can affect how much you earn over your lifetime
- Biology (gender) can influence your response to standard medical interventions
- It can shape what is expected of you in life
- It can be used as a reason for discrimination against you (conscious and unconscious)

My experience – prejudice and learning!!

What does that mean for VUNHST policy, staff & services ?

What part does gender play in how we operate?

What part does gender play in how we engage with patients and donors and the care they receive ?(not only what we offer !)

Do we know? Is it hard wired into how what we are and how we do it ?

VUNHST Demographic Profile

31 March 2022

	Women	Men	Percentage Women	Percentage Men	Total Employee
Velindre Cancer Centre	595	176	77%	23%	771
Welsh Blood Service	315	116	73%	27%	431

1. SITUATION/BACKGROUND

- 1.1** The attached report provides a summary of the Sustainability works from April 2021 – March 2022 within the Sustainability Team.

2. ASSESSMENT/SUMMARY OF MATTERS FOR CONSIDERATION

- 2.1** The purpose of the annual report is to provide an overview of the progress against key performance indicators, service improvement initiatives and approved relevant documentation throughout the year.
- 2.2** Throughout the year there has been significant progress in sustainability, both operationally and strategically. A few key achievements are highlighted in the report -

ISO14001:2015 – Recertification

Following a five day re-certification, the Trust successfully maintained the ISO14001:2015 Environmental Management System, with no non conformities identified.

Trust Travel Plan

A new Trust Travel Plan has been developed to inform and enact change in the everyday lives of our staff, in and outside the workplace. The plan will be in place from 2022-2027.

Green Social Prescribing

A new, free service has been introduced for anyone affected by cancer. The weekly sessions connect attendees with nature and embed the principles of the circular economy by using found and natural materials.

Industrial Placement Student

A first in NHS Wales, the Trust launched an Industrial Placement scheme, employing a Sustainability Placement student. The student working within the

Sustainability team and worked closely with the Transforming Cancer Services team.

3. IMPACT ASSESSMENT

QUALITY AND SAFETY IMPLICATIONS/IMPACT	There are no specific quality and safety implications related to the activity outlined in this report.
RELATED HEALTHCARE STANDARD	Governance, Leadership and Accountability If more than one Healthcare Standard applies please list below:
EQUALITY IMPACT ASSESSMENT COMPLETED	Not required
LEGAL IMPLICATIONS / IMPACT	Yes (Include further detail below) Compliance with Environment (Wales) Act 2016 Contribution to Well-being of Future Generations (Wales) Act 2015
FINANCIAL IMPLICATIONS / IMPACT	There is no direct impact on resources as a result of the activity outlined in this report.

4. RECOMMENDATION

- 4.1 The Trust Board are asked to **APPROVE** the Internal Annual Sustainability Report 2021-2022.

CONCLUSION

INTRODUCTION

Human activity has caused rapid and widespread changes to Earth's systems, driven by increased concentrations of greenhouse gases. The NHS is responsible for 2.6% of the total carbon footprint in Wales. It has fallen behind other sectors when it comes to response and reducing environmental impact, when these responses are more important than ever.

At COP26, it was agreed we as global citizens must now move forward together and deliver on the expectations set out in the Glasgow Climate Pact. It is up to all of us to sustain our model of keeping 1.5 degrees within reach and to continue our efforts to get finance flowing and boost adaptation.

The consumption of resources is necessary for the provision of healthcare services and to provide a comfortable environment for patients, donors, staff and visitors. We also have a responsibility to be transition to a new, sustainable world which minimises the use of resources and creates wider value. The last two years have posed unprecedented challenges for the Trust and NHS Wales, which has had a significant impact on our consumption, most notably use of single use items such as masks.

Despite this, the Trust has continued to be ambitious with our sustainability aims. We have developed strategic & operational goals and initiatives to ensure we are mitigating our impact and consumption to ensure we act today, for a more sustainable tomorrow.

SUSTAINABILITY STRATEGY

The Trust has created a suite of enabling strategies to outline the future of the organisation. This includes a Sustainability Strategy, which embeds the Well-being of Future Generations Act at its core. The strategy outlines our sustainability aims and enables real action to create positive and significant change.

To align with the NHS Wales Decarbonisation Plan, we have used 2018/2019 as our baseline data which we will monitor our progress against.

Our Trust Strategy 'Destination 2032' outlines a clear ambition for the organisation over the coming years; the delivery of high quality, sustainable health care services which reduce our impact on the environment and provides wider value to our communities. This is an exciting challenge for us which will require us to continue to pursue excellence in our clinical services whilst also making a contribution to the wealth, health and prosperity of across the country.

To develop the Trust Sustainability Strategy we have engaged with our staff, aligned with key legislation, and benchmarked against other NHS and private organisations. The strategy creates a roadmap for us to contribute to our communities and mitigate our impact on the planet whilst continuing to deliver world class services for our donors, patients and carers. This will only be possible if we enhance our existing infrastructure, and educate and empower our workforce. Every individual and team should have the ability to act sustainably and have the knowledge and confidence to make environmentally conscious decisions.

SUSTAINABILITY STRATEGY

To achieve this vision, we set out what we want to achieve together with ten themes which we will focus on to deliver our ambitions. These are driven by the United Nations Sustainable Development Goals and the Well-Being of Future Generations Act, which together ensure we achieve the our Trust Well-being Objectives.

Theme 1: Creating Wider Value: Our Organisational Approach

Theme 2: Sustainable Care Models

Theme 3: Eliminating Carbon

Theme 4: Sustainable Infrastructure

Theme 5: Transition to a Future of Renewables

Theme 6: Sustainable Use of Resources

Theme 7: Connecting with Nature

Theme 8: Greening our Travel and Transport

Theme 9: Adapting to Climate Change

Theme 10: Our People as Agents of Change

KEY ACHIEVEMENTS

Throughout the year there has been significant progress in sustainability, both operationally and strategically. A few key achievements have been highlighted below -

ISO14001:2015 - Recertification

Following a five day re-certification, the Trust successfully maintained the ISO14001:2015 Environmental Management System, with no non conformities identified.

Trust Travel Plan

A new Trust Travel Plan has been developed to inform and enact change in the every day lives of our staff, in and outside the workplace. The plan will be in place from 2022-2027.

Green Social Prescribing

A new, free service has been introduced for anyone affected by cancer. The weekly sessions connect attendees with nature and embed the principles of the circular economy by using found and natural materials.

Industrial Placement Scheme

A first in NHS Wales, the Trust launched an Industrial Placement scheme, employing an Sustainability Placement student. The student working within the Sustainability team and worked closely with the Transforming Cancer Services team.

ISO14001:2015

Welsh Government sets a requirement for all NHS bodies to be accredited by the ISO14001:2015 standard, an Environmental Management System (EMS). The Trust has successfully obtained the ISO 14001:2015 standard for the last five years for all sites.

At the end of 2021, the Trust was due a recertification audit, a more in depth review of the EMS. Each year, a different selection of sites are chosen to be reviewed. As the audit was a recertification rather than a surveillance audit, more sites were under the scope of audit.

The following sites were under review -

- Velindre NHS Trust Headquarters (1 day)
- Velindre Cancer Centre (2 days)
- Welsh Blood Service Talbot Green (1 day)
- Welsh Blood Service, Pembroke House (half a day)
- Welsh Blood Service, Unit 30, Llandegai Industrial Estate (half a day)

The Trust successfully obtained recertification and received zero non conformities. The external auditor noted, "The organisation have continued to maintain an effective Environmental Management System which is proactive in maintaining compliance with evolving processes to meet and exceed requirements set by regulators and governmental requirement. A plethora of information was discussed and evidenced by functional levels of the Management Team which was wholly delivered by an enthusiastic and competent personnel."

To continue the positive progress, an ISO14001:2015 Management Group has been formed to oversee all elements of the EMS. The group consists of key divisional colleagues who input into the Trust Environment Management System. The purpose of the group is to ensure sufficient and effective monitoring of the EMS. Members meet once a month and the agenda aligning with the Management Review timetable.

DECARBONISATION

The Trust was successful in obtaining bids in Welsh Governments Decarbonisation grant funds. The Trust has successfully obtained funding for the following –

- Velindre Cancer Centre Building Management System Upgrade
- Trust Headquarters LED Lighting Upgrade

Work was completed within the financial year 2021-2022 and monthly progress reports are submitted to Welsh Government via an EFAB tracker.

The LED lighting upgrades have continued across all sites, and where possible motion sensors and daylight sensors have been installed.

An in depth decarbonisation action plan as been developed which covers all aspects of our carbon footprint, ranging from transport to procurement. Aligning with the NHS Wales Decarbonisation Strategy, the detailed plan is an ambitious document which provides the Trust with a roadmap to be Net Zero by 2030.

Throughout the Trust, major capital programmes are being undertaken which will contribute significantly to our decarbonisation agenda. The Talbot Green Infrastructure upgrade project & new Velindre Cancer Centre will be large contributors. Throughout the year, the Sustainability team have provide sustainability advice & were directly involved in the Community Benefit workstreams to these capital programmes.

Our consumption reduction through projects and initiatives contributes to the Trust Well-being Objective, ***"Deliver bold solutions to the environmental challenges posed by our activities"***

WASTE

VELINDRE CANCER CENTRE

Waste has increased in the last financial year due to the impact of the pandemic. There has been a significant increase in PPE. Single use items had to be reintroduced on site due to adhere to necessary Infection, Prevention & Control measures implemented throughout the pandemic.

WELSH BLOOD SERVICE

Recycling
20%

High Temperature Disposal Heat Recovery
80%

WASTE

VELINDRE CANCER CENTRE

As the pandemic entered a new phase, and with IP & C approval, there have been either new waste campaigns, or reintroduction of previous ones employed pre-pandemic. At the Cancer Centre, extensive work has been undertaken to reduce single use plastic where possible.

The following is just some of the successful campaign;

- new bins in the Velindre Café, clearly signposted to for correct waste segregation
- Eco to Go cups & water bottles were relaunched, any profits made were given to fundraising.
- VegeWare (compostable material) have replaced single use plastic containers
- biodegradable aprons, trialled on First Floor ward. The aprons were cheaper, better for the environment, and the quality was the same as the plastic ones!

WELSH BLOOD SERVICE

Across all of the Welsh Blood Service sites, waste initiatives have been introduced to tackle our waste consumption, both in offices & with our donors.

The following has been introduced;

- new bins with clear signposted across all sites
- reusable water bottle, coffee cup & bag were provided to all staff members across WBS to encourage reusing
- plastic stirrers & straws have been removed from donor clinics and wooden replacements have been introduced
- biodegradable cup have been successfully trialled on West Collections team

WATER CONSUMPTION

WELSH BLOOD SERVICE

TRUST HEADQUARTERS

There has been a reduction of water consumption at all Welsh Blood Service sites and Trust Headquarters.

WBS has recently reduced water tank storage capacity due to a compliance recommendation. Robust flushing regimes are now agreed with building users and agile working is still taking place in various departments, however flushing will still be required in these parts of the building to maintain a safe water practices. Furthermore, Trust Headquarters & WBS staff have, where possible, been encouraged to work from home during the pandemic, which has contributed to the reduction in consumption.

VELINDRE CANCER CENTRE

The water consumption increase is due to an enhanced flushing regime in line with Water Safety guidelines & Infection, Prevention & Control measures.

BIODIVERSITY

As part of our compliance to the Environment (Wales) Act & specifically Section 6, we are enhancing biodiversity across all of our estate. To date we have had an external biodiversity audit undertaken and received recommendations which we are working towards to enhance ecosystems & local flora and fauna. There has been huge progress in this area in the past year, and a few highlights are listed below!

Biodiversity Enhancement Plans

Working in partnership with Crown Gardens, an action plan has been created to ensure we are enhancing biodiversity. Actions include reduction of mowing ('No Mow May' & 'Let it Bloom June'), sowing wildflowers and removal of invasive species.

Collaboration with South Wales Fire Service & Rescue

To celebrate NHS Sustainability Day for Action, run by NHS Sustainability Partnerships, and celebrated World Environment Day the SWFSR cleared the rubbish & debris by the river at Talbot Green - following assessment to ensure there is not nesting birds - to create a viewing area to the river. The team removed debris & rubbish. This area is fully accessible for staff and have recycled benches placed there for staff to have lunch or a break.

Nature Notices

To help give your audience an overview, this section can include a brief description of the goal, its relevance to your sector or industry, and the specific sub-targets your organization is addressing.

Alongside enhancing biodiversity, we aim to educate our community about its importance. Within the Environmental Awareness training a new biodiversity section has been introduced and infographics have been developed which are now included in the staff induction. Furthermore, the Trust has formed a partnership with Ray of Light, a South Wales-based charity who deliver weekly green social prescribing sessions, which contribute to our Well-being Objectives.

Improve the health and well-being of families across Wales by striving to care for the needs of the whole person

Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways

Bring communities and generations together through involvement in the planning and delivery of our services

Nature Based Support

Ray of Light host free green social prescribing sessions designed for those affected by cancer. The sessions are always based around the therapeutic properties of nature, and are centred around the core principles of finding a use for everything, with nothing being wasted.

Leadership Support

Following endorsement from PLG, Dignity Group and approval from the Senior Leadership Team, the Sustainability Team organised a pilot event with staff. Following helpful feedback, weekly sessions began every Tuesday.

Well Attended

Each session consists of a main activity followed by a mindfulness session. The feedback from attendees has been overwhelmingly positive, with regulars & newcomers every week.

TRAVEL & TRANSPORT

Trust Travel Plan 2022- 2027

Travel Plans are the Government's recommended method to widen travel choice, to promote more sustainable travel choices and to reduce single-occupancy car travel. The newly published Travel Plan aims to inform, and enact change in the everyday lives of our staff, in and outside of the workplace.

With all staff engaged in the plan, and publicising your behavioural changes with friends and family, we can enact cultural changes towards decarbonisation of the public sector by 2030 in Wales. An imperative in the context of the climate emergency. Following extensive engagement, the Travel Plan was drafted in 2021, to run from 2022 - 2027.

The Travel Plan aligns with the following Trust Well-being Objectives:

Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways.

Improve the health and well-being of families across Wales by striving to care for the needs of the whole person.

Deliver bold solutions to the environmental challenges posed by our activities.

Bring communities and generations together through involvement in the planning and delivery of our services.

The Staff Travel Survey was undertaken over the summer period in 2021 and accrued 438 responses. This enabled us to identify key trends across a number of different themes. Staff Travel Survey was conducted to establish a baseline in order to set targets and monitor progress, quantify how staff currently travel to work. It also helped us to understand the barriers preventing staff from travelling by more sustainable means.

Travel Plan Launch

The Travel Plan launch events were held in Velindre Cancer Centre & Talbot Green. There was spin bike challenges, Pin the Lock on the Bike & freebies to encourage more sustainable travel.

Next Bike

After being temporarily removed from Cardiff, Next Bike has returned and the Velindre Cancer Centre spot has been more popular than ever! To assist staff, a 'How To' guide & YouTube video has been created.

Cycle Confidence

Within the survey results many staff members noted they were not confident when cycling. In response, the Sustainability team worked with Cardiff Council to offer free Cycle Confidence training.

Electric Vehicle Fleet

At Welsh Blood Service, the first electric fleet vehicle is being trialled. The vehicle is part of a pilot and following review, will hopefully be rolled out across all of our Welsh Blood sites.

COMMUNICATION & ENGAGEMENT

To keep staff motivated and engaged in sustainability, there are continuous communications via global email, divisional newsletters, events & more! The below highlights the most successful communication campaigns over the past year! A sustainability email address has been created for staff to ask questions, propose ideas or feedback on initiatives.

Events

- Green Ambitions Showcase
- Spring Clean Cymru
- Pride Cymru - Sustainability Travel Plan Launch
- Litter Picks
- Sustainability Day for Action

Communications

- Recycle Week
- Eat Seasonally
- No Mow May
- Plastic Free July
- Secondhand September
- All I Want for Christmas is...

Green Ambitions Showcase

Design Advisor Phil Roberts and Project Director David Powell gave a series of presentations on the green imperative for the new Velindre Cancer Centre. These took place to inform and engage staff by sharing ideas and answering any questions.

SESSIONS
VCC 10th November
MS Teams: 18th November

KEY AREAS DISCUSSED:

- Building materials
- Flooding
- Mental health
- Transport links
- Biodiversity
- Clinical implications of design
- Cost and spending
- Community benefits
- Infection prevention and control

You asked:

DOES USING TIMBER POSE A FIRE RISK?
Whilst timber is combustible, as part of an engineered solution by a competent person, properly detailed, sized and fabricated timber can perform well in a fire as it chars which allows the structure to maintain its stability and integrity. We will look at where and how timber can be used appropriately as part of a sustainable design solution.

WILL PATIENTS HAVE PRIVACY IF THE SURROUNDING SITE IS PUBLIC ACCESS?
There will be a 20-30 metre buffer zone between public access areas and the hospital, ensuring patient privacy and experience is prioritised.

WILL THE NVCC HAVE FLEXIBILITY TO EXPAND WHEN BUILT?
Yes - it is in the design brief for bidders to create a flexible plan which will prevent viewless windows, i.e. in the current VCC due to unplanned expansion

HOW WILL GREEN ARCHITECTURE AFFECT RADIATION PROTECTION?
Protection from radiation is foremost in decision making, and normal bunkers will be used. However, exterior walls of bunkers can be covered in plants, creating a green and therapeutic landscape

WILL COST BE A FACTOR IN BUILDING THE HOSPITAL?
Cost will always be an important factor, but it will not inhibit the project. The bidders strive for quality of work, especially with the nVCC aiming to be the greenest hospital in the UK.

ARTS IN HEALTH

To achieve the ambitions outlined in the Sustainability Strategy & to become an exemplar in the Future Generations Act, the Trust considers the wider opportunities available to it as a healthcare provider, to enhance the performance of our primary functions and to increase the societal value it adds from discharging those functions. Arts and Culture have a material contribution to make to both of these opportunities.

ARTS MULTI DISCIPLINARY TEAM

The Arts Multidisciplinary Team (MDT) was created in autumn 2021, united by a passion for the arts, and a curiosity of how they can be beneficial in a healthcare setting. The MDT has grown to include members representing Oncology, Innovation, Sustainability, and more, leading to a communal varied and diverse skillset. Motivated by the Transforming Cancer Services programme, the MDT has been a fast paced, collaborative project.

SENIOR LEADERSHIP ENGAGEMENT

During a presentation to the Trust Board, at its development session in April, the breadth of the opportunities to improve patient experience and outcomes, and also to create to a higher quality working environment and experience for our workforce, from Art in Health activities. The presentation also highlighted the regional collaborative opportunities to work with our Health Board partners to integrate art in health across the cancer pathway and establish a research programme with academic partners.

RESOURCE & PARTNERSHIPS

The arts programme has begun to form partnerships on behalf of the Trust. There is a wealth of organisations within Wales, ranging from visual and performing arts groups and centres, to educational and research institutions, sporting groups, community wellbeing initiatives, and other healthcare organisations. A Regional Arts Board has been created with the Trust Commissioners. The Arts MDT has met with industry leads across to understand the opportunities and potential of the programme, which has been invaluable learnings.

The Trust has employed an Arts Consultant for the Transforming Cancer Services programme, drafted a job description for an Arts Coordinator & started an Arts in Health internship programme.

Cyngor Celfyddydau Cymru
Arts Council of Wales

Reduce health inequalities, make it easier to access the best possible healthcare when it is needed and help prevent ill health by collaborating with the people of Wales in novel ways.

Improve the health and well-being of families across Wales by striving to care for the needs of the whole person.

Strengthen the international reputation of the Trust as a centre of excellence for teaching, research and technical innovation whilst also making a lasting contribution to global well-being

Bring communities and generations together through involvement in the planning and delivery of our services.

Demonstrate respect for the diverse cultural heritage of modern Wales

EDUCATION & DEVELOPMENT

SSC STUDENTS

A number of Student Selected Component (SSC) medical students have worked with the Sustainability team to review & analyse different areas of the Trust. The projects ranged from single use plastic to carbon footprint of patient meals.

INDSUTRIAL PLACEMENT STUDENT

The Trust employed a student studying Geography with Sustainability during their Industrial Placement year. The placement student was based in the Sustainability department and the Transforming Cancer Services team. They will be undertaking their dissertation on the new hospital project.

ENVIRONMENTAL AWARENESS COMPLIANCE

The overall compliance Environmental Awareness compliance is at 81.33% at the end of the financial year. When the Sustainability team began delivering training, compliance was below 30%.

This improvement is despite in person training being paused due to the pandemic. Teams training sessions & e-learning have been available to staff. To further support this area, infographics on the KPIs have been developed are included within the Trust staff induction.

CONCLUSION

The Trust has made significant improvements which we will continue to build on. Our Trust Strategy 'Destination 2032' outlines a clear ambition for the organisation over the coming years; the delivery of high quality, sustainable health care services which reduce our impact on the environment and provides wider value to our communities. This is an exciting challenge for us which will require us to continue to pursue excellence in our clinical services whilst also making a contribution to the wealth, health and prosperity of across the country.

The importance of environmental interventions, sustainable solutions and working with our communities to deliver safe, high quality services and our long-term goals cannot be overstated.

**ENSURING WE CONTRIBUTE TO A
BETTER WORLD FOR FUTURE
GENERATIONS IN OUR COMMUNITY
AND ACROSS THE GLOBE...**

...acting today, for a more
sustainable tomorrow
